ENGLAND FEARS GREAT STRIKE

New 8 Hour Law Has Opened Vital Question—Million Men Involved.

London, July 27.—The industries of Great Britain are facing a serious situation and are looking forward with tremendous anxiety and misgivings to the decision which the morning will bring. It is to be a national strike of the coal miners, or not? This is the question of which the final decision is expected tomorrow, when the executive committee of the Miners' Confederation of Great Britain will meet to canvass the votes cast at the referendum. About 10 days ago the Miners' Confederation of Great Britain, after a prolonged meeting, decided to submit the question as to whether or not a national strike should be declared in support of the Scottish miners, who are receiving a wage reduction of six pence per day, to the vote of the million or more members of the confederation. The referendum was completed today. Tomorrow, it is expected, the executive committee, having canvassed the vote, will announce the final decision. It is a serious matter, for should the decision be in favor of a national strike, the complete stoppage of the work in the mines due to the eight hour law would entail practically the complete paralysis of British industry. The crisis in the coal industry is due primarily to the new law, which has the so-called eight hour law. It was put into effect on the first day of the present month, except in the districts of Northumberland and Durham, in the neighborhood of the location of the present difficulty.

BOWERS TO GO TO CONGRESS

Hotel Manager Appointed Delegate to Trans-Mississippi Meeting.

Closer commercial relations between the people of the United States and those of the Latin republics with special reference to the early completion of the Panama canal, will be the theme of the Trans-Mississippi Commerce Congress at Denver, beginning August 16. An announcement of the meeting has been received by H. G. Bowers, manager of the Hotel Portland, together with a letter telling him that he has been appointed a delegate from Oregon. "I shall attend the meeting," said Mr. Bowers yesterday. "I regard its results as of the highest importance to our own commercial interests. Just as soon as the Panama canal is completed and in operation new opportunities for profitable trade with Latin-American republics will be presented. I think it is wise that we show interest in the prospect now. Representatives of the Latin republics will attend the congress. I and others who will be present from Oregon will emphasize the attractions and resources of our state." But trade with the South American republics will not be the only subject of interest brought before the Trans-Mississippi congress. Irrigation and reclamation of the arid territories of the west will be prominent topics on the program, as will the questions of national defense and the merchant marine. In connection with these last two subjects the announcement reads: "The pressing necessities of the Pacific coast in the matter of adequate naval facilities together with the requirements which Hawaii presents at Pearl Harbor will be the subject of a committee to include upon the program the question of national defense, believing that the continued liberal policy upon the part of the government affords protection alike to the coast line states and the interior territories of the Trans-Mississippi section and is equally beneficial to the whole country. "Our international relations and the growing demand of the Pacific coast states for a liberal policy toward the merchant marine suggests to the committee the possibility of some middle ground upon which the advocates and critics may stand for a policy applying government aid in the upbuilding and maintenance of an adequate marine service which may prove valuable in time of war."

MAN SLAPS AT FLY; HAND STRIKES REVOLVING SAW

Charged With Issuing Bad Checks.

(United Press Lined Wire.) San Francisco, July 27.—One small fly on the tip of Roby Rolin's nose cost him three fingers of his right hand. Rolin was at work in a mill yesterday when the aggravating insect alighted. The man shook his head impatiently but failed to dislodge the unwelcome visitor. Then he made a slap at the offender, and the next instant three of his fingers lay on the floor. The blow directed at the fly had so much force that Rolin's hand went beyond the objective point and struck a rapidly whirling saw. Charged With Issuing Bad Checks. Eugene, Or., July 27.—For issuing two checks, each for \$10 and cashing them at two different cigar stores when he had no funds in the bank, George Bertoff is wanted by the local police on the charge of obtaining money under false pretenses. Yesterday when the checks were presented at the bank for payment it was found that Bertoff had no funds in the institution. Bertoff is a young man and was formerly employed here by a shoe firm. He has left town.

WANTS LEGISLATURE TO PREVENT WOMAN RIDING LIKE MEN

Wright of Stewart county wants to prevent women and girls from riding astride horses, and has introduced a measure to that effect, which he hopes will become a law.

(United Press Lined Wire.) Atlanta, Ga., July 27.—That a bill pending in the state legislature is designed more than anything that has occurred of recent date to bring about woman's suffrage in this state old state, is the opinion of many politicians here. Representative Wright of Stewart county wants to prevent women and girls from riding astride horses, and has introduced a measure to that effect, which he hopes will become a law. The bill provides: It shall be unlawful for any female over 15 years of age to ride astride on a horse, mule, ass or other animal of both sexes, without regard to alterations which may be made by any artificial means, upon any public street, road, highway or other public place within the state of Georgia; provided, nothing in this act shall be construed to prohibit the riding astride of circus performers or horses or other animals within a show ground enclosure or under a circus tent. Wright is a physician, and he says the bill has the support of doctors of the state, who claim it is injurious to women to ride astride. Violation of the act is to be punished by a fine and imprisonment.

SPECIALISTS GIVE UP CASE BUT NOT MONEY

(United Press Lined Wire.) San Francisco, July 27.—Horace Harcourt, a phrenologist, and Samuel Robertson, a spiritualist, were arrested today and charged with grand larceny. John Blister, a retired Austrian army officer, is the complainant. He alleges that the two men extracted \$400 from him in an effort to cure him of a disease, and then told him nothing could be done to relieve him further. They were arrested by detectives at their offices at 1182 Market street.
