SWEATED INDUSTRIES EXPOSED IN LONDON

London, July 16.—Samuel Gomera, president of the American Federation of Labor, is to be one of the principal speakers tomorrow at a great demonstration to be held at Earl's Court exhibition in behalf of the organized working women of London and vicinity. Will Crooks, a labor member of parliament, who visited America some time ago, will be another leading speaker.

The demonstration promises to be the biggest affair of its kind that has ever taken place in England. The arrangements have been carried out by the Women's Trade Union League and the Women's Labor League, with the official support of the Labor party in parliament.

The purpose of the affair is to impress upon the public the extent and importance of woman labor in the industrial world and the necessity for immediate legislation for the better protection of woman workers and the prohibition of their work. One of the features of the program will be an exhibition of the conditions under which thousands of women and children earn their daily bread in London, and in other industrial centers of the United Kingdom.

Supper will be served and they will leave Astoria on the night train for Portland.

John M. A. Lane, S. A. Mathew and George Blaney of Portland, were elected delegates to attend the meeting of the American Pharmaceutical Association to be held in Los Angeles August 16 to 20. The question of a new pure drug law for the state came up and was discussed at some length. A committee consisting of F. C. Post of Portland, Clyde G. Huntley of Oregon City, A. W. Allen, F. H. Caldwell, Portland, and A. C. Koepplin, Pendleton, were appointed to draw up a new drug law to be recommended by the state association to the next legislature.

The matter of recommending men to the governor of the state for the state board of pharmacy came up and was put in the hands of a committee to report tomorrow.

Most of this afternoon's meeting was given over to the reading of papers on questions of general interest to the drug trade. After the meeting yesterday, the delegates resorted to the beach where the retail druggists succeeded in defeating the traveling men in a tug of war.

SCHOOLBOY ROW ENDS IN MURDER CHARGE

(United Press Leased Wire.)

Guerneville, Cal., July 15.—Four boys, said to be students of the Oakland high school, are under arrest in this city, charged with assault to murder. The boys are Grover Peterson, Harold Dow and Richard T. Latta.

The alleged assault, on which the charge is based, was made upon Harold McLane, 23 years of age, of this city. C. A. McLane, the boy's father, claims the four boys were heard to make threats.

An insult alleged to have been offered by young McLane to a girl schoolmate of the Oakland boys is said to have been the cause of the assault. The boys intended to throw McLane into the Russian river, but when they found him a free for all fight ensued, during which McLane received a severe beating. Cash bail for each defendant was fixed at \$250.

The place of next meeting was left to the executive committee with the suggestion that it be at Bay Ocean. In accordance with the recommendation in the message of the president 40 copies of the constitution and by-laws of the association

Anty Drudge on Mending.

Mrs. Housewife—"I seem to do nothing but mend and darn all the time. Half the clothes are full of holes after a few washings."

Anty Drudge—"It's the boiling of your clothes in the wash that causes you all this work, Dearie. Boiling weakens them and makes them soft just as it does meat or vegetables. Use Fels-Naptha soap in cold or lukewarm water and the clothes will wear much longer."

Did you ever wear homespun? Probably not, but your parents did. Old-time clothes were coarse and tough, able to stand the boiling and rubbing and pounding of the old-fashioned way of washing.

The delicate fabrics of to-day won't stand it. Perhaps your clothes are boiled and rubbed hard, and that is why they get frayed edges, tear easily, and wear out before their time.

Fels-Naptha soap is the modern way of washing. It cleanses clothes thoroughly in cold or lukewarm water—no boiling, no hard-rubbing, little time.
