

Lipman-Wolfe & Co

The expression "Clean-Up Sale" is used in many senses. Sometimes it is a term of reproach; at other times it is applied as an encomium. We describe this sale by it in order to convey the idea of "THOROUGHNESS."

Lipman-Wolfe & Co

Our advertising tells you about some of our merchandise with primitive directness. Here are the goods, here are the prices. PUT OUR CLAIMS TO THE TEST—MAKE COMPARISONS.

Lipman-Wolfe & Co

Friday, Saturday, Immense Values Offered in Clean-Up Sale

During the past two months we have held a series of suit sales. Day after day our sales have mounted up, carrying away the sales of last year. The values and styles offered appealed to the public—the prices made them sell rapidly.

The first task we set for ourselves in these suit sales was to secure reliable qualities. The markets always abound with rubbish—things that at first view have a look of merit—this class of merchandise we always avoid and our buyers are forbidden to purchase, no matter what the price inducement may be.

For This Clean-Up Sale We Offer At \$4.98 At \$6.50

Strictly tailor-made Suits of extra quality union linen in white, light blue and natural. The coats are made 36 inches long, single breasted with pearl buttons, plain combinations of contrasting colors on collar, cuffs and pockets.

Strictly tailor-made Suits of best quality Union linen in white, natural, light blue, pink and reseda. The coats are 40 inches long, single breasted, with pearl buttons, trimmed collar and cuffs. The skirts are made in the newest flare style.

Real Reduction Clean-Up Sales in Every Department in the Store

WATER BOARD USES HOOK ON SHARPE

Pump Engineer Is Let Out of Office for Carelessness and Incompetency—Office Is Abolished—Mayor Is Sarcastic.

By dismissing Chief Pump Engineer W. J. Sharpe of the city water department the water board yesterday abolished that office. Henceforth the maintenance of the pumps and the care of the entire outside water system will be placed directly in the hands of Assistant Engineer F. M. Handlett. This was done at the meeting and Mr. Handlett was further instructed to make a thorough inspection of the water system and to file with the water board a report of the conditions he finds.

R. B. Lamson made a motion at the preceding session of the board to dismiss Sharpe. An investigation of the pump engineer's department recently brought to light the fact that he was incompetent and careless. In addition to these faults the board was not satisfied as to the truth of Sharpe's statements when he was called upon for information. At that time, however, W. J. Allen did not wish to discharge the engineer until the latter had had a chance to defend himself.

The engineer not being asked for a hearing Mr. Lamson carried his motion yesterday and it was carried unanimously. Dr. C. H. Beatty was elected to fill the position vacated by Sharpe.

Superintendent Dodge reported that all the pumps which were in such a dilapidated condition at the time of the break in the submerged main are in good running order now. He said that the chief pump engineer had been working night and day to bring this condition about.

"I always contended that Mr. Sharpe was the best man we could get for the position," declared Mr. Allen as the superintendent made his report, "but don't let us repeat now we have fired him and let him stay."

Mayor Is Sarcastic.

"Yes, you can tell he was a good engineer by the way he took care of his plants," remarked Mayor Lane sarcastically.

The board adopted a resolution prohibiting sprinkling from the four-inch main that supplies the city links between the hours of 8 a. m. and 3 p. m. This action was taken at the request of the water board. The trade which reported that many dwellings in Sellwood were with a drop of drinking water during sprinkling hours and at the same time thousands of gallons were being used to sprinkle lawns outside the city limits.

The matter had been referred to the water superintendent for investigation. He reported that a contract had been made in 1902 between the city and the Waterway association, owners of the pipe links by which the city agreed to furnish water through meters but reserved the right to cut off the supply whenever it should seem this advisable.

More than 1000 gallons of water a day are used to sprinkle the links and by four dwellings outside the city limits. This amount, said the superintendent, would supply 24 dwellings in

Sellwood. The board thought it would be better to have the outside links cut off at this time and so it was decided to compromise by allowing them to sprinkle only after 9 o'clock at night and before 5 in the morning.

COLFAX RAILROAD FIGHT ADJUSTED

(Special Dispatch to The Journal.)
Colfax, Wash., July 1.—Presumably because they feared the institution of injunction proceedings, the O. R. & N. officials had a large force of men at work bright and early this morning installing a new commodity track from the main line of the Moscow branch on Lake street across Last street onto the company's land near the inland station.

At a recent meeting of the city council the O. R. & N. officials gave permission to install the track, provided the company would macadamize Lake street between Last and North streets, from the east rail of the Moscow main line to the sidewalk on the west side of the street, with the further provision that the permission could be terminated at any time by the council giving the railway company officials 30 days notice.

After demurring for some time the company accepted the terms demanded by the city, and a crew of men was put to work Wednesday preparing the ground to receive the rails and ties for the new track, but on account of some of the property owners in the vicinity who had opposed the granting of the privilege by the council, threatening to begin injunction proceedings as soon as the work was started, no attempt to lay the track was made until today.

EIGHT HOURS FOR BRITISH MINERS

London, July 1.—The law limiting the workday for miners to eight hours came into operation today. The passage of the measure was a notable victory for the miners' organization. It was strongly opposed by the mine owners, who argued that it would mean a serious limitation of output, and would consequently not only react on the British manufacturing industries, but would be a serious blow to British shipping interests.

FAULTLESS PRESCRIPTION

No Remedy for Stomach Distress and Indigestion So Perfect.

A scientific prescription for dyspepsia put up in small tablet form and called MI-O-N is making thousands of quick and lasting cures throughout America. There is no stomach disease (even catarrh of the stomach) that it is not guaranteed to cure, and Woodard, Clarke & Co. have so much faith in MI-O-N for stomach disorders of all kinds that they will refund your money if it does not cure.

MI-O-N, the faultless prescription, cures sour stomach, belching of gas, distressing eructations, heartburn, biliousness and nervousness.

It is well worth a trial by any reader of The Journal who suffers from any stomach disturbance. It contains ingredients that not only give relief but that act on the stomach so beneficially that in a short time the flabby, tired out walls of the stomach regain their strength and elasticity.

Try MI-O-N for a week; misery will change to happiness; despair to hope, dull eyes to bright and you will yourself wonder why you suffered so long with such a remarkable prescription at hand.

Only 10 cents for a large box at leading druggists everywhere.

HYOMEI

Cures croup or money back. Just breathe life. Complete outfit, including inhaler \$1. Extra bottles 50c. Druggists.

MOB SEEKS LIFE OF COLORED YOUTH

(United Press Lined Wire.)
Covington, La., July 1.—Hidden in a swamp, surrounded by a mob, Morris Boham, colored, 17 years old, accused of attacking Irene Brocato, a 9-year-old white girl, is threatened with hanging. The sheriff has wired the governor that he is unable to cope with the situation and troops may be ordered to the scene.

To Stamp Out Consumption.

Springfield, Ill., July 1.—The Wright law, one of the most advanced steps yet taken by any state towards stamping out of consumption, came into effect in Illinois today. The measure, which was passed by the last legislature, permits counties to purchase and hold real estate to be used as sites for public tuberculosis sanitariums, and gives county boards the power to erect and maintain such institutions at the expense of the county.

PAVING QUESTION TAKEN TO COURT

Duniway Asks City Be Restrained From Using Hassam Pavement.

Acting in the capacity of a taxpayer and citizen, Attorney Ralph E. Duniway has filed suit in the circuit court in an effort to restrain the city from improvement of Multnomah street by the Hassam Paving company and to declare void the award of the contract to that company.

Duniway's contention is that the bids called for were on open specifications. He denies that there was any specification covering a patented article, and asserts that any one able to furnish rock, gravel, the men and machinery is able to take the contract. The city awarded the contract to the Hassam people on the theory that a patented article is called for. The Hassam bid for the work was \$12,248 and the bid of J. W. Sweeney, the only competitor, was \$37,051.

Upon the showing made in the Duniway petition, Presiding Judge Bronaugh issued an order to all parties to come into court next Thursday and show cause why the contract should not be awarded to the lowest bidder. This will bring up the patent paving monopoly question in a new form, the courts of this circuit having already decided

that the city may legally advertise for bids on a patented article. In this case the Hassam people claim that the specifications cover their patent and that they will not sell a license to Sweeney. Duniway asserts that patent paving is not called for by the specifications.

An Astonishing Sight

A Saturday special in Bannan & Co's window that takes the breath away. Journal want ads to a word.
