Water Board Will Send Away for Sleeve for Pipeline.

No tenders were received by the water board this morning in response to its advertisement calling for bids for the construction of a steel sleeve to be used in the repair of the broken water main under the Williams river. So acting on Mayor Lane's suggestion, the board adopted a resolution directing that the engineer send plans of the sleeve to Seattle, Tacoma, Astoria and other places where steel and iron works are located and that a reasonable time be given in which outside companies may have an opportunity to submit offers to the board.

These local firms think they have a cinch on the business of the city and they will find out they are mistaken and that their game, said Mayor Lane. Bids for the construction of the sleeve have been advertised for twice now and not a responsible offer has been received, although a number of local contractors submitted high bids that were declared irregular by the board.
