

## TWO SEA LORDS

## WEATHER REPORT

The Oregon high pressure area has advanced eastward and its crest now overlies the upper Missouri valley. Another high pressure area, centered over the south Atlantic and east Gulf states, a new low pressure area has made its appearance over eastern British Columbia, and the barometer is relatively low over a strip of territory extending from northern California south and east to New Mexico and thence northeastward to the lake region. The rains in the north Pacific states have ceased, and the weather now prevails everywhere on the Pacific slope. Local rains have fallen in Montana, North Dakota, the lake region, and along the south Atlantic and east Gulf coasts. The phenomenon heavy downpour of 4.6 inches occurred at Detroit, Mich., is slightly warmer in southern Oregon, Nevada, Utah and Colorado and generally cooler elsewhere. The changes in temperature have been unimportant.

The indications are for fair weather in this district tonight and Friday. It will be warmer tonight east of the Cascade mountains.
