All contestants are required to have certificates from the principal of their school vouching for their ability and standing. They must have vouchers for their expenditures, and every contest-ant must be in training rt least one month before the meet. These rules, with several others have been sent to

Approximate Scores. Both Trainer Hayward and Captain Huston are figuring very closely and, after going over the performances of all three teams, expect the final score to stand approximately: Oregon, 45: Washington, 43: Idaho, 34. This is merely a forecast and until the last events are completed the score will be in doubt. The team will not be finally selected by Trainer Hayward until just hefore the meet and even then the men will not be picked as much for special events as for the number of points each will be able to capture. This is owing en-tirely to the 12-man team rule and will keep some of the best men out of the meet. The competition is very close in almost every event and there is little to base a choice on in many events. The bad weather also made tryouts impos-suble, which puts added difficulties in Trainer Hayward's way in the selection of the team. INLAND SCHOOLS IN PULLMAN MEET
