

DIVORCES COME TO MANY WOMEN

Judge Bronaugh Decides That Cupid Made Several Mistakes in the Past.

Judge Bronaugh this morning granted seven divorces as his share of the usual Friday divorce work. Numbers more were introduced but it seemed to be an off day for the attorneys and several of them were dropped or continued for some time.

F. C. Steinkemper, Meier for short, applied for a divorce from his wife, M. B. Steinkemper, on the grounds that she had deserted him and gone back to live a life of shame from which he had once rescued her. Once, before she finally deserted him, she left him, going to Gresham with another man and coming back to Portland two weeks afterward. Here in 1906 the wife and the other man were arrested and sentence was suspended on the woman on the condition that she go back to live with her husband.

To protect his boy, Lawrence, then 3 years of age, Meier took the woman back to her home. He says she left him again, however, telling him that she was tired of married life. He did not try to get her to come home again. Judge Bronaugh granted the divorce and also gave the husband custody of the child.

In the other six cases the wife was always the plaintiff. Several cases of cruelty were reported, while desertion was also alleged in each case.

Marguerite D. G. Brown, who applied for a divorce from Warren H. Brown, said in her complaint that her husband was unbearable and that he would not listen to her advice in money matters and that he continually lost money. He never let her have her own way in the ruling of the Brown household and was continually nagging at her. She couldn't stand it, she said.

Mrs. Mary W. Corbett was a widow with a home and a little money, according to her statement. Her husband married her chiefly for her money. He kept trying for nearly a year to get her to deed her home over to him and when she refused, left her. She writes asking him to come back, as she said she was lonesome, and as she expressed it was willing to take a chance on his treating her right. He did not come back, so Mrs. Corbett wants a divorce.

Other divorces were granted to Mrs. Hattie Pitcher from Morley Moberg on grounds of desertion; Emma Lousignot from her husband Francis on the same grounds; Mrs. Lousignot contending that she had been working in a garment factory for nearly a year; Mayme A. Lyle from Robert F. Lyle; desertion; C. E. Pond, from W. L. Pond, desertion.

REGISTRATION AT MISSULA

First Day's Applicants Number 6000—City Cares Well for Visitors.

(United Press Leased Wire.) Missoula, Mont., July 16.—The first day's registration for entry of Indian lands exceeded all expectations, being over 6000. Ten thousand visitors have been expected. Several hundred have been rushed for 36 hours. An information bureau is necessary at every booth.

Butte sent 2000 to register, Helena about the same and eastern Montana and Washington large numbers. Eastern states are largely represented, hundreds making the declaration of citizenship intention. Registration is proceeding quietly. Police organization holds rowdiness down and sneak thieves operate on a small scale. Crowds jam the streets at all hours. The railroad reports greater numbers coming. The Chamber of Commerce has taken the rooming situation in hand and has started a bureau with a list of available rooms.

DESCRIPTION OF RESERVATIONS.

Of the three reservations to be opened the Flathead is by far the largest. There are 1,500,000 acres, long the remains of three or four tribes of Indians. The government has reserved the timber lands, and about 200,000 acres have been set aside for the remainder of the reservation. The remainder, 440,000 acres, will be offered to the settlers. The reservation lies in Flathead county, in the northwestern part of Montana, and on the west side of the main range of the Rocky mountains. The great valley is protected from strong winds and storms by the mountains on all sides, and it enjoys the warm, modifying influence of the Pacific ocean to a marked degree in winter. The soil of the valley is a dark, rich loam on a clay subsoil, usually without rock or gravel. The rainfall is usually ample to raise most crops without irrigation.

The Spokane reservation occupies the southern part of Stevens county, Washington, about 30 miles from this city. It is bordered on the south by the Spokane river, east by Chamokane creek and west by the Columbia river. It contains about 50,000 acres of agricultural land and also considerable timberland. The soil is sandy with a little white clay intermingled. The climate is very similar to that of the rest of the Spokane valley, but there are no high winds, as the lands are protected by mountain ranges on either side. The land will be most valuable for raising. Soil, climate and altitude render it especially available for apple growing. With proper cultivation all small fruits may be grown. There is also a mineral belt, containing the great ledges of the Deer Trail country.

The Coeur d'Alene reservation is located about 35 miles southeast of Spokane, Wash. It includes some of the finest farm lands in Idaho, parts of it being now valued at \$100 an acre. While the Coeur d'Alene Indians have been allotted nearly all of the best land, it is estimated that there will be about 100,000 acres for white settlers. Some valuable timber land is found on the reserve.

BOYS' LIFE WILL BE INVESTIGATED

Y. M. C. A. President Appoints Committees to Find How Young Men Live.

With the idea of making a survey of the city to find out conditions among young men, in order to make their own work more effective, the Y. M. C. A. has through its president, W. M. Ladd, appointed five different commissions to carry on investigations in different fields.

The boy life commission will investigate the conditions of boys' clubs, working boys' life mission statements, the juvenile court and church and Sunday school work.

The physical life commission will inspect the canoeing, rowing and yachting clubs, tennis courts, gymnasiums, playgrounds, anti-tuberculosis movements and housing conditions in general.

The vocational commission will make an examination of employment bureaus, labor organizations and industrial conditions in general. The commission will look into the public and parochial schools; business, private and professional institutions of learning, as well as all other phases of educational activity.

The religious life commission will do similar work among the churches, Salvation Army volunteers of America and missions, to find out what is being done by these bodies in the way of special classes and other plans to reach the needs of young men.

After several months of investigation reports will be made to the president.

PAINFUL TREATMENT OF SCIATICA

Left Patient in Worse Condition Than Before—When Blood Was Restored Health Followed.

Of the many forms which rheumatism takes, that which is popularly known as sciatic rheumatism probably tortures its victim more than any other. That Dr. Williams' Pink Pills have cured this stubborn as well as painful trouble is a fact proved by the following statement, and to sufferers who read this can afford to let anything stand in the way of trying this treatment.

The cure of Mr. George I. Owen of No. 44 Lincoln street, South Framingham, Mass., is convincing proof of the superiority of the tonic treatment with Dr. Williams' Pink Pills over the usual medical treatments for sciatica. Mr. Owen is an engineer with the Dennison Mfg. Co., where he has been employed for over 36 years. Of his cure, Mr. Owen says:

"Through overwork and a bad cold, which settled in my back, I was attacked by sciatica in my right leg several years ago. I was bent over with pain which was continually present. It grew so much worse that the doctor recommended a blistering plaster. Then my leg was bled and the pain relieved by injections of morphia. After all this treatment for the sciatica I was left in a run-down condition. My doctor failed to build up my strength.

"My blood was in poor shape and I had no appetite. I was restless at night. There was a constant dull ache across my back. During my sickness I was often confined to my bed and lost in weight from 150 pounds to 115 pounds.

"I was in despair of ever getting better, but fortunately Dr. Williams' Pink Pills were recommended to me by some friends. The pills soon had my blood in good condition, but I was not steadily until I was fully restored to health. I am very grateful for the benefit Dr. Williams' Pink Pills gave me and always recommend them."

If you are suffering from sciatica and the treatment you are taking is not relieving you, or if you are getting worse while taking other treatment, then do not delay but give Dr. Williams' Pink Pills a thorough trial. They are the only medicine that cures others will cure you.

Dr. Williams' Pink Pills are sold by all druggists or will be mailed, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

brought him his first legal and political prominence. Then there are State Senator Alex Pollock and H. H. Emerson of Aberdeen and Representative Brewer of Hoquiam to put in a claim for Grays Harbor, while George Dystart is backed by Centralia people to win the place for their section.

Altogether it promises to be an interesting fight, by whatever form it is pulled off. If Governor Hay carries out the intention he has already expressed it is likely that the voters will stand in favor of the law providing the date and method of the special election and the system of nominations to be by caucus. Inasmuch as the candidates for the job are members of the legislature, the framing of this law itself will not be devoid of interest.

YOUNG WILL CASE LENGTHENING OUT

(Special Dispatch to The Journal.) Pendleton, Or., July 16.—Mrs. Mabel Warner, who it is alleged forged two wills in her favor and who twice stood trial for same, the jury not agreeing in both cases, took the stand yesterday in her own behalf in the battle which is being waged by the relatives of the late J. W. Young against her.

Her testimony was given without hesitation and in a firm, clear voice, which married her mother and who drove her from his home, and that her uncle had often told her that she was to be his heir. She told of her uncle's kindness to her, of sending her to school and of many other indications that he intended making her the beneficiary in his estate.

The case will probably be carried over into next week.

JACK JOHNSON IN AUTO COLLISION

(United Press Leased Wire.) Crown Point, Ind., July 16.—Jack Johnson, the colored heavyweight champion pugilist of the world, had a narrow escape from death or serious injury last night, when an automobile collided with the one in which he was riding.

Johnson was speeding near this city when his chauffeur stopped suddenly. The driver of the car directly behind failed to notice this and collided with the pugilist's machine. Both cars were partially wrecked. It is reported that a party of girls was riding in one of the cars. Neither Johnson nor any member of the two parties could be found today.

Mid-Season Suit Special

The force of square dealing as a business-getter was never more strikingly illustrated than in the phenomenal business we did the past few days on our special Mid-Season Suit Sale.

By that we mean that men and mothers have learned when we say our merchandise has a certain value—that value is just exactly what we say. Claims of fictitious values have no place in our methods, and never will have—you may depend upon it.
