of New York's heat wave has been broken. After 72 hours of siziling in weather, during which there were many heat prostrations, a rain which has been railing steadily for 14 hours has brought welcome relief. Already the precipitation has been over seven inches and the rain is still failing in torrents. This is the heaviest rain ever recorded here in August.

Accompanying the downpour was a northeast gale, which played havoc with coast vessels and small boats. It is feared that many lives have been lost and that the damage will run high.

The filing of these two reports, the one with Colonel James Jackson covering the account current, or the state funds, and the other with the officers' board, covering the regimental funds in the custody of Colonel McDonell, puts an end to the controversy, unless some fault should be discovered with the reports. reports.

Colonel Jackson has stated that he expected that the report handed him would be found to be correct. Members of the board of officers have stated that the partial examination of the report due them has disclosed no irregular in the handling of the regimental funds.

POLICE WILL TRY TO CLOSE EAGLE HOUSE

Barefooted, W. D. Bunten of 55 West Skidmore street, ran five blocks to the police station about midnight last night to tell the officers he had been robbed of \$48 at the Dewey house, Third and Burnside streets.

Bringing the notorious Eagle house, adjoining the Dewey house, into his recital, Bunten told the usual story of north end victims. With a girl named Huby Wilson, Bunten said he had several drinks and bottles of beer in a room in the Dewey house.

Later in the evening the girl left him. Bunten admits he was somewhat intoxicated. The woman had left her coat in his room, and finally a main named Carl Lesh knocked at the door and asked for it. While Lesh was in the room Bunten went to sleep on the bed.

When he awoke his \$48 was gone. He said it was every cent he had. Lesh was arrested in the Eagle house, next door, by Sergeant of Police Kienlan.

According to the officers every effort was made by the proprietor of the rooming house last named to shield Lesh. For years past the Eagle house has had the reputation of being a den of thieves, and several times in police court has been referred to as "The Robbers' Roost."

NEGRO PORTER FIRES BUT AIM IS POOR

Six shots fired by a negro porter named Harry Garnett at Fourth and Flanders streets this afternoon at 2 o'clock did not do any damage, according to the police. The shots were fired at a man named Woods, who ran at the first report and has not been seen since. It is said by Garnett that he and Woods got into a discussion as to who was the better man, and that it ended in the shooting. Garnett emptied one cylinder of his pistol and had started on the second round when he had to run from Policeman Leavens, who overtook him at the steel bridge. Leavens also arrested John Robert, who was running with him.

MRS. STORKE WANTS.

Mrs. Storke, who lives in Detroit, Mich., believes that marriage is a failure only under one condition—that being her failure to get a man. So far as Michigan and the available supply of men is concerned, marriage to her is a failure. But she heard that in Oregon men were as plentiful as blackberries and all were sighing for wives. Accordingly she wrote a letter to Postmaster Young, which he received this morning. It reads in part:

"As a friend of mine told me she saw in the paper a few weeks ago that they were wanting good housewives for bachelors and widowers there, and as I am a lone widow, and if it be true, I thought I would write to you for the truth. If there's no truth in it, please don't answer, but if so, please answer as soon as possible. Mrs. Storke, care Mrs. Curtis, 126 Oakland avenue, Detroit, Mich."
