

# FESTAL WEEK ON ESPEE'S ADVENT

### Klamath Citizens Pledge to Raise \$5000 for Celebration of Epochal Occasion—Thousands of Visitors Expected.

(Special Dispatch to The Journal.)  
Klamath Falls, Or., April 13.—The chamber of commerce is laying plans for a big celebration on the inauguration of service into this city by the railroad. The people of the city and the entire county are enthusiastic. The chamber has decided on a fund of \$5000 to be used in advertising and for attractions on the date of the event. The citizens are contributing liberally to the fund, and railroad week will be an epochal occasion in the history of the county.

Tents and camping grounds will be arranged for the accommodation of 2000 people. With the assistance of the railroad excursions are planned from Portland, San Francisco and Sacramento. It is expected that during railroad week fully 10,000 will be in the city. One of the attractions will be an old-fashioned Indian village on the outskirts of the town. Two or 300 Indians with their families and ponies will be camped close to the city and will hold daily parades and Indian pony races.

### Grand Water Carnival.

A grand water carnival for the evening is being arranged. Hundreds of craft will participate in the parade, and each will be decorated and illuminated with lanterns and red fire. The city is beautifully situated for this purpose, overlooking Lake Ewauna. Excursions to Holland on the railroad and the steamboats will be run for the benefit of the people from the country.

Other details of the carnival have not been worked out, but the people are entering into the affair with overflowing enthusiasm, and have given up the Fourth of July and all other celebrations to devote their funds and efforts to make the "railroad celebration" an unqualified success.

### 1ST DIVIDEND OF LA GRANDE BANK

(Special Dispatch to The Journal.)  
La Grande, Or., April 13.—The checks for the first dividend of the Farmers and Traders bank arrived this morning and will be given out tomorrow. They aggregate \$93,522.25. The largest individual check is to Peter O'Sullivan for \$4796.50. The largest check is to County Treasurer Fraxley, \$9515.84.

O'Sullivan deposited his money less than a week before the crash. Additional claims filed will bring the total dividend eventually to \$100,000.

### GLENDALE MAN SENDS FROD BROTHER'S BODY

(Special Dispatch to The Journal.)  
Wenatchee, Wash., April 13.—The body of E. W. Nail, one of the men killed in the crash of the Saturday, was shipped to Glendale, Or., today, according to instructions received from a brother, W. W. Althoff.

Another evidence was introduced at the coroner's inquest tending to show negligence on the part of the Standard, the contractors, a verdict was rendered stating that the death of the men was not due to criminal carelessness.

TICKET OFFICES: 122 3d st., near Washington 255 Morrison st., corner 3d 11th and Hoyt sts. Passenger Station.

# NINE SALOONS GO OUT OF BUSINESS

### Enforcement of Law Cuts Off Revenue From Places Catering to Women.

Nine saloons went out of business during the three months ending March 31. Enforcement of the Cellars anti-women-in-saloon law and agitation against long continued abuses by liquor dealers have combined to cut down profits and the establishments that have closed did so because they could not make enough to pay the quarterly license fee of \$500.

Deputy Auditor Hutchinson of the liquor license department believes that more saloons will be forced to shut down during the coming quarter. There are now but 430 of the liquor licenses as compared to 444 when the \$500 annual license fee went into effect. As the law which fixed this fee limited the number of saloons to one for every 500 of population no new licenses can be issued until after the federal census next year when the statistics of the city's population will be known.

### CHARGES AGAINST LYONS DISMISSED

#### But to Allay Feeling He Will Be Transferred to a Season.

(United Press Leased Wire.)  
Washington, April 13.—Charges against Judge Lyons of Alaska were dismissed today by the department of justice. The president will probably return Lyons' nomination for reappointment to the bench Thursday.

George M. Nowell of Boston, who made the original charges against Lyons, is not satisfied with the action of the department of justice and threatens to take the matter before the judicial committee of the senate.

Because of the ill feeling engendered by the squabble Judge Lyons will be assigned to the other Alaskan division for a year or two.

### CHANGE OF VENUE WHILE YOU WAIT

San Francisco, April 13.—Governor Gillett announced today that he would veto the change of venue bill passed at the last session of the state legislature. The announcement was made in a letter addressed to Osgood Putman, a member of the League of Justice here.

### AFFINITY BROKER NEEDED THE MONEY

Chicago, April 13.—Sentence of one year's imprisonment imposed on Marion Grey, affluity broker, by Judge K. M. Landis, was sustained today by the United States court of appeals.

Miss Grey, who is a charming young woman, admitted that she had swindled her victims but excused herself on the ground that she used that means of paying her way through college.

### PRETTY JAPANESE

Miss Yori Komatsu, the pretty young Japanese maid who was married to Toyo Kikuchi on April 3 in Brooklyn, N. Y. The ceremony was performed by a Japanese minister. Miss Komatsu is said to be the first Japanese woman who applied for a marriage license in New York city. The youngest editor and the smallest newspaper in the world.

# GREATER BREAK FOUND IN MAIN

### Diver Reports Putting Foot Into Hole in Cast Pipe—Leak in Steel Conduit Not Located—Water by Next Thursday.

Bull Run water will not be supplied to the west side before Thursday night and there is a strong probability that both mains will not be ready for service before the first of next week.

Pressures and breaks in the huge cast-iron main, one of the two conduits which must be depended upon to convey the water to the west side, were discovered by Walter Stirling, the diver, this morning, but because of the pressure still in the pipe he could not ascertain the exact amount of damage.

Both breaks, as far as can be discovered, are about 75 feet inside the wharf line at the docks of the Oregon Water Power & Railway company, on the river. All day yesterday, last night and this morning a dredge worked scooping out the sand and gravel which covered the main.

Portions of both the iron and steel conduits had been exposed this afternoon and the break in the iron main definitely located. Water was turned into the lines early today to aid the divers. When Diver Stirling ascended some time later sufficient pressure was still present to force rocks and gravel away from the break. He succeeded, however, in getting his foot into the break.

### Other Break Smaller.

The break in the steel pipe is without doubt nearby, but as the opening must be smaller than that in the iron pipe, evidenced by the fact that a pressure of 35 pounds can yet be maintained through it on the west side, it is more difficult to locate.

Not having a definite idea as to the extent to the breaks, and the work which would be entailed to make repairs, water department engineers cannot make an estimate of the time required to fix the pipes.

"We have not the slightest idea when the conduits can be repaired," declared Superintendent Dodge today.

Two theories are there for the breakage of the mains. The most popular is that electrolysis, caused by the nearby substation wires grounded in connection with the same mining cases, particularly the Silver Bow case in Alaska.

Another theory is that the pipes, having been laid upon a concrete foundation, and one that would not give with the ground about it, caused the immense weight above to strain in the main.

Neither can there be any estimate made of the cost of the repairs. That the amount will be well up in the thousands is as nearly definite as can be stated.

### No Danger of Shortage.

City and water department officials fear at all suggestion of a possible water famine. The Palatine hill pumping station is working well today and supplying all the Willamette river water necessary for economical use.

Superintendent Dodge asserted today that there still remained enough Bull Run water in the reservoirs on Portland Heights, Willamette Heights and South Portland to last, for economical use, for several days. The supply in the last two named reservoirs should last for two days yet, according to Diver Dodge, while the supply in the Portland Heights tank should hold out for four days more.

Dr. R. C. Yenny, secretary of the state board of health, while warning all users of river water to boil it thoroughly, said today that residents of the three west side sections where the Bull Run water is still on tap need not take such precautions.

The Portland Heights reservoir furnishes water to residents of the entire district of Portland Heights south of the Canyon road. The tank on Willamette Heights supplies water to residents of the district northwest of Balch creek, and the south Portland reservoir to those living between the city and the head of Bancroft avenue and south of Lowell avenue.

Dr. Yenny strongly advises all who are using water from the Bull Run reservoir to be on the safe side by boiling. "Typhoid germs in water have no fear of water," asserted the physician today.

### Can Find No Germ.

Dr. Ralph C. Matson, city bacteriologist, has made a detailed analysis of the river water during the last three days, but as yet has discovered no distinctive germs. "However, it would take several days for the bacteria to properly develop," he said today.

Dr. Yenny has suggested that when the Bull Run water again turned on in the mains, the reservoirs into which river water has been run be thoroughly scrubbed and cleaned. "This would be absolutely necessary, but it is well to take precautions," said Dr. Yenny.

# GO BY THE DIET BOOK

### It Explains the Tonic Treatment for Stomach Trouble That Is Making Such Remarkable Cures.

"The processes of digestion are controlled by the blood and nerves. That is why the tonic treatment with Dr. Williams' Pink Pills by which the blood is built up, has cured so many cases of stubborn stomach trouble.

Many people are suffering daily from stomach trouble because they cling to old-fashioned methods, eat predigested foods and in other ways aggravate the disorder they seek to cure. But predigestion must give way before proper such as the cure of Mr. John T. Timmons, a well-known newspaper writer, of Caddis, Ohio, offers. He says:

"For 15 or more years I suffered severely with dyspepsia and a weak stomach, and in a sense was a burden to myself and others. I was thin and pale, had no ambition, suffered with cramps in my stomach, and finally my kidneys became affected. My tongue was coated and I had a bad taste in my mouth. I was limited in my eating and bowels from which I could get no relief unless I starved myself. Following these attacks I had to eat very light food. My heart was weak and in going up stairs or ascending a hill would beat rapidly and on several occasions caused me to fall. I was under a doctor's care all of the time, but his medicine did not help me. I struggled along in this manner until I became desperate. I tried many remedies, but was guaranteed to cure, but without gaining any benefit.

"As a last resort I decided to try Dr. Williams' Pink Pills, and I was changed for the better in a very short time, and continued to take the pills, making wonderful improvement. I now weigh over 200 pounds while during the many years I suffered I only weighed about 100. I do not suffer from constipation and am the picture of health. I consider owe my present condition to Dr. Williams' Pink Pills."

A diet book containing full information about the tonic treatment will be sent free upon request. Dr. Williams' Pink Pills are sold by all druggists, or sent postpaid on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

### WHY MARY IS NOT OUT ON THE BILLOWS

(United Press Leased Wire.)  
New York, April 13.—Mary Garden did not sail for Europe today on the Kron Prins Wilhelm, on which Oscar Hammerstein is crossing to Europe. Miss Garden cancelled her reservations yesterday, while feeling "peevish." Explaining her sudden change in plans Miss Garden said:

"I caught a bad cold in Boston and am not feeling fit for the voyage. I have decided to wait until next week. A representative of Oscar Hammerstein saved me out of the following explanation: "Miss Garden's mother has not been well for some time and on her account the Kron Prinsessin Cecilia, sailing Tuesday."

### Earl & Wilson Civett Star Wilson Bros.

\$1.50 to \$3.00

Plain and Plaited Bosoms—Attached and Separate Cuffs—
