

# CHICAGO CASE THESE HOPEFUL

## One Group of Employees Satisfied With Offer—Others Stand Out.

(Special Dispatch to The Journal.)  
Chicago, Aug. 13.—Roach offers the Chicago Railway company employees a three year proposition, providing for an immediate increase of 1 cent and the same each year. Thus August, 1909, 25 cents; 1910, 30 cents; 1911, 35 cents. For new employees, this: First six months, 23 cents; next six, 24 cents; second year, 25 cents; third year, 26 cents. This is approved by the union leaders, who will ask Judge Grosscup for an order permitting the receivers of the consolidated lines to duplicate the offer.

## Matteawan Superintendent Leaves for White Plains to Get the Patient.

(Special Dispatch to The Journal.)  
Fleshing Landing, N. Y., Aug. 13.—Superintendent Baker of the asylum for the criminal insane at Matteawan, N. Y., is expected to return to White Plains this morning, where he will take charge of Harry K. Thaw and take him back to the asylum. It was expected that Thaw would be in his cell at 7 o'clock this evening unless Justice Mills listened to the plea of Thaw's attorneys that he be confined elsewhere.

# FUNERAL OF PIONEER TO BE HELD SUNDAY

(Special Dispatch to The Journal.)  
Albany, Or., Aug. 13.—The body of John Fosbury, who died suddenly yesterday at Newport of heart failure, was brought to Albany on the noon train. Deceased was a pioneer of a best known pioneers and had taken an active part in the building up of the city. Fosbury was born in 1827, near St. John, New Brunswick, and was educated at the St. John college. About 50 years ago he went to California, where he worked in San Francisco drug houses. In 1855 he came to Oregon and taught school in different cities, finally coming to Albany in 1873, and entered the drug business the following year. In 1875 he entered partnership with D. P. Mack and the firm name of Fosbury & Mack still exists although Mr. Fosbury retired in 1900.

John Fosbury was a school director of the Albany district and retiring at the last June election. He is survived by three daughters, Mary and Anna of this city, and Mrs. Nellie Douglas of Clarkston, Wash., and a son, Dr. Arthur Fosbury of Red Bluff, Cal. The funeral will take place Sunday.

# OREGON FOLK FAIL TO WIN LAND PRIZE

(Continued from Page One.)  
No. 2001. Judge Witten will endeavor to draw 4,000 names today, thus completing the list of 4,000 to be drawn for the Flathead Indian reservation lands. There are approximately 2,800 homesteads to be allotted in the Flathead reservation.

At 10 o'clock Monday morning drawing will commence for the Spokane Indian reservation lands. Ninety-nine thousand applications have been received for the 41 homesteads in this reservation. Two hundred and fifty names will be drawn.

Following is the list of names drawn today in the order in which they are being drawn. Up to 2800 the applicants were drawn at random after their names were secured a homestead after the number of one of the first 2,800 falling to the lot by April 1, 1910.

# S.S.C. SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy when the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. C. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acrid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. C. goes right into the circulation, reaches the trouble and cures it by removing the cause. # BANK LOSSES ITS GOLD TO ROBBERS

(Continued from Page One.)  
into the Santa Clara Valley Bank at 10:30 o'clock this morning, covered the office force of four men with revolvers and compelled the cashier to turn over to them \$7,000 in gold. The robbers then backed through the door, jumped into a waiting automobile in which they had driven up to the bank, and started toward San Francisco. The young man did not wear a mask and the bank officials say they can easily identify them if they are captured.

About a mile out of town the auto broke down and the two robbers and the driver of the machine, who evidently was an accomplice, took to their heels. Chief of Police Walsh, with a posse of citizens, immediately started in pursuit and the capture of the robbers is expected hourly.

When the holdup men entered the bank Vice President Albert Harris, Cashier F. A. Hize, Paying Teller F. H. Roberts and Bookkeeper Charles Johnson were at their desks.

Cashier Stand Out the Gold.  
"Come through!" demanded the younger of the robbers as he pointed two revolvers at the heads of the cashier and the bookkeeper. The other man covered the vice president and teller.

With no chance to reach for the revolvers under their desks, so sudden and unexpected was the demand; the order obeyed. The cashier was forced to hand out all the gold in sight. "Don't hold any back or I'll blow your head off," said the robber, and his voice and attitude gave convincing evidence of the sincerity of the threat.

The cashier was forced to put the gold into a sack which the robbers had thrown upon his counter. After this was done, the two men, still threatening, stepped through the door and held the bank officials under cover with their revolvers.

They Escape by Auto.  
The chauffeur was ready to start his machine instantly and no sooner had they sprung into the car than they left in a cloud of dust at full speed.

So quickly was the whole robbery and escape accomplished that the bank officers were stunned for a moment. As soon as possible they gave the alarm and every available automobile was put into service by the posse.

The robbers had such a start, however, they probably would have made good their escape if their machine had not broken down.

The Santa Clara bank has a capitalization of \$60,000. The \$7,000 in gold was all that was in sight at the time the men entered. The cashier told them it was all in the hands of the bank. They did not take time for arguing on this point.

# SAN FRANCISCO SENDS AID TO OFFICERS

(Special Dispatch to The Journal.)  
San Francisco, Aug. 13.—Chief of Police Cook received word of the robbery of the Santa Clara bank shortly after 11 o'clock, and immediately dispatched two automobiles, each containing three detectives armed with Winchester, in the direction of Santa Clara. The detectives were given orders to kill in the

# ORDERING THE ICE CREAM.

"Send three pints of ice cream to Mrs. Blank tomorrow," said Mr. Blank, entering the store of a suburban town. "That is, send three pints if it rains; if it is fine, send only a quart."

The young woman behind the counter started to write down the order.

"Will you please give me that again about the weather?" she asked.

"Three pints if it rains, a quart only if it's fine," said Mr. Blank.

The young woman put it down, but seemed puzzled.

"You see, if it is a fine day there won't be so many of us at home," Mr. Blank explained.

The next day was neither rainy nor fair, as it turned out, and the ice cream man had to act as a weather umpire. Presumably he decided that it was rainy.

# THE BEST DOCTOR AT A FAIR PRICE

THOUGH MY EXPERIENCE IS VASTLY BETTER MY FEES ARE REALLY LESS THAN THE AVERAGE DOCTOR CHARGES

Dr. Taylor, The Leading Specialist.

The value of experience depends not so much upon its volume as upon its quality. A thousand years of inaccurate practice would make no physician more proficient. Though my experience is considerable in quantity, its value lies in the fact that it is experience of the highest order—experience acquired through careful and conscientious practice, proven scientific by an unapproached record of permanent cures. I have for twenty-five years been curing all diseases peculiar to men, and each one of these years has been crowded full of careful study, and sound, good experience.

### Specific Blood Poison

No dangerous minerals to drive the virus to the interior, but harmless, blood-cleansing remedies that remove the last poisonous taint.

### Varicose Veins

Absolutely painless treatment that cures completely in one week. Investigate my method. It is the only thoroughly scientific method for this disease.

### Reflex Ailments

Often the condition appearing to be the chief disorder is only a careful and conscientious practice, proven scientific by an unapproached record of permanent cures. I have for twenty-five years been curing all diseases peculiar to men, and each one of these years has been crowded full of careful study, and sound, good experience.

### Contracted Disorders

You can depend upon a quick and thorough cure by my treatment. A quick cure is desirable, because a slow cure is apt to be no cure at all, and a chronic development will come later. I cure you beyond the possibility of a relapse, and in half the usual time required.

My colored charts, showing the male anatomy and affording an interesting study in men's diseases, will be given free upon application. In all my work I am thorough, painstaking and careful to give just the right treatment required in each individual case. For 25 years I have been proving my ability and my business methods have always been strictly reliable. My treatment is as correct as modern science can make it. Others may offer inducements, such as cheap treatment or quick treatment, but my foremost claim is for thoroughness, which in the long run—IN EVERY CASE—means the cheapest and the best.

Portland People Give Credit Where Credit is Due

People of Portland who suffer with sick kidneys and bad backs want a kidney remedy that can be depended upon. The best is Doan's Kidney Pills, a medicine for the kidneys only, made from pure roots and herbs, and the only one that is backed by cures in Portland. Here's Portland testimony:

H. R. McCarver, living at 286 Holladay st., Portland, Oregon, says: "Some years ago Doan's Kidney Pills proved of great benefit to me and I publicly recommended them. Since that time I have advised many of my fellow workers to give them a trial and the results of their use have been satisfactory in every instance. I believe kidney trouble in my case was brought on by a cold contracted. I had backaches and other marked symptoms of disordered kidneys, which caused me much suffering. I had always been somewhat skeptical regarding proprietary medicines but somehow the claims made for Doan's Kidney Pills impressed me in favor of this remedy and I began its use. Relief soon followed and I have had no serious return of kidney complaint since."

For sale by all dealers. Price 50 cents. Doan's Kidney Pills, Buffalo, N. Y., sole agents for the United States.
