Damage to Potato Crop.

What seems like confirmed reports indicates that severe damage has been done to the potato crop of the William-ette valley during the past 48 hours. Severe frosts have been feit at valley points during that period and growers from various sections who visited Portland today state that a large per cent of the crop was laid low by the chill. According to the growers the damage is confined almost entirely to the valley lands, the planting on the higher ground hot being molested to any extent. This is due to the fact that in the Williamette most of the carly potatoes are grown and it was these plants that were nipped. This damage news, if correct, means that the season for old potatoes will be prolonged here as long as there are old potatoes to offer. Indicates that severe damage has been

Potato Market Bules Basier. The local potato market has as yet taken no notice of the damage to the early plantings and values along Front street were rather easy today with some dealers offering supplies at fractionally less quotations. The heavy shrinkage which potatoes are showing at this time makes it exceedingly difficult as well as expensive to hold them much longer and for that reason holders seem willing to take profits and let go. ing to take profits and let go.

Easier Tone in South, Too. Easier feeling is shown in potatoes the south today because of the pressin the south today because of the press-ing of supplies on the markets there by Portland shippers. In San Francisco today old Oregons were quoted 10c un-der the quotations of yesterday and a fractional loss was displayed by the new

stock in consequence.

Demand for California onions here is quite liberal and for that reason prices are being held quite steady at unchanged figures. Eggs Show Wo Strength.

No strength whatever is shown in the local egg situation today. Receipts are increasing here because of the absence of outside buying and 24c is the very top for even single cases along Front top for even single cases along Front street.
Butter market continues firm with no change in quotations during the day.
Tiliamook steamer arrived with a shipment of cheese. Demand excellent at 17c.

Better Run in the Rogue.

Better run of salmon is shown in the Rogue river according to reports which eame here today. Receipts from these in this market are likewise better. From the Columbia no word of improvement comes as to chinooks but bluebacks are in quite fair showing. All sales at yes-terday's prices. Offering More for Hop Contracts.

As high as 10% c a pound has been of-fered for hop contracts by dealers dur-ing the past 24 hours but so far as known no crops have of late been tied up at this figure. Crop prospects con-tinue so poor that growers are not dis-posed to contract at any price. No sales of spot goods are reported.

Brief Notes of Wholesale Trade. Navel oranges are moving well at APPLES Fancy Hood River, \$2.500 permer prices. There is no demand at 2.75; ordinary \$1@1.50

pear before Judge Gatens and attempt to secure the release of the prisoner on a writ of habeas corpus.

It is alleged by the complaint that Irwin acting as the agent of the plaintiff bought a tract of hop land about 10 miles east of Salem in October, 1904. To consummate the deal the plaintiff advanced \$2475 for the care and harvesting of the hop crop. The defendant was to repay this out of the receipts of the crop. was to repay this out of the receipts of the crop.

It is alleged that the defendant spent \$1969.42 of this amount and has refused to repay the balance of \$505.58. It is alleged that the crop was sold for \$1623 net and that this has not been paid. The total deficit therefore is \$2125.68.

Attorney Manning contends that his client is wrongfully restrained of his liberty and can not be imprisoned for debt.
