

CLUB WOMEN ISSUE FACTORY

Begin Campaign to Stimulate Interest in Home Industries.

In order to stimulate interest in and patronage of home industries a committee of women from the Woman's club yesterday made the first series of excursions to Portland's industrial plants. The plan was suggested by Mrs. Robert L. Lusk, president of the club, by the publicity department of the Commercial club, in connection with the \$50,000 in 1910 campaign.

Personal inspection of home industries, it is hoped, will stimulate patronage of home concerns and afford opportunity for all home manufacturers to enlarge their business, thus affording employment for the many who will be drawn to the city by the next year and who will need work.

Four big automobiles were in waiting yesterday for the use of the committee of women who made the trip. Those who were selected to make the first trip were the president, Mrs. Robert L. Lusk, and the chairman of the various committees, Mrs. Cleveland Rockwell, Mrs. J. C. Pritchard, Mrs. A. H. Breyman, Mrs. W. H. Wear, Mrs. William Gadsby, Mrs. G. M. Gilman, Mrs. H. J. Jackson, Mrs. J. W. Tiff, Mrs. C. E. Hunyon, Mrs. B. T. Weaver, Mrs. G. E. Watt, Mrs. W. H. Sigmund, Mrs. P. P. Wile and Mrs. James Moffatt.

A visit was made to the furniture and cash and door factory of the Pacific Manufacturing company, where the women were shown the various departments, the playroom, the machine room, the cabinet and turning room, and the furniture display room, showing the finished product in handsome desks, tables, lodge furniture, davenport and library chairs.

These visits of inspection will be made at intervals in order that the members of the Woman's club may give intelligent patronage to goods of home production and so stimulate the industrial progress of the city.

LARGE LOGGING CAMPS CLOSE

Dull Market for Product Results in Enforced Vacation for Men.

Loggers by the hundred are arriving here nowadays, several camps on the lower Columbia having closed down temporarily. The men have worked hard in the woods all winter and are glad to get a vacation, although this is the time of year when they should be at work.

Apathy in the log market is the cause to which the closing down of the camps is attributed. Rather than put in more logs than they can readily handle by the sawmills, the loggers decided to reduce the output, even should it become necessary to close down completely for a while.

Among the larger camps that have closed during the past few days is that of the Wisconsin Logging & Timbers company at Oak Point. About 200 men have been employed there this spring and most of them are now in the city enjoying the vacation. They have certain how long it will be before they receive word to return to work.

The tariff reduction is held largely responsible for the quiet lumber market in the middle states and this in turn has had an effect upon the lumber business and logging.

SUFRAGETTES IN WORLD CONVENTION

London, April 27.—Prominent women suffragists from all quarters of the world have arrived in London for the quinquennial meeting of the International Women's Suffrage Alliance, which is to have its formal opening in St. James' hall tomorrow. Various committee meetings were held today at which the final details of the convention program were completed.

The object of the convention is to revise the constitution of the alliance, to elect officers and to adopt plans for future work and a recognized system of parliamentary usage which may be recorded as national.

Between 15 and 20 countries are sending delegates to the gathering. Among them are England, the United States, Germany, Australia, Canada, Denmark, Finland, Italy, Norway, Russia, Hungary, Sweden, Switzerland, the Netherlands and South Africa.

America is well represented, particularly among the officials. Mrs. Carrie Chapman Catt of New York is the president of the international body, and Rachel Foster Avery of Pennsylvania is the secretary. Other American delegates include Mrs. Ida Hunter Harper, the Rev. Anna Howard Shaw, Miss Lucy Anthony, the Rev. Mary Safford and Miss Caroline Graham.

A fine array of talent has been obtained to address the various meetings, consisting of prominent men and women who have become famous for their devotion and labor along different lines of human activity.

Seattle Lineman Electrocuted.

Seattle, April 27.—Receiving a charge of 2300 volts of electricity while working at the top of a pole, J. A. Ham, a lineman, is dead. Ham was a fellow workman with the Seattle Electric company last evening and had one wire in each hand when an accident occurred and the entire voltage shot through his body. He was lowered to the ground by means of ropes and hurried to a hospital but died before aid could be administered.

LEARNING THINGS

We Are All in the Apprentice Class.

When a simple change of diet brings back health and happiness the story is briefly told. A lady of Springfield, Ill., says:

"I have been afflicted for years with nervousness and heart trouble that I could not get over. I had been for some time in such a condition that my life was despaired of."

"I could get no relief from doctors nor from the numerous heart and nerve remedies I tried, because I didn't know that coffee was doing me more harm than the doctors could put me ahead."

"Finally at the request of a friend I left off coffee and began the use of Postum and against my convictions I gradually improved in health until in the past 6 or 8 months I have been entirely free from nervousness and those terrible sinking, weakening spells of heart trouble."

"My troubles all came from the use of coffee which I had drunk from childhood and yet they disappeared when I quit coffee and took up the use of Postum."

Many people marvel at the effects of leaving off coffee and drinking Postum, but there is nothing marvelous about it—only common sense. Coffee is a stimulant. That's the reason.

Look in page for the famous little book, "The Road to Wellville."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

RASER STILL LEADING SAVINGS CONTEST

Herewith is presented the score in The Journal savings contest, which included all votes received up to and including Saturday night, April 24. Several new contestants appear and a great many changes have taken place since last week, although the first two leaders hold about the same position. Will Raser continues to lead for the second week, George Schuchman running a very close second and is bound to be heard from this week. Emil Schuchman has been out of the game this week, but will be back at work soon.

Kenneth Hollister, Loyal Blanco and Warner Windigale all make substantial increases in their scores and are hard to work determined to head the list soon. Margaret Stinson of Warrenton is steadily climbing to the top although she has a very small territory to work in. William McKevitt jumps from third second place to eighth place, and gives notice that he is at work to lead very soon. Annie Nussbaumer doubles

Will Raser, 302 Stanton street.	63,188
George W. Olson, 351 Seventh street.	61,050
Emil Schuchman, 255 Narcissa street.	47,870
Kenneth Hollister, 223 East avenue.	21,301
Loyal Blanco, 495 East Fourteenth street.	20,624
Warner Windigale, 149 East Lincoln street.	19,491
Margaret Stinson, Warrenton, Or.	18,491

MISSION OF FINES ASKED CATHCART HELD TO GRAND JURY

Judiciary Committee of the Council Intercedes for Delinquent Contractors. Alsea Man's Revenge on Girl Who Scorned Him a Boomerang.

The judiciary committee of the city council yesterday recommended that a fine of \$150 be levied against the Pacific Bridge company by the executive board, be remitted. The committee also voted to remit a fine of \$150 against R. J. Debus, in both cases the contractors were penalized for failing to complete contracts on time.

Should the council act favorably on the recommendation of the committee Mayor Lane and the executive board will be seriously hampered in their efforts to expedite the completion of public improvements. Penalties for delinquencies were provided in the contracts to prevent construction companies from bidding on a larger number of contracts than they could finish on time.

HIPODROME RACES WILL BE FEATURE

Exciting hippodrome contests will be the big feature of the Norris & Rowe circus this season. The contests consist of a number of races to the participants and are just the added spice that season the finish of the long and varied program of the big show. In the present season's exciting hippodrome races, contests involving blooded, pedigreed racing stock, shagbark ponies, jockeys, rough riders and many feats of expert equestrianism will be shown. Norris & Rowe are awarding prizes of money and medals as an incentive to realistic efforts and this spurs the contestants to greater endeavor and consequent excitement for the audience. These spectacles are always satisfying and Norris & Rowe have grown so big and successful that they will allow no other show to exceed them in any portion of their ideal circus program.

Each season some little show, with a high scoring title and hot little acts to recommend it, threatens opposition, but the public knows by experience that Norris & Rowe have always given full value and a bit more for the money expended. The Norris & Rowe circus provides for amusement, entertainment and instruction, so it is assured that the public whose confidence has never been betrayed, will continue to support the ever-reliable organization whose name is in the west and whose interests are all here. Norris & Rowe will give their annual exhibition here May 1 and 2.

There will be Roman standing races, flat races, contests of endurance between man and horse, vaulting and hurdle races over high barriers, barback races, jockey acts, rough riding and many feats of expert equestrianism will be shown. Norris & Rowe are awarding prizes of money and medals as an incentive to realistic efforts and this spurs the contestants to greater endeavor and consequent excitement for the audience. These spectacles are always satisfying and Norris & Rowe have grown so big and successful that they will allow no other show to exceed them in any portion of their ideal circus program.

Norris & Rowe will give their annual exhibition here May 1 and 2.

Emmanuel Movement Discussed. New York, April 27.—The Emmanuel Movement and its deeper meaning is one of the chief topics to be discussed at the seventeenth national conference of church clubs of the United States, which began its sessions today in the vestry of the Cathedral of St. John the Divine, with Robert H. Gardiner of Boston presiding. Other subjects to be considered by the conference include immigration and the Church, Christian Unity and Christian Divisions.

\$3.48

To-day the art of making good cocoa is still a secret. You may never learn the secret but you can always get the cocoa—ask for

Ghirardelli's

Cocoa

Always pure and wholesome. Made from the best beans the earth yields.

Don't ask merely for cocoa—ask for Ghirardelli's.

Cocoa Fact No. 8

The average yield of a cocoa tree is about one pound a year. The cocoa pods grow 7 to 10 inches in length and 3 to 4 inches in breadth, and look much like thick cucumbers, only deeply furrowed and contain 20 to 50 seeds (cocoa beans.)

THE OREGON DAILY JOURNAL
A NEWSPAPER FOR ALL THE PEOPLE

Peter, Peter, Pumpkin-eater, had a wife who wouldn't work,
Every Monday morning, the washing she would shirk,
Till he bought Fels-Naptha and showed her how 'tis done,
With cool or lukewarm water—hard rub or boiling none,
Now she finds it easy and does it very well,
And he never needs to shut her, within the pumpkin shell.

Just as the capacity of automobiles is measured in horse-power, the cleaning value of Fels-Naptha Soap should be measured in woman-power.

Fels-Naptha Soap gets rid of more dirt in thirty minutes than three or four women in half a day.

You've often wished for an extra pair of hands on washday.

Fels-Naptha Soap is better than several pairs of hands.

Because Fels-Naptha Soap actually attacks the dirt and dissolves it.

No boiling is necessary; no hard rubbing.

You just wet the clothes, soap well with Fels-Naptha, put to soak, and think of something else.

At the end of thirty minutes you rub them lightly, rinse out and they're ready for the line. All this in cool or lukewarm water, mind you in Summer or Winter—no boiling, no hot suds.

For all uses of Fels-Naptha, follow directions on the red and green wrapper.
