Taxpayers' League Scans Amendments Coming Up at June Election and Disapproves of Fifteen Measures Put on the Ballot.

its work of examining and considering the amendments to come before the people at the Jupe election and at a meeting yesterday afternoon the league indersed the report of the special commit-

tee appointed to consider the amendments.

Reports are made on 32 amendments of which 17 are recommended and 15 are rejected. The findings of the committee will be published in pamphlet form at once and a copy will be sent to every voter, about 35.000 having been ordered printed.

Out of the entire list of amendments taken before the league there were but three which called forth much discussion and any great diversity of opinion from the members. These were the amendment providing for the expenditure of \$2.006,000 for a bridge at Larrabee street, the proposed new charter and the provision that the city shallown the soil in the streets. The last was discussed because of its curious feature but there was considerable difference of opinion as to the Larrabee street bridge.

Opposed by Henry.

C. K. Henry led the opposition to the approval of this project on the ground that later on two tubes could be milaced under the river at Stark street.

ground that later on two tubes could be placed under the river at Stark street, but it was the general opinion of those at the meeting that the crying necessity for more bridges over the river is so great that the Larrabee street bridge should be built now and the tubes would still be necessary as soon as the city. The amendment authorizing a deputy clerk for the municipal court seems necessary. Vote yes, and for a ct as the clerk of street so great that the Larrabee street bridge should be built now and the tubes would still be necessary as soon as the city.

The majority opinion as to the new The amendment requiring the auditor charter was that the present one should to ascertain if any liens exist before

be given more of a show and that a change would be unwise at this time.

Legue Recommendations.

The recommendations of the league as to the various amendments are:

The new charter proposed by the much like this is in substance very much like the substance very much like this is in substance very much like this is in substance very much like this is nearly the substance very much like this is nearly the substance very much like a location of streets is sought for the purpose of the major and council to radical and sudde committees allowed to radical the substance very major the substance of the substance very manufactured to the substance very most substance very most three very well. The old charter with such amendments are substanced to the substance very well. The old charter with such amendments are substanced to the substance very well. The old charter with such amendment as used to the substance very well. The old charter with such amendment as a least one year of the substance very well. The committee of seven is too tirified to the very substance very well. The committee of seven is too tirified to the substance very well. The old the provided presents the provided that the low places and what must be street to substance very well and the provided the provided the provided the provided that the low places and what must be street to substance very standing the

The amendment authorizing a women's auxiliary to the police department seems necessary. Vote yes.

The amendment authorizing the city reasurer to purchase bonded warrants is of trifling importance and a treasury full of bonded warrants would be if little use in a panic. Vote no.

The amendment authorizing banks of capital of \$50,000 to receive city deposits on giving proper security seems a proper one. The recurity being sufficient the capital later to be a particular to capital of \$50,000.

Liens on Streets.

amounts. This is only just and proper. Yote yes.

The amendment increasing the Interest on delinquent assessments from 6 to 10 per cent is reasonable and intended to facilitate their collection. As it is now, 6 per cent being a low rate, has no quickening effect upon the debtor. Yote yes.

Cost is Increased.

The amendment providing that the acceptance by the city officers of an improvement shall be final is aimed at an abuse that has grown to large proportions. A contractor on city work having finished his contract and had it actions for the city of in any action that might impair its commercial credit or position. Whether a citizen carries his capital in his head, his hands or his pockets, he is alike interested in maintaining the supremacy of his city and the prosperity and happiness of his own household. abuse that has grown to large proportions. A contractor on city work having finished his contract and had it accepted in good faith by the proper city officers is still under our present system liable to be held up in his pay for years at the suit of private owners. This is an outrage, and has resulted in incressing the cost of city improvements in Portland from 10 to 20 per cent. Contractors have been kept out of their honestly earned pay for years and can have no assurance of receiving their pay at any fixed time. Vote yes. and can have no assurance of receiving their pay at any fixed time. Vote yes.

The amendment abolishing certain boards and relating to water bonds is defective and insufficient. Vote no.

The amendment providing for the issuance of bonds to construct water mains of 10 inches and over in diameter hardly goes far enough, but is an improvement on present conditions.

Vote yes.

Napoleon I. Emperor of France. Life of Napoleon Bonaparte; by Sabine Baring-Gould. n. d. Scott—Sir Walter Scott; by W. S. Crockett and J. L. Caw. 1903.

BOOKS IN FOREIGN LANGUAGES. Amundsen—Nordvest Passagen. Berneker—Graf Eee Tolstol. Bleibtreu—Colombey. Drachmann—Poul og Virginie Under Nordig Bredde. Flood—Familion i Lyvik. Faulsen—Jodinden. Scherer—Geschichte der Deutschen This amendment allowing the cour

cil to fix the salary of the city engineer at any reasonable figure, not less than \$2400 a year. The present pay is entirely inadequate. The council has lately paid Mr. Modjeska, an emi-nent engineer, \$5006 for a few weeks service and would do well to pay a city engineer of first class ability a good salary for a longer time, and if it needs authority for that purpose it

it needs authority for that purpose it should be given it. Vote yes.

This amendment allowing the council to increase the city treasurer's salary is not recommended. The salary of the city treasurer is sufficiently provided for aiready. Vote no.

This amendment allowing the council to the city treasurer is sufficiently provided for aiready. This amendment allowing the council to increase the salary of the city attorney is wrong in principle. The mount should be fixed in the charter

Crematory Bonds.

This amendment providing for the issuance of \$150,000 of crematory bonds meets an immediate necessity. Something in this regard must be done, and as these bonds are payable in 10 annual installments it amounts to but a small anticipation of the city's revenues. Vote

anticipation of the city's revenues. Vote yes.

This amendment providing for bonds for the construction of the Broadway and Larrabee street bridge calls for a \$2,000,000 bond issue and only the most urgent necessity would justify it, still the view of this committee the necessity exists at this point, and the bridge must be built. Portland is growing very rapidly, with nearly all of its wholesale and retail business, Union depot, places of amusement, etc. on the west side of the river and three-fourths at least of its residences on the east side. This bridge is therefore an absolute necessity if prospering conditions are to continue as they

fore an absolute necessity if prospering conditions are to continue as they
are. Vote yes.

The amendment relating to electrical
wiring is in the judgment of this committee, correct in principle, but should
not pass at the present time, because
the electrical companies are at present
working under a recently passed ordinance making the space 13 inches oneach side of the center of the pole, and
it would be an injustice to compel them
to immediately unde all that they have
done; also because the ordinance is
defective in that it does not omit from
the operation that portion of the city
where the wires are now being placed where the wires are now being placed underground. Vote no, The amendment to change Madison The amendment to change Madison street bridge to Market is unjust and would entail an extra cost of about \$500,000 and as business has adapted lise! to the Madison street bridge it should remain where it is. Vote no. should remain where it is. Vote no.

The amendment authorizing the construction of the Sherman street bridge and the issuance of \$1,500,000 of city bonds could only be justified by an urgent necessity, which in the view of this committee does not exist in regard to this bridge. Vote no.

Use of Patented Articles.

The amendment prohibiting patented articles in public improvements has a flavor of the middle or dark ages in it. flavor of the middle or dark ages in it. If the cilizens want a patented article why should they not have it? And if they have it, then why should they not pay for it at its price? A law to abolish patents would be more in peint, and just about as absurd. Vote No. The amendment to grant a monopoly of the liquor business to the Gothenburg association and to provide for a partnership of the city in the profits seems dangerous and victous to the last degree. The corruption of the dispensary system would accompany it. Vote no.

no. The excise board amendment to reg-

MRS. SCOTT'S ACTION CAUSES D. A. R. UNREST

(United Press Leased Wire.) Washington, May 28 .- A growing unrest over the action of Mrs. M. T. Scott, the recently elected president of the Daughters of the American Revolution, in appointing certain members to

tion, in appointing certain members to places for which they were recently defeated at election, threatens an upheaval of the organization, according to some of the dissatisfied members. Complaints are becoming more pronounced against the president's action in appointing a supervision committee with only one member the chairman, a member of the national board of the society.

The supervision committee, it is said, is planned to take on new powers and will have a voice in the directing of the national officers. This would give them supervision over regularly elected officers and would place the committee in the position similar to that occupied by a party boss toward the elected officials of the party.

Another complaint is that Mrs. Scott has selected for chairman of the most important committees the women defeated at the recent election. Several minor questions have arisen and unless they are smoothed out a services defeated for the services of the party are smoothed out a services defeated for the party of the part

minor questions have arisen and unless they are smoothed out a serious defec-tion in the ranks of the organization is predicted.
