"Sanitary" Refrigerators

Embody in their construction features that are most essential, both from an economical and sanitary standpoint. The "Sanitary" system is one of common-sense simplicity--fresh air entering intake on one side, and, after circulating through ice and provision chambers, is expelled through outlet on opposite side.

WOMAN IN CASE OF J. H. STORRES

Letter Written by Sweetheart Who Fleed With Him Led to Arrest.

Seattle, May 24.--It became known today that Joseph H. Storres, the brilliant orator and lawyer of Lincoln, Neb., who was placed under arrest in Seattle Saturday charged with the embezzlement of \$5000 belonging to an estate of which he was administrator, had

eloped with a young woman of Hastings, Neb., and that it was through a letter written by her and intercepted by the authorities that he was apprehended.

The girl, whose name is Ethel Molino and whose parents are said to be wealthy residents of Hastings, was arrested with Storres, whom she had joined in Seattle, but her arrest was kept secret by the local police in the hope that through her the money alleged to have been embezzled by Storres might be located. The police profess to believe Storres gave the money to his sweetheart and that she cached it.

When seen in his cell at the county jail today Storres said that if the police carried out their alleged agreement made with him at the time of his arrest and permitted the girl to go unmolested, he would waive extradition and return to Lincoln at once, but if Miss Molino was detained he would fight every attempt to return him to Nebraska.

Since his flight in February last Storres has been closely pursued through the greater part of the United

States by Sergeant Morse of the Lincoln police department.

Miss Molino, who separated from Storres at Grand Forks, N. D., planned to join him on the Pacific coast and marry him, but the pursuit of the detective was so keen that it was not until last Friday that the runaway couple were able to meet.

From Everett, Wash., Miss Molino wrote a letter to Storres' brother, who lives in Seattle, advising him of the expected arrival in Seattle of the Lincoln lawyer. This letter, which was intercepted, apprised the authorities of Storres' whereabouts and resulted in his arrest shortly after his arrival in Seattle.

RELATED SUIT FOR MINER'S MILLIONS

(United Press Leased Wire.) San Francisco, May 24.--Determined to lay claim to mining interests in Nevada believed to be worth millions of dollars, Mrs. J. H. Frizelle of Butler, Mo., and her daughter, Mrs. H. H. Piggett, of Helena, Mont., are in San Francisco seeking evidence to be used in lawsuits they expect to commence.

The women have been spending the winter at Hollywood, Cal., and decided a few days ago that before returning to their homes they would come here and investigate the condition of the estate left them by the late Lloyd N. Frizelle, brother-in-law of Mrs. Frizelle. Frizelle came to California in the days of the gold excitement and after many reverses struck it rich in Nevada. He was interested in the Martin White Mining company, but became involved in litigation and died before the case was settled.

His brother, Dr. J. H. Frizelle, came west to investigate the case and placed it in the hands of an attorney. Dr. Frizelle died a short time afterward and the matter was dropped until today, when his widow and daughter started their investigation here.

Canada Keeps Holiday. Ottawa, Ont., May 24.--Victoria day, one of the two great national holidays in Canada, was celebrated today throughout the dominion, in some places on an elaborate scale. In this city flags were displayed in profusion and many programs of sports and outdoor pastimes were carried out.

LAMBS' SPRING GAMBOL BEGINS

Princes of the Realm of Stagedom Will Tour Eastern Cities.

New York, May 24.--Seldom have the Broadway sidewalks been more crowded than they were this afternoon, when the members of the Lambs' club indulged in an old-fashioned minstrel parade as a sort of curtain-raiser to the grand opening of their "spring gambol" at the Metropolitan opera house tonight.

Both sides of the street were literally packed with men, women and children desirous of seeing two score famous actors on parade, headed by Victor Herbert's band and with a score or more of managers, playwrights, press agents and other theatrical luminaries acting as a body guard. All of the marchers were rigged out in high hats, long ponce coats and carried canes after the true minstrel style.

The "spring gambol" is a week's tour undertaken for the benefit of the fund that is being raised for the erection of a new home for the Lambs' club. The club is famous throughout the world. Its membership embraces not only all of the principal actors of America, but all the prominent playwrights, composers, many well known authors, managers, producers, and a large lay membership of lawyers, brokers, doctors and others.

Prominent among those who are to furnish the entertainment of the present tour are Willie Collier, DeWolf Hopper, Law Fields, Joe Weber, Eddie Foy, Andrew Mack, Henry E. Dixey, Digby Bell, Charles Evans, Eugene Cowles, Wilton LaPagay, Robert Hilliard, Dustin Farnum, Harry Woods, John Mason, William Courtleigh, John Kellery, Charles J. Ross, Arthur Byron and Raymond Hitchcock. Managers and playwrights who are to participate in the gambol are David Belasco, Hilton Royce, Clay M. Greene, George Broadhurst, George V.

Hubert, Henry Blossom, William Gillette and Charles Kiechel.

SMOTHERED BY STEAM; BOILED IN A BATH TUB

(United Press Leased Wire.) Berkeley, Cal., May 24.--Archibald N. Lindley, a plumber, while taking a bath late yesterday was overcome by the steam arising from the hot water and was suffocated before aid reached him.

Lindley had been in the bathroom for more than an hour, and other roomers in the lodging house, fearing an accident had befallen him, rapped at the bathroom door. Receiving no answer, they broke down the door. They were greeted by a rush of steam and hot air that was stifling, and for several minutes were unable to enter. Lindley was found in the tub, his head fearfully blistered. He was dead before medical aid arrived.

Unitarian Anniversaries.

Boston, Mass., May 24.--Kith Julia Ward Howe, Edward Everett Hale, Hon. John D. Long, Dr. Charles W. Eliot, Governor Eben S. Draper and many other notables participating, the exercises attending the anniversary week celebration of the American Unitarian association began today, with meetings of the Ministerial union and the National Alliance of Unitarian and Other Liberal Christian Women. During the week there will also be held anniversary meetings of the Unitarian Historical society, the guilds, Lend-a-Hand clubs and other religious and benevolent organizations connected with Unitarianism. Several receptions, luncheons and other social functions have been arranged to intersperse the business meetings.

King Edward Holds Leave. London, May 24.--King Edward and Queen Alexandra held a leave in St. James' palace today. The carriages of the invited guests commenced arriving at noon, and soon the park and adjacent thoroughfares were crowded with peo-

ple. The leave was the first of the official court functions arranged for the spring and early summer. The season does not promise to be especially brilliant, particularly since it has been announced that the usual garden party at Windsor palace has been abandoned this year. The first court will be held at Buckingham palace June 11, and will be followed with a similar function two weeks later. Owing to the unusually large number of applications for presentation this year, it is possible that a third court will be held.

YAWL RUN DOWN; THREE MEN DROWNED

(United Press Leased Wire.) Everett, Wash., May 24.--The bodies of John H. Collins, manager of the New Western Shingle company of Lowell, and two laborers, whose names are unobtainable, were drowned near Camano island Friday night. They set out in a yawl to meet the steamer Camano yesterday afternoon the three bodies were found lying on the beach, where they had been cast by the sea.

It is supposed the yawl was run down and sunk by the steamer.

The residue rejected by Greeks who smelted lead where it was mined as far back as 600 B. C. is being worked over today by modern methods.

Musical Clubs in Session.

Grand Rapids, Mich., May 24.--The sixth biennial convention of the National Federation of Musical Clubs opened here today with a very large attendance. The St. Cecilia society of this city is the hostess of the convention, which will continue through the entire week. A notable feature of the gathering will be the prize competition, which is to be conducted this year for the first time under the auspices of the federation. The competitions are open to all musical writers of American

birth. Two thousand dollars will be awarded for the best orchestral compositions, vocal solo compositions and piano solo compositions.

It is supposed the yawl was run down and sunk by the steamer.

The residue rejected by Greeks who smelted lead where it was mined as far back as 600 B. C. is being worked over today by modern methods.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience--a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them.

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases.

It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.--take the advice received and be well.

S.S.S. NATURE'S TONIC

The very great majority of persons need a tonic in the Spring or early Summer. The system undergoes a change at this season and the entire physical machinery is disturbed. The general bodily weakness, a tired, worn-out feeling, fickle appetite, poor digestion, a half sick feeling and a general run-down condition of the system, show that the blood is weak or anaemic, and a blood purifying tonic is needed to build up the deranged system and enrich the blood. The use of S.S.S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the long, hot Summer. Many people have put off using a tonic until the system became so weakened and depleted it could not successfully throw off disease germs, and have paid for the neglect with a spell of fever, malaria or some other debilitating sickness. S.S.S. is Nature's ideal tonic. It is a composition of the extracts and juices of roots, herbs and barks which science and experience have proven are best fitted for a tonic to the human system. It contains no minerals of any kind and is therefore perfectly safe for persons of any age. S.S.S. tones up the stomach and digestion, aids the system of that tired, worn-out feeling, and imparts vigor and strength to every part of the body. It purifies and enriches the blood, stimulates the secreting and excreting members to better action, quiets the overstrained nerves, and makes one feel better in every way.
