Functional derangement is neither a "weak-is" nor a disease. It is a symptom of Functional derangement is neither a "weak-ness" nor a disease. It is a symptom of prostatic disorder. To stimulate activity by the use of powerful tonkes is an easy matter, but such results are marely temporary drug effects. Most doctors treat "weakness" in this manner because they do not know how to cure the real cause of the derangement. I am the only physician employing scientific and successful methods. I use no tonics at all. My treatment is a local one entirely, and corrects every abnormal condition of that vital center, the prostate gland. My cures are real cures, and are permanent.

Twenty-five years of successful practice as a Specialist in Men's Diseases justifies every claim I make. I promise my patients a complete cure in every instance, and in cases where

By One Who Had It In the spring of 1893 I was at-tacked by Muscular and Inflamma-tory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor, after doctor, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bed ridden with Rheuma-tism, and it effected a cure in every case.

I will send a free trial of this precious remedy by mail, postpaid to any sufferer who writes for it. Just fill out the coupon below and Mark H. Jackson, No. 452 James street, Syracuse, N. Y. Mr. Jackson is responsible. Above statement true.—Pub.

A WARNING

There is no economy in employing an amateur to do an expert's task. Nine times in ten failure follows. In a large percentage of instances the result is harm. He doesn't treat enough cases to learn a great deal about them. His time is so fully occupied in treating a full assortment of huthem. His time is so fully occupied in treating a full assoriment of hu-man ills that he cannot devote special study to any particular branch of practice. Most diseases are sufficiently simple as to require no spe-cial training other than that received in the medical colleges and that afforded by experience in general practice. He prefers to be relieved of tasks beyond his training, though he cannot, without fear of injuring a patient's confidence in his ability, recommend the service of a specialist instead of his own.

Contracted Disorders

Be sure your cure is thorough. Not one of my patients has ever had a relapse after being discharged as cured, and I cure in less time than the ordinary forms treatment require.

My treatment is absolutely painless, and perfect results can be depended upon in every instance. I do no cutting or dilating whatever.

Varicose Veins Absolutely painless treatment that cures completely in one week. Investigate my method. It is the only

thoroughly scientific treatment for that disease being employed.
