RETENTION OF CALIFORNIA SHIPMENTS OF LAST WINTER

Cleaned Out Every Source of Supply.

VALUES INCREASE AT RAPID RATE

Steam Schooner Nome City Brings 250 Tons of Grain Consigned to Local Shipper Who Has Been Sending Away Barley All Season.

For the first time in many months a large shipment of grain arrived here this morning. For years Portland has exported all kinds of cereals and flour but it is very seldom indeed that such commodities need be brought in. The shipment came on the steam schooner Nome City, Captain Hanson, which reached Couch street dock about noon today from San Francisco. The manifest shows there to be 350 tons of barley in the hold, consigned to W. A. Gordon & Co., and to be delivered at the mills of the Portland Flouring Mills company.

The transaction is much the same as taking coal to Newcastle or going over the river for flour. The only difference is found in the fact that last summer and throughout the winter Portland has been sending to such California ports that there is none left. And so the only thing to do is to bring some of it back again.

Barley, like wheat, has advanced heavily and farmers are now paid, so that it will be worth the while even if two freights have to be provided for the cargo.

The Nome City reached the river last night at 11 o'clock, after a stormy trip up the coast. She went to Couch street dock immediately after her arrival at harbor to permit the passengers to disembark and to discharge a quantity of miscellaneous cargo at various points for the flour mills to discharge the barley.

Captain Hagemann was elected temporary chairman but the election will probably be made permanent when Mr. Pendleton returns from the east. No matter of particular importance was taken up at the meeting, but it was desired to have all the members present. The three members of the board are now in their respective positions. Judge Taylor was appointed by ex-Governor Chamberlain and Commissioner Hagemann and Pendleton were appointed by Governor Benson.

"Two bits or walk" will be the rule of the leaving streets of Portland, taking effect May 1, which abolishes the free bus system in Portland. The fee will be assessed not only because the old system has not been found profitable, but because Portland is today the only city of its size in the United States where hotels give their guests free
