Do You Think Uncle Sam's Whiskey Test the Best?

Here is everything that your Uncle Sam requires of whiskey before he will place the little green stamp over the cork of the bottle: That it pass the test of the U.S. gauger as coming up to the governmental standard of purity, being straight, 100 proof, full measure and aged at least four years. Here is the famous Cedar Brook test:

Not only must all the requirements of Uncle Sam be met, but there must be quality supreme, a wonder-ful flavor, delicacy, smoothness, individuality. It must be aged six to eight years. Only choicest selected grains and purest spring

water used.

Compare the age. It will show you the difference in the tests. Uncle Sam requires four years, while Cedar Brook requires six to eight. It has the green stamp on every bottle, and it meets the Cedar Brook test, TOO. The world's best whiskey since 1847. At all places where good liquor is sold.

20 Years **WithHeartTrouble** 

"Dr. Miles' Heart Remedy has cured me of heart disease of over 20 years' standing. I was so bad that I could not do my work, and could scarcely draw a full breath without fainting or smothering. The doctor told me he could do no more for me; then I commenced taking the Heart Remedy. I shall never forget that night. I slept better than I had before in months. I kept right on, getting better, until I was perfectly well." MRS. LAURA RUSSELL,

Logan, Iowa.

When the heart action is weak, it fails to pump the blood through the lungs with sufficient rapidity. Then the lungs do not absorb the proper amount of oxygen, although they may be taking in a normal amount of air. The result is shortness of breath, smothering spells, difficult breathing, oppressed feeling in chest. Dr. Miles' Heart Remedy strengthens the heart nerves and muscles, and in this way increases the circulation.
