

ATTORNEY PUGH ORDERED TO JAIL

Judge Huneke Sentences Spokane Prosecutor for Contempt of Court.

Action Illegal, Says Schively. (Special Dispatch to The Journal.) Spokane, Wash., April 30.—Schively filed an affidavit this morning challenging the grand jury's action against him and declaring it wholly illegal and against the constitution of the United States and moves to have it quashed on these grounds. He alleges that he was made to believe by the grand jury that he had to testify against himself. Prosecuting Attorney Pugh holds Schively's action as capricious and declares that he will be able to satisfy the court that the grand jury's action was well founded. The hearing was set for one week from today.

Spokane, Wash., April 30.—Prosecuting Attorney Pugh was today sentenced to jail for contempt by Judge Huneke for refusing to surrender notes of the grand jury evidence taken in the Gordon-foot investigation. Supercedas bond for appeal was refused him, but the hearing on the habeas corpus proceedings instituted by Pugh will be held this afternoon.

The notes of evidence were demanded by the court in connection with finding Pugh \$50 for taking the notes out of the grand jury room. Pugh refused to surrender the notes on the ground that they would be destroyed before he would have a chance to submit them to the supreme court in support of his appeal from the order of the court fining him.

Gordon's attorneys are extremely anxious to destroy all record of the grand jury evidence and have prosecuted charges of contempt against Pugh as the court's attorney.

FIRE TRAP; ALSO FOUL AIR FACTORY

(United Press Leased Wire.) San Francisco, April 30.—Testimony before the coroner's jury today brought out the fact that 41 rooms in the St. George hotel, in which six men were burned to death April 18, were but 6x12 feet in dimensions, and therefore contained an air space of but 378 cubic feet. The city health ordinance requires an air space of 500 cubic feet for each occupant of a sleeping apartment in lodging houses and hotels. No action against the proprietors of the fire trap has been filed.

BALLINGER AT OUTS WITH LEADERS

(Washington Bureau of The Journal.) Washington, April 30.—The relations between the leaders in the national conservation movement and Secretary Ballinger have been seriously strained by the secretary's restoration several days ago of 1,500,000 acres of land in various western states, including Oregon cannot be denied. These lands were withdrawn by Roosevelt at the request of the conservation leaders, largely to prevent water power companies from acquiring power sites. It was Roosevelt's idea and likewise that of the conservationists, that henceforth no power site should be acquired in fee simple, but all should be under lease, limited in tenure and subject to an annual rental charge. Roosevelt gathered data which indicated that several large concerns were getting power sites at strategic points, with which they could in future form a national power trust, absolutely controlling transportation, manufacturing, lighting and heating as coal and wood went out of use for motive power. Roosevelt sought legislation safeguarding against such trust control. Congress refused to respond.

DECK HAND DIES OF ALCOHOLISM

William Ryan, arrested last week on a charge of being drunk and later discovered to have a dislocated shoulder, died yesterday at St. Vincent's hospital of a combination of alcoholism and the effects of the fall which had caused the injury to his shoulder. Ryan was arrested last week near the docks and was too drunk at the time to tell what was the matter with him. Examination the next day by Dr. Fred Zeigler, city physician, showed that his right shoulder had been dislocated and he was removed to St. Vincent's hospital. Ryan was 35 years of age and was employed as a deckhand.

Pot and Pan Philosophy

All the soap and muscle in the world won't clean your pots and pans as they should be cleaned.

Ordinary washing of cooking utensils passes over whole hidden nests of little wigglers—commonly called germs.

Gold Dust is an antiseptic washing powder that not only removes the visible dirt and grease, but goes deep after every trace of germ life—sterilizes pots, pans, pails and kettles—leaving them clean, wholesome and safe.

Just shake a little Gold Dust in your dish-water and it will make your pots spick and span as when new and your tin shine like silver.

Women Are Creatures of Habit

Many a woman is today using lard because she has done so year after year and her mother used it before her. If she only knew that in *Cottolene* she would find a shortening pure and without the taint of hog fat, a shortening more digestible and healthful than lard, a product more economical and satisfactory than lard in every way, wouldn't she be a bit stubborn if she didn't try?

When American spelling is revised, L-A-R-D will be spelled I-N-D-I-G-E-S-T-I-O-N, not for a saving of time, but, rather of stomachs.

Cottolene is not a substitute for lard, but a pure vegetable product that is far superior to it.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given *Cottolene* a fair test.

Never Sold in Bulk *Cottolene* is packed in pails with an airtight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.
