

CLEMENCEAU UNDISMAYED BY DEFEAT

Deposed Premier of France Accepts Disaster as Personal, Claiming Adverse Vote Does Not Speak to Policies—How It Came.

(United Press Leased Wire.)
Paris, July 21.—In a statement to the United Press today former Premier Clemenceau said:

"My defeat in the chamber of deputies last night, leading to the resignation of myself and the ministry, is entirely personal. It is not a defeat for the policies of the government. I believe the personnel of the cabinet and the present policies of the administration will be continued."

Paris, July 21.—While haste in naming a successor to Premier Clemenceau, who resigned last night, was a vituperative debate with M. Delcasse in the chamber of deputies is necessary because of the approaching visit of the czar of Russia, it is thought no action will be taken today by President Fallieres.

M. Briand, minister of justice, is mentioned as a probable successor to Clemenceau and he was in conference with President Fallieres and the president of the senate this morning, but nothing definite of the outcome of the meeting could be learned.

M. Delcasse, who caused Clemenceau's downfall after the premier taunted him with having retired in 1906, at the instigation of Germany, from his post as minister of foreign affairs, is also mentioned as a possible appointee. It is thought, however, that his chances are slight, because of the known opposition of Germany to his filling an official post.

Delcasse is very popular, as was demonstrated in the chamber last night when the majority was suddenly turned into a minority and Clemenceau was so overwhelmingly defeated that he and his ministry were compelled to resign.

Although they resigned with Clemenceau, the premier's resignation was not accepted.

Stomach Ache and Diarrhoea

Eating green vegetables and unripe fruit, sudden changes in weather, excessive heat, gulping down iced drinks, etc., cause stomach ache, cramps and dysentery. This causes a great deal of discomfort and suffering, and sometimes death.

In any case of this kind you will find Duffy's Pure Malt Whiskey a sure and quick remedy. A teaspoonful in a half glass of milk every hour will bring instant relief.

Mrs. Freeman Vigorous at 114. In an interview with Mrs. Campbell, who lives at Red Bank, Pa., and who is the daughter of Mrs. Freeman (114 years of age), she stated: "My mother has been using Duffy's Pure Malt Whiskey and is anxious to have me tell you that she felt its strengthening effects at once. We know that it has done her a great deal of good. She is 114 years of age and needs something to sustain her strength. She thinks it is a great stimulant, and no old person should be without it. I myself know what she says about your medicine is the truth."

It kills the disease germs and keeps the system in a normal, healthy condition. It keeps the old young, the young strong; it is invaluable as a tonic for overworked men, delicate women and sickly children. Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus producing a liquid food requiring no digestion, in the form of a pharmaceutical whiskey, which is one of the most effective tonic stimulants and invigorators known to science; its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

If weak and run down, take a teaspoonful four times a day in half a glass of milk or water.

EUGENE'S CHIEF ALLEGES BRIBERY

R. Denton, Cigar Dealer, Accused of Having Given Farrington Money.

(Special Dispatch to The Journal.)
Eugene, Or., July 21.—R. Denton, owner of a small cigar store in Eugene, was arrested today, charged with bribery. He is accused of having given Chief of Police Farrington \$5 on two different occasions in an effort to secure protection against raids.

According to the charges Denton offered his first bribe several days ago. As the chief of police was on his way to the depot to take the train for St. Helens to act as a witness in the Murgatroy trial, Denton called him in, Farrington refused, but handed him an envelope with the request not to open it till he got on the train. Farrington found a \$5 bill.

Yesterday Farrington went into Denton's store and Denton told him Farrington says that he intended to declare a dividend in his business on the first and fifteenth of each month; that in return all he would ask was that the chief give him a tip whenever a search for liquor was to be made at his store. Farrington also took the last alleged bribe, turning it over to the district attorney, whereupon a warrant was issued for Denton's arrest.

seem last night, it is expected that M. Cruppi, minister of commerce; M. Pichon, minister of foreign affairs, and M. Pichard, minister of marine, will be asked to accept their old portfolios when the new cabinet is formed.

Great excitement is prevailing in circles today, and the president faces a difficult problem in trying to bridge the breach between the cabinet and the ministry, however, and indications are that he will succeed in restoring normal conditions to their normal state.

Clemenceau's downfall was greeted with joy by all parties, because since his accession to the premiership he has ruled the affairs of the nation with the iron hand of an absolute "boss."

NEW DEFEAT UPON HIMSELF

The press today condemns the fallen premier as having committed political suicide. He was smarting under criticism of M. Delcasse, who as chairman of the investigating committee attacked the naval administration. Losing his head, the premier taunted Delcasse with having been ousted from the ministry and declared that he led France to humiliation at Algiers.

In connection with the political suicide of Clemenceau, the premier's resignation was not accepted.

Pet Escapes and Gives Defiance From Flagpole Near University Campus.

(United Press Leased Wire.)
Berkeley, Cal., July 21.—Roaming through the bushes around the campus of the University of California, a pet ape belonging to Mrs. A. H. Patty today successfully eluded a small army of game wardens for four days before attempting to return to the mainland to captivity.

Police and fire departments, augmented by the pompiers and a score of excited society leaders, have participated in the chase at various times since the ape made his escape, but the grinning rascal proved himself more than their match for cunning.

For hours yesterday the ape sat contentedly upon the top of a flagpole on the three-story home of Mrs. S. W. Pilscher and scratched his ribs while he grinned with glee at an immense crowd of people who stood on the street and discussed the best method of bringing him down. At dusk, after police and firemen who had been called to aid in solving the problem had finally given up in despair, the ape calmly slid down and made his way to the campus.

BEVAN TELLS A CLASHING STORY

(Continued from Page One.)

He was the officer of the guard at the marine's camp at the naval academy on the night of the tragedy and was one of the two men who were standing by when he was shot.

Threatened to Kill Himself.
Leading up to a possible motive for Sutton to end his life, Bevan said:

"Between two and six months prior to the shooting I visited Sutton in his tent. We had a talk, and at that time Sutton said life in the marine corps was not what he had expected. 'Some day I will shoot myself,' he said."

Reverting to the events surrounding the shooting, Bevan described the position in which he lay at the time the bullet was fired.

"He lay flat on the ground, with his face downward, and I don't know whether he knew Utley and myself were there."

In answer to a question Bevan said Sutton was lying quiet just before the shot was fired.

Bevan was also questioned about the incident connected with his ordering Sutton under arrest at the door of the tent. Bevan said:

"When I sent Roelker to his tent and ordered Sutton under arrest, he said: 'I'm going to get my mess jacket and leave this afternoon. I'll be back in ten days.'"

Laughs at Furious Doctors and Resumes the Big Game by Cable.

(United Press Leased Wire.)
Vienna, July 21.—Despite the warnings of his physicians that only relaxation and the abandonment of business could possibly bring about his complete recovery from the nervous disorders from which he is suffering, it is learned today that E. H. Harriman is transacting immense stock deals by cable. He has transformed his apartments at Bad Gastein, where he went recently to take the "cure," into business offices and is handling his affairs in the same manner that he would if he were in New York.

Stormy scenes are reported to have been enacted between Harriman and the famous specialists who have taken charge of his case. The railroad king framed out of these wordy battles victorious and despite the grave warnings of the specialists he has renewed his battle for power and money with redoubled vigor.

PASTOR'S WIFE SEEKS DIVORCE

(Special Dispatch to The Journal.)

Seattle, June 21.—Charging that her husband, a clergyman, had sent her from the state of Maine to the state of Washington, in 1904, on the false representation that he would soon join her, Mrs. Winnifred S. Scovell has asked the superior court for a decree of divorce from Herbert B. Scovell, who now has an important church charge on Long Island, N. Y. For five years Mrs. Scovell told the court, she had been working and caring for herself without assistance from the husband.

The complaint recites that the couple were married April 29, 1894, at Lincoln, Neb., and later the husband was sent to take charge of a church in the state of Maine. In September, 1904, Mrs. Scovell states, her husband made up his mind to remove to Washington, and sent her to Puyallup, Wash., with the promise that he would soon join her. The wife, with her child, landed at Puyallup with little funds, and found it necessary to go to work. Though she waited five years for her husband to join her, her vigil was in vain.
