### Restaurant Opens Tomorrow

Our Splendid New Restaurant Opens for Business Tomorrow at 11 A. M.—Seventh Floor of Annex

In planning this new feature of the business we had only one idea in mind, and that to provide a longfelt want. As the city and store grew more and more metropolitan we were called upon time and time again to explain why we didn't have a Restaurant in connection with a large business like this, particularly on stormy days the need of a Cafe for the accommodation of the store's patrons was convincingly demonstrated - so when the Greater Meier & Frank store was commencing to shape itself we prepared to supply this want the best we knew how. The new 7th floor Cafe will immedi-

take its place with the quickly find favor, as every ellor.

# YOU TAKE NO CHANCE

WHEN YOU BUY A 10-ACRE ROSEBURG

### ORCHARD TRACT

Oregon is just starting on an era of development such as few states have ever enjoyed. Land values are at present very low, especially fruit land, considering its revenue producing power.

We are now disposing of 800 acres, in 10-acre tracts situated in the celebrated Umpqua Valley, a soil and climate that cannot be excelled in the United States for the successful raising of apples, especially adapted to the SPITZEN-BERG and YELLOW NEWTOWN varieties.

No form of investment, at the price we are asking for these tracts, will produce the same returns without the slightest risk on your part.

We plant the orchard and care for it for three years. We place a peach tree between two apple trees and in that time you will have a profitable crop of peaches.

The demand for apples is constantly increasing and will continue to increase for the next quarter of a century.

Think it over thoroughly. Look at it from every point of view and you can arrive at only one conclusion, namely, that it offers the safest and best opportunity for the successful investment of your money.
