

BIG FIGHT FOR WEE CARD ENDS

Sheriff Taylor Wrests From Mother Six-Year-Old Boy
—Noted Divorce Case.

(Special Dispatch to The Journal.) Pendleton, Or., April 9.—After much noise and force possible to a henpecked husband, Sheriff Taylor, armed with an order from the court last night forcibly took from Mrs. Card the child whom she had refused to give to the divorced father and placed him in the custody of W. P. Card, the father, who has taken him out of town to a stock ranch.

The forcible taking of the son from the mother and placing him in the hands of the father was the result of one of the most interesting divorce cases in the history of Umatilla county. After being in the courts for several months, a divorce decree was granted Card, giving the mother to retain possession of the infant child but decreeing that the two older children should be turned over to the father.

Though this action was taken several months ago, the mother defied the courts and the father the child. Late last night the father, W. P. Card, secured an order from the court instructing the forcible taking of the child by the sheriff.

The former will have been living in town relatively unknown since his separation and was not hard to find. The little boy was just as defiant at the mother, however, and resisted the sheriff with all his strength and vigor, biting and scratching as he was carried away.

The child was finally reconciled somewhat, and was given to the father, who has taken him out to his large ranch in the country.

(United Press Leased Wire.) Rome, April 9.—J. Pierpoint Morgan today announced his desire to purchase one of the Wright aeroplanes and made known the fact that he had requested Wilbur Wright, the inventor, to take him up for a flight if his weight was not too great for the machine. Wright gave the first exhibition of his machine here yesterday afternoon and Morgan, who accompanied him, attaches of the various details on their visit to Wright's headquarters. Wilbur Wright explained his ship and gave a description of its operation. He made a short flight yesterday.

Wright will give a number of exhibitions and Morgan will be present as one of the most interested spectators.

Morgan had an interview yesterday with J. A. O. G. European manager for the Wrights, and made known his desire to buy an aeroplane.

GOTHAM IS FLOODED WITH EASTER LILIES

New York, April 9.—New York, as is customary at the pre-Easter season, has blossomed out into a veritable floral garden. Easter lilies and other spring flowers are to be seen at every turn. Probably in no other city of the country is the custom of flower decoration at Easter so prevalent as it is in the metropolis. The shapes of the florists display countless thousands of the typical Easter flower, but the display does not end there. At almost every prominent corner in the city, in every part but more particularly in Twenty-third street, Fifth and Sixth avenues and in One Hundred and Twenty-fifth street in Harlem, hundreds of these same vases convert the outer edge of the sidewalks into veritable flower gardens. And the gorgeous and varicolored display thus temptingly spread out seldom fails to coax the dimes and quarters out of the pocketbooks.

To supply the New York market at this time of the year the number of Easter lilies required is far greater than is grown in this part of the country. The dealers look to Bermuda to supply the deficiency. During the past few days all of the ships arriving from the islands have been laden to their fullest capacity with Easter lilies. The cargo of a single ship contained upwards of 10,000 boxes of the fragrant buds. But the supply, enormous as it is, seems never in excess of the demand and the price at which the flowers are now retailing in New York is about the same as in former years.

BLOODHOUND TESTED AND MAKES GOOD

(United Press Leased Wire.) Tacoma, Wash., April 9.—Curious to know whether a bloodhound is as vicious as it is reputed to be several boys at Gig harbor unmuzzled and unleashed the bloodhound belonging to J. A. Mitchell. The dog, a fierce bloodhound, leaped upon and severely bit her. Before he could be driven away the woman had been so seriously mangled that it was necessary to remove her to a hospital here. It is thought she will recover.

Brautigan, the injured woman's husband, has sworn out a warrant for the arrest of Mitchell, charging him with keeping a vicious dog. The hound was brought from Kentucky, where it was in service at the penitentiary of that state.

ELECTION AT CANYON CITY IS INTERESTING

(Special Dispatch to The Journal.) Canyon City, Or., April 9.—Not in recent years have been keen interest taken in a city election as was taken in the election yesterday. The liquor interests arrayed themselves against the "prohibition." Canyon City has always been a dry town, but precinct, but the returns would indicate that the forces are about equally divided.

The fight was made on the office of recorder and the members of the city council. Eighty-nine votes were cast following the results of the candidates: Mayor, Neil Nease; recorder, R. E. Chambers; treasurer, T. H. Bassett; recorder, councilmen, Sam Baker, Ferguson Finlayson, R. A. Hinman, Zell Wallace and William H. Schreiber.

FULTON DOESN'T WANT POSITION

Friends Convinced He Will
Not Accept Offer of
Post in China.

Charles W. Fulton has no ambition to be an extraordinary ambassador and plenipotentiary minister among the savants of the land of the dragon, according to his friends. More than that, he will not go to China, not even for \$17,000 a year, according to these same friends.

Among those of Senator Fulton's friends in Portland who are close to him it is confidentially asserted that the senator has no intention of accepting the post of ambassador to China. He wanted to be judge and wear the ermine of the federal bench, not to go to China, desert his practice here, and then in all probability come back some four or eight years from now to represent all the interests of America in concert with his old friends. He could not be appointed United States judge, his friends assert, he does not want any diplomatic solution of the problem.

Senator Fulton has left for Portland and will return next Friday evening, in which to consider the China appointment, it is believed that he has already made up his mind not to accept the offer. He will remain in the office in Portland and build up the practice which has naturally lapsed during his absence in the senate.

On no hand, among the senator's friends, is it believed that he will consider the China offer seriously.

The remaining cars were saved with difficulty. No one was seriously burned but the agent was compelled to leap from the smoking train to save his life. Sparks from the locomotive are supposed to have caused the fire. A large quantity of mail was lost.

AGAIN THREE CENT FARES IN MISSOURI

St. Louis, Mo., April 9.—The three cent rate will be restored tomorrow on all of the 18 railroads doing business in Missouri. The change follows the recent decision of Judge McPherson, holding the two cent rate law to be unconstitutional.

The new rates agreed upon are as follows: two thousand miles interchangeable book on certificate plan at two cents a mile; 500 mile book, good for bearer on all lines in Missouri, at two and a half cents a mile; 300 mile books, good for the individual only on the lines of the individual issuing, two and a quarter cents a mile, and the three cent basis for single trips, with a 10 per cent reduction on round trip tickets. The mileage books will be limited to one month's date.

It is proposed to put into effect the changes in the interstate rates as soon as they can be filled with the interstate commerce commission under the new and 20 day notice. This is the opinion of the railroad officials that the Missouri decision undoubtedly will be taken into consideration in other states where the low fare laws are in litigation, and therefore has been decided to make no move in this state where the laws have not been questioned until the courts have settled the rate contests now on in Arkansas, Minnesota, South Dakota and Nebraska.

SEATTLE KICKS ON ICE STAMP

Chides East for Ignorance
and Gets After Post-
master General.

(United Press Leased Wire.) Seattle, Wash., April 9.—Upon reading in the newspapers that Postmaster General Hitchcock had approved the special Alaska-Yukon-Pacific exposition postage stamp carrying a design showing a seal standing by a cable office, the chamber of commerce and the officers of the exposition jointly signed the following telegram:

"Honorable R. A. Ballinger, Secretary of the Interior, Washington: Believe

it is the prevailing style in women's headgear voiced in no uncertain terms by Bishop Moore of the Cincinnati conference of the Methodist Episcopal church. The emblem of Alaska is land of snow and icebergs. Won't you protest to postmaster general?" (Signed)

SEATTLE CHAMBER COMMERCE.

It is stated that while the design as approved might be attractive, it was only appropriate through the general lack of knowledge on the part of a majority of the people in the east concerning the true conditions of the northern country.

"A seal rampant on a cake of ice might be all right for a postage stamp issued in commemoration of the exposition, but the northwest passage, said member of the chamber today, but it is hardly in keeping with the agricultural, livestock and other exhibits that will be used to show what Alaska can raise and produce. Let me assure you, especially Indian picking strawberries or a miner with his head enshrouded in a mosquito netting while he works under a blazing sun, would not be amiss, but a seal, looking like Simpson, on a cake of ice is an inappropriate as a fur lined coat at the Panama canal."

(United Press Leased Wire.) San Francisco, April 9.—Hanging to the wire clothesline in the yard of an unoccupied house, John Winkler, a prominent lawyer, was found dead yesterday morning. He had been dead for several hours and had left nothing in his pockets by which identification further than his name could be established. Winkler tied the unused end of the wire clothesline about his neck and allowed his body to hang suspended from the pole.
