

GORE TAUNTS THE TARIFF SQUAD

Upward Revisers, Having Hung Cost Increase on Retailers, He Dares Them to Prove It and Exonerate the Tariff.

(United Press Leased Wire.) Washington, May 18.—Discussion of whether high prices in the United States are caused by the tariff or by the extortion of jobs and returns occupied the senate today. The discussion arose in connection with the resolution introduced Saturday by Senator Gore, the leading statesman from Oklahoma, which demanded that a committee investigate this condition. Senator Aldrich stated that the resolution be referred to the senate finance committee, stating that it was proper that this committee should deal with it, as such an investigation would involve considerable time and expense. Carter of Montana opposed the resolution, suggesting that the same sort of investigation was already provided for in the pending amendment to the tariff bill looking to the appointment of a commission of experts for the investigation of all matters pertaining to the tariff. Gore declared that the Republican senators who had charged the retailers with the responsibility for the high prices had discovered that they had stepped on a live wire and were now trying to retract. He said he had finally suggested the appointment of a select committee to make the inquiry, in view of the fact that the finance committee was so busily engaged in calculating the cost of the tariff here and abroad. Gore insisted that a select committee could report within three weeks, and whether or not examples recently shown the senate regarding "prices raised between the manufacturer and consumer were true. Carter opposed this, asserting that such an investigation would require two years. He made a strong protection speech and asserted that the Democrats were requesting information already available to the tariff committee members should have found out for themselves.

KING'S BODYGUARD SWELLEST OF ALL

(United Press Leased Wire.) London, May 18.—Members of the king's bodyguard of gentlemen-at-arms, the most aristocratic military organization in the world, gathered in the banquet hall of St. James' palace last night for the 40th anniversary banquet of the organization. Among those who, as guests of honor, were present or represented by special envoy, Premier Asquith, Colonial Minister Lord Crewe and Lord Lansdowne, conservative leader in the house of lords. The corps was founded by King Henry VIII, and admission into its ranks is an honor eagerly sought by army officers. None is admitted who has not attained at least a captain's rank. The members of the corps are said to be given invariably to some "show" peer for whom no place can be found in the administrative ranks. It is at present held by Lord Denman, and carries an annuity of \$5000. Numbered among his predecessors are the Duke of Manchester and the Duke of Devonshire. It is the duty of the bodyguard to attend the king at all state functions. It is rigorously uniformed and magnificently armed, but its actual military efficiency is minimized by the size of a majority of its members.

SWEDISH COMMITTEE WILL GIVE CONCERT

The committee appointed by various Swedish-American organizations in Portland for the purpose of arranging for an attractive float for the Rose Festival will give an entertainment next Sunday night at Arion hall, the proceeds of which will be devoted to the float. The entertainment is expected to draw a packed house as a great deal of enthusiasm is being evinced in the undertaking. Among the features on the program will be singing by the Swedish Singing club Columbia which has volunteered its services for this evening. And there will be vocal and instrumental music in general, the best Swedish-American talent in the city having gladly promised to contribute. Swedish Vice Consul Waldemar Lidell is at the head of the committee and Edward Boyse has charge of the program for Sunday evening. A considerable amount has already been subscribed towards the float and it is said it will be one of the prettiest to be entered in the festival.

Brown of Salem is present and presided at the opening session. Most of the delegates arrived last night, a number of them being accompanied by their wives. Tomorrow it is expected to devote much of the time to sociability and the delegates will be taken for a ride over the valley in automobiles, and other events will be arranged for their entertainment. Perfect weather is characterizing the visit of the Foresters and many places of business are decorated in honor of their visit.

Famous Apache Dance a Hit.

The famous Apache dance created a sensation at the Pantages theatre yesterday. Other good numbers on the program are Paganini's Ghost, who plays the violin well, Aneta Primrose, an English music hall artist; May Duryea's comedians, and Leo White.

Bill at Orpheum Great.

The bill at the Orpheum is what was expected—a top notcher. Mabel Hite and Mike Dunlin, the pride of the New York "Gents," are decidedly clever, and Mr. Donlin seems to be as popular as an indoor entertainer as he was as right felder for the New York team as a hall player.

Star Theatre.

"Dime Novel Dan," a messenger, has taken such a fancy to dime novels that he reads them by night and night. It results in his getting into many difficulties. This and six other pictures are being offered at the Star today. Entire change of program tomorrow. Mothers send in your babies' pictures.

Great Musical Act.

One of the best musical acts heard here for some time is that which heads the bill at the Grand this week, the Elites. Four Impersonations of a difficult character are made by Harry Leclair, and this is one of the most artistic acts of the kind sent to the coast by Sullivan & Considine.

STRENGTH, AMBITION, ENERGY

Are Impossible Without Rich, Red Blood—A Detroit Woman Expresses an Opinion.

The tonic treatment with Dr. Williams' Pink Pills for run-down conditions of the health is based on sound medical principles and on common sense. More and more men and women are beginning to realize that pure red blood means health and that the efficiency of any tissue or organ is entirely dependent upon the quality of the blood. The thousands of people who are without ambition or strength to do their day's work and who are always tired out, have but little appetite and poor digestion, cannot get a refreshing night's sleep and are subject to headaches, backaches and nervousness because their blood is impure. Dr. Williams' Pink Pills give quick relief and permanently cure such men and women. They purify and strengthen the blood to its normal strength. As the blood becomes pure and red it strengthens the muscles, capable of digesting the food, and repairs the wastes caused by growth and work.

Mrs. George Morgan, of No. 115 Twenty-third street, Detroit, Mich., says: "I suffered with general ability for over a year after gradually declining in health from overwork. I had but little blood, no strength, ambition was weak and thin. My appetite was poor. I was reduced in flesh and was all tired out. I felt miserable all the time and could not do any work. I was sent on a visit to relatives with the hope that a change would benefit me, but after several weeks I had not improved. "Most of this time I was taking the doctor's medicine without benefit and was getting discouraged. My aunt urged me to try Dr. Williams' Pink Pills. They gave me a better appetite, gained in flesh and strength and the pills until cured. Since then I have been a strong, robust and healthy. "A booklet, 'Diseases of the Blood,' showing what Dr. Williams' Pink Pills have done in anaemia and other blood diseases, will be sent free upon request. Dr. Williams' Pink Pills are sold by all druggists, or sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine company, Schenectady, N. Y."

Zuzuki and Kanaguchi quarreled last night and a fist fight ensued which threatened to become a knife fight. Kanaguchi, the boy realized that his father was getting the worst of the encounter and securing a gun he fired a shot into Zuzuki's abdomen. A Japanese physician was called and had the dying man removed to the Central Emergency hospital. Kanaguchi and his son are under arrest.

Railroad Day Set for June 14.

(Special Dispatch to The Journal.) Klamath Falls, Or., May 18.—At the urgent request of the Southern Pacific company officials the time for the Railroad day celebration has been postponed from June 2 to June 14. The former date conflicted with the Portland Rose Festival, and the company was also desirous to have the celebration at a later time so that the road could be thoroughly tested before any excursions were run over it. Extensive advertising will be done by the railroad company and low rates will be announced from Portland, San Francisco, Sacramento and all intermediate points.

Williams, the head of the press bureau of the Portland Commercial club, has taken charge of his office, and will begin at once the work of sending the glad news about Oregon to the newspapers all over the country. ONE MAN CAN SINK A FLEET

New Orleans Man Latest to "Revolutionize Modern Warfare."

(United Press Leased Wire.) New Orleans, May 18.—If the device for the destruction of protected magazines aboard battleships and in forts, devised by H. A. Folk of this city, is practical, modern warfare will be revolutionized. Folk claims to have discovered a way by which magazines in vessels miles distant can be exploded by a wireless spark set off by an operator in a tower on the shore. He claims that one man can destroy an entire fleet within a very few minutes. The young inventor, it is said, has corresponded with the United States government concerning the discovery and negotiations for its purchase are pending. He has been commanded to secrecy by the war department and refuses to disclose any part of his discovery.

REFUGEES' RETURN WILL BREED RIOT

(United Press Leased Wire.) Rome, May 18.—It is feared that the return to Messina of the refugees who have been supported in various Sicilian and Italian towns by the Italian government will be marked with rioting and disorder. The present population of the stricken city is 20,000, and the refugees who will return number about 15,000. There are but 6255 huts in the city and many of these are occupied by foreigners. An effort to secure the government action to insure preservation of the peace will probably be made. Yesterday the Roman earthquake committee paid the final check to the Messina and Reggio refugees and closed up the temporary shelters. The sufferers will now be compelled to shift for themselves. During its period of activity the committee received \$202,765. For food, clothing, medicines and other charges, \$12,040 was spent. Hats costing \$50,000 were built in the destroyed cities. The surplus funds were turned over to the central relief committee.

ACCUSES HER BROTHER OF THEFT OF GEMS

(United Press Leased Wire.) Los Angeles, May 18.—Suspected of having stolen \$10,000 worth of diamonds from his sister, Mrs. Lulu M. Woodley, who came here from Norfolk, Va., to be married, Frank C. Chapman is being sought today by the police on a warrant sworn to by the sister. Chapman is believed to be on his way to Seattle and is reported to have left this city Thursday. The police were first apprised of the theft of the diamonds on May 2, but succeeded in bottling up the disappearance of the gems by giving fictitious names and an insignificant amount. It is said the first suspicion of the sister against her brother was aroused when a ring found by detectives in a pawnshop was said by the police to have been traced back to him. Mrs. Woodley and her husband, who was formerly a jewelry salesman, live here.

DRUNKEN WOMAN IS VERY NOISY

St. Petersburg, May 18.—In the conclusion of the imperial palace at Peterhof Emperor Nicholas passed his forty-first birthday today. The customary official observances of the anniversary were held, but owing to the tendency of the authorities to suppress any public gatherings or demonstrations of whatever character, there was no popular celebration of the day.

Drunken Woman Is Very Noisy.—"Help! Murder! Police!" This call was given by a woman, Lottie Bowen, from the top floor of the Windsor hotel, at Sixth and Stark streets, at 10:30 last evening. An investigation by Officer Manning showed that the woman was thoroughly drunk and was occupying the building apparently alone. He told her to go to bed and an hour later returned with Sergeant Goltz and found her lying in the hallway on the second floor. Her room was in a state of chaos and showed an evident rough house which had accompanied the process of getting drunk. The woman was given 10 days in jail by Judge Van Zante this morning to give her a chance to sober up.
