FALCON ARRIVES THIS MORNING

American-Hawaiian Steamer Has Large New York and European Cargo.

CAUGHT IN ICE IN ALASKAN WATERS

On Way From Nome City Falcon Is Held for Twenty-four Hours in Ice—Will Remain on This Run for Some Time.

On her first trip for the American-Hawaiian Steamship company, the steam schooner Falcon, Captain L. J. Schage, arrived at the Columbia dock No. 1 this morning about 9 o'clock, bringing New York and American freight, which came by way of Salina Cruz to San Francisco.

Captain Schage said that after the first 24 hours out, when they had pretty strong headwinds, the trip up was very pleasant and the weather was all that could be asked for. On the way up the Falcon passed the Norwegian collier Thor, which carries coal regularly between San Francisco and Puget sound ports.

This is the second time Captain Schage has been here with the Falcon, having been here once last summer while the Falcon was under charter to Schuback & Hamilton of Seattle.

When she was chartered by the American-Hawaiian company she was in Alaska, being on her first trip up there this season, and on her trip from Nome to San Francisco she made the run in 13 days, from the time she left there, or 12 actual running, as she was caught in the ice for 24 hours in Bering sea.

Captain Schage said that there was a great deal of ice in those waters this year, and the Falcon got into floes, both on her trip up to Nome and on the way back. There was a strong current, he said and the ice floated around so that it soon surrounded the vessel and she could not move out of it for 24 hours. In spite of this, however, she was not damaged any, and made a very quick passage to San Francisco.

She will remain on this run as long as the Riverside continues to make trips between San Francisco and Salina Cruz, Mexico, which will probably be for eight or nine trips and possibly more.

Her cargo is made up of about 1000 tons of merchandise from New York and Europe.

STEAM SCHOONERS RACE

Northland Beats Steamers Mayfair and Cascade Into Port.

Another race was indulged in by the steamer Northland, which arrived at the Couch street dock last night, on her way up from San Francisco, in which she beat two steam schooners, bound for this port.

The Mayfair and the Cascade were the vessels she left behind on the way up, both having left San Francisco a few hours behind her. Another steam schooner, the Francis H. Leggett, bound for Puget sound, was also one of the contestants, but was left behind off Point Arena with the others. The Northland left San Francisco Saturday night at 9 o'clock, somewhat behind the other steamers, but beat the Mayfair in by almost a day.

Her cargo consists of 1000 barrels of asphalt and '50 tons of general merchandise. She will load 850,000 feet of lumber at the Portland mills for her return trip to San Francisco.

The steam schooner Thomas L. Wand also arrived last night and is unloading her cargo at the Oak street dock. Captain Peterson said that they had an ordinary trip, the weather being pleasant all of the way up to the mouth of the Columbia. She had aboard 406 tons of cement and 325 tons of general merchandise, principally sugar and salt. She will leave here tonight for Everett, where she will load lumber and cedar poles, the latter for the Western Electric company, for her cargo back to San Francisco.

HENRIK IBSEN IN PORT

Captain Standivity Will Be Married While Here—Bride From Norway.

After a remarkably quick passage, the Norwegian steamer Henrik Ibsen, Captain Standevitz, arrived in Astoria this morning at 5:30 o'clock, from Hongkong and way ports. She was only 17 days in making the trip from Yokohama, which place she left on July 3.

Immediately upon his arrival in Astoria, Captain Standevitz telephoned to Captain F. C. Hagemann asking if Miss Frederikke Hansen, his prospective bride from Bergen, Norway, had arrived. Captain Hagemann had just received a telegram from her saying that she would leave St. Paul Thursday night, and that she expected to arrive in this city Sunday morning. The marriage of Captain Standevitz and Miss Hansen will take place immediately upon her arrival here.

The Henrik Ibsen, which operates between here and oriental ports for the Portland & Asiatic Steamship company, has aboard a large lot of jute bags and merchandise from Chinese and Japanese ports, there being no overland freight on her. For her return trip across the Pacific, the company has already secured 10,000 barrels of old wheat flour for Hongkong and 500,000 feet of lumber for various chinese ports. This is the last flour available for export here.

SCOWTOWN ON MOVE

Must Get Outside of the Harbor Limits.

Scowtown was on the move this morning, and at 7:30 o'clock the steamer Agnes had about a dozen scows in tow at one time, taking them down the river out of the harbor limits.

Harbormaster Speier has been working for some time past to have the dwellers on scows at the foot of East Main street removed, as the colony was not only unsightly in appearance, but was also a fruitful breeding ground for disease. Through his efforts, William M. Ladd, owner of the adjoining property, gave them orders to move yesterday, and the result was that the exodus began this morning.

ALONG THE WATERFRONT

The launch Eva, Captain Amos, has been fitted up with a temporary propeller and was put in commission again this morning.

The steam schooner Casco went down the river this morning on her way to Goble. She has been loading 200,000 feet of lumber at the Inman-Poulsen mills.

Gus Danson, owner of the launch which was run down by the steamer Hustler last Saturday night, because she showed no lights, was fined $200 yesterday by Customs Inspector Malcolm, for not having lamps. The launch is being held until the payment of the fine is made.

The steamer Suveric will come up from Linnton tomorrow to the Inman-Poulsen mills to finish loading 3,000,000 feet of lumber of the Pacific Export Lumber company, before going back to puget sound.

It is expected tha the steamer Telephone will be in readiness to leave for San Francisco by Tuesday. Arrangements are being made with a tug on Puget sound, which is on its way south, to tow her.

Twenty passengers were left behind by the steamer Geo. W. Elder when she sailed last night, all accommodations being taken. People wishing to go south on the Roanoke and Elder should make their reservations ahead—by mail if they live outside of the city.

The steamer Breakwater will sail at 5 o'clock this evening for Coos Bay.

MARINE NOTES

Astoria, July 21.—Arrived at 5:30 a. m. and left up at 12:15 p. m., Norwegian steamer Henrik Ibsen from Hongkong and way ports. Arrived at 7 a. m. and sailed at 10 a. m., steamer Mayfair from San Francisco. Arrived down and sailed at 5:30 a. m., steamer G. W. Elder for San Pedro and way ports;; steamer J. B. Stetson for San Francisco. Sailed at 10 a. m., steamer Sue H. Elmore for Tillamook.

Astoria, July 20.—Left up at 5:15 p. m., steamer Northland. Arrived at 6:30 p. m. and left up at 7:50 p. m., steamer Cascade from San Francisco. Arrived at 9:30 and left up at 10 p. m., steamer Falcon from San Francisco. Arrived down at 9 p. m. and sailed at 10:30 p. m., steamer W. S. Porter for San Francisco.

San Francisco, July 20.—Arrived at Sailed at 3 p. m., steamer Shoshone for Portland. Arrived at 8 p. m., steamer Nome City from Portland. Sailed at 6 p. m., steamer Asuncion; at 7 p. m., steamer Majestic for Portland.

San Diego, July 21.—Arrived yesterday, tug Hercules with log raft from Columbia river.

Coos Bay, July 20.—Sailed, steamer Alliance for Portland.

Gray's Harbor, July 21.—Arrived yesterday, steamer Hoquiam from Portland. Sailed yesterday, steamer, Daisy Freeman for San Francisco.

Astoria, July 21.—Wind northwest, weather cloudy, sea smooth.

Tides at Astoria Wednesday: High water—3:30 a. m., 7.2 feet; 4:30 p. m., 7.7 feet. Low water—10:05 a. m., 1 foot; 10:45 p. m., 2.8 feet.

Notice to Mariners.

The following notice has been issued by V. S. Houston, lieutenant, U. S. N., assistant to the inspector, Twelfth lighthouse district, from Honolulu, T. H.

The following affects the list of lights and fog signals, Pacific coast, 1908, page 70, No. 318. (List of Lights, Buoys, and Daymarks, Twelfth Lighthouse subdistrict, 1909, page 12.)

Hawaii—Kailua light station, Hawaii island; to be located on Kukailimoku point, about ¼ mile to the westward of Kaliliki point, northerly side of the entrance to Kailua bay, westerly coast of the island of Hawaii.

On or about September 1, 1909, there will be established at this station, a fixed red lens lantern light, about 60 feet above the water, and 40 feet above the ground, to be shown from a lead colored mast having at its base a small white house with red roof and lead colored trimmings.

Taft Invited to Salem.

(By Journal Leased Salem Wire.)

Salem, Or., July 21.—Governor Frank Benson this morning forwarded a formal invitation to President Taft to visit Salem on his western trip this fall. Following is the message sent the President by Governor Benson:

"Salem, Or., July 21, 1909.—William H. Taft, President, White House, Washington, D. C.—I heartily second Congressman Willis C. Hawley's invitation to you to visit the Oregon state capital on your western tour. I trust you may be able to speak here. (Signed) "FRANK W. BENSON, "Governor."

Companies Incorporated.

(By Journal Leased Salem Wire.)

Salem, Or., July 21.—Articles of incorporation have been filed in the office of the secretary of state as follows:

The Crater Lake club; principal place of business, Medford; capital stock, $2500; incorporators, J. D. Heard, W. M. Golvig and C. F. Young.

Umatilla Railway & Electric Power company; principal place of business, Pendleton, Or.; capital stock, $100,000; incorporators, Douglas Betts, A. R. Turner and Charles J. Smith.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared.

STAGE VILLAIN DOES HIS PART TOO WELL

St. Petersburg, July 21.—Word comes from Saratoff of a terrible tragedy enacted there on the stage of the National theatre in full view of a large audience. In the third act of the play which was being given the heroine is shot by a rejected suitor, and dies in the arms of her sweetheart, who arrives on the scene soon afterwards. On the night of the tragedy, to the astonishment of the audience, H. Tashnakoff, who was acting the villain, made no attempt to shoot the girl but put a bullet through the heart of her lover, who was waiting for his cue to appear, then shot the girl, and finally turned the revolver against himself and fired. Several women in the audience fainted, and a great many other persons sustained injuries in the panic that ensued while endeavoring to force their way out of the theatre. The motive of the crime appears to have been jealousy, the actors having really represented the parts they played.

LACKED 30 CENTS OF LICENSE FEE

(United Press Leased Wire.)

Vancouver, B. C., July 21.—Just 30 cents would have kept Bert Edwards of Tacoma out of jail and prevented untold mental suffering on the part of a heart broken mother, according to a statement made to Chief of Police Duley of Tacoma, who started back to Tacoma last night with Edwards, who will face a charge of kidnaping a young girl of that city.

Edwards met the girl, who is but 16 years old, and made a proposal of marriage to her. She consented, but Edwards had little money and on account of the recently enacted law in Washington requiring the payment of fees for medical examination and numerous other incidentals to securing a license, they determined to elope to Vancouver, where the expense is less.

After securing a boarding place here, Edwards found he lacked 30 cents of having enough money to secure a marriage license. So he took a position as a teamster for a creamery and was so engaged when arrested.

S.S.S. NATURE'S TONIC

The very great majority of persons need a tonic in the Spring or early Summer. The system undergoes a change at this season and the entire physical machinery is disturbed. The general bodily weakness, a tired, worn-out feeling, fickle appetite, poor digestion, a half sick feeling and a general run-down condition of the system, show that the blood is weak or anaemic, and a blood purifying tonic is needed to build up the deranged system and enrich the blood. The use of S. S. S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the long, hot Summer. Many people have put off using a tonic until the system became so weakened and depleted it could not successfully throw off disease germs, and have paid for the neglect with a spell of fever, malaria or some other debilitating sickness. S. S. S. is Nature's ideal tonic. It is a composition of the extracts and juices of roots, herbs and barks which science and experience have proven are best fitted for a tonic to the human system. It contains no minerals of any kind and is therefore perfectly safe for persons of any age. S. S. S. tones up the stomach and digestion, rids the system of that tired, worn-out feeling, and imparts vigor and strength to every part of the body. It purifies and enriches the blood, stimulates the secreting and excreting members to better action, quiets the overstrained nerves, and makes one feel better in every way.

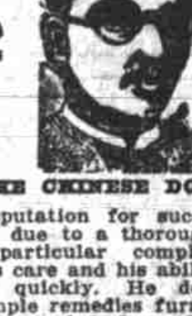
Cures the Sick

Prominent People of the Northwest His Patients. Many Cures Effected Where Other Doctors Have Failed.

C. Gee Wo



C. Gee Wo

THE CHINESE DOCTOR.

His reputation for successful cures has been due to a thorough knowledge of each particular complaint coming under his care and his ability to relieve suffering quickly. He does this by using simple remedies furnished by nature, compounded from Roots, Barks, Herbs and Buds which are gathered in every locality of the earth. Their medicinal properties are unknown to the scientists of this country and are guarded very closely by the Chinese. In his treatments no mercury or poisons are used. His prescriptions are absolutely safe, sure and painless.

All the diseases known to the medical profession have come under his care. Like his forefathers, he has made it a life study.

If you live out of town and cannot call, write for symptom blank and circular, inclosing four cents in stamps.

Consultation Free. Open Evenings and Sundays.

The Sad Fate of the Weak Man

If you are weak, you not only endure all the physical torture of the disease itself, but you suffer from the consciousness that your strength is gradually but surely waning away. The horrors of this thought increase as your weakness grows. It has been correctly estimated that one man in every four is afflicted with some form of vital weakness. This weakness taps the very fountain source of life. It is ever persistent, drawing continually on the resources of bodily strength, until the victim becomes a total wreck, or, happily, avails himself of the CERTAIN CURE I offer. My treatment is his only hope. It is to me one of the most pathetic of thoughts that there are thousands of afflicted men, suffering all the ravages of weakness, who may never hear of the hope I offer in my treatment, and must therefore continue to suffer on in utter despair until the end. Then you who know of my treatment, will you, too, continue to suffer when I offer you a positive and lasting cure. Knowing of my treatment and the certain cure assured you in its application, it is up to you to avail yourself of it and once more enjoy the full vigor of health.

DR. TAYLOR,
The Leading Specialist.

I WILL GUARANTEE A CURE AND YOU NEED NOT PAY UNTIL YOU ARE WELL

Why Other Doctors Do Not Cure

I want you to notice in particular how silent other specialists are on the subject of man's WEAKNESS. They pass the subject over because they can offer no positive cure for it. Those who do undertake to treat it resort to powerful drugs, electric belts or some other mechanical claptrap, which, instead of curing, only aggravates the ailment. Nearly every day I am called upon to treat cases that other specialists or family physicians have treated and failed to cure. In nearly every instance I find it necessary to first rid the patient of almost ruinous effects of the treatments they have received at the hands of unskilled medical men. But I guarantee to cure every man whose case I accept for treatment. I make it a strict rule to treat no uncurable cases, and I am always willing to wait for my fee until a cure is effected.

Ninety-nine cases in a hundred are curable. The incurable cases are those that have been neglected or experimented upon by some incompetent doctor. Don't wait until your case is beyond hope. Come to me while a cure is certain.

WHAT WEAKNESS IS

I discovered many years ago that weakness, so-called, is merely an inflamed and congested condition of the prostate gland; that when this important gland is thus diseased the result is a tremendous loss of energy, which, sooner or later, involves all the vital processes, weakens the heart, impairs the stomach, kidneys and liver, vitiates the digestive functions, depletes the nervous system and eventually wrecks both mind and body.

As soon as I made this discovery I set to work to devise a treatment that would cure weakness and restore the system to its former buoyancy and vital power. After years of untiring effort and a great expenditure of time and money, I perfected the successful treatment I employ today.

WHY MY TREATMENT CURES

There are several reasons why my treatment never fails to cure weakness in men. The method I use is direct and positive, the medicine being applied locally. Its effects, so administered, are almost immediate, since it is at once absorbed by the tissues, which are thus stimulated to healthy action, throwing off the poisonous secretions, overcoming inflammation and congestion and clearing the blood vessels and capillaries so that they can supply nutrition to the affected region. Come to my office today, or at the earliest possible moment. It will cost you nothing to talk the matter over with me.

I also cure quickly and permanently, Varicose Veins, Contracted Disorders, Specific Blood Poisoning, Kidney and Bladder Troubles and all Reflex Ailments.

FREE CONSULTATION

Call at the office, if possible, for Free Advice, Examination and Diagnosis. If you cannot call, write for symptom blank.

My offices are open from 9 a. m. to 9 p. m. Sunday, 10 to 1 only.

WEATHER REPORT

The north Pacific high pressure area has moved east to Montana, and the crest of the eastern high pressure area now overlies the Virginias. The northern portion of the western trough of low pressure has developed into a disturbance of considerable energy which is central over the Red River valley of the North. A new storm, evidently of marked energy, is moving inland between Galveston and New Orleans. The barometer continues relatively low over Arizona and California. It is much cooler in southern Idaho and southeastern Montana and warmer in the interior of California and along the Atlantic coast from New York to North Carolina. The temperature has also risen in the lower Mississippi valley.

The indications are for fair weather in this district tonight and Thursday, except in western Washington, where the conditions are favorable for showers Thursday. It will be cooler Thursday in western Oregon and Washington except near the coast.

Oregon—Fair tonight, warmer east portion. Thursday fair east, increasing cloudiness west portion, cooler west portion except near coast. Variable winds.

Washington — Fair tonight except showers near coast. Thursday fair east, showers west portion, cooler except near coast. Variable winds.

Idaho—Fair tonight, warmer southeast portion. Thursday fair.
