

CITY TO GRADE MILK CONSUMED

Health Office Will Investigate Dairies Inside Limits and Enforce Cleanliness.

Systematic scoring or grading of dairies; orders that dairies below standard shall close until the law has been complied with, and aggressive prosecution of dairymen who fail to obey orders—this is the plan adopted by Dr. C. H. Wheeler, city health officer, and will be carried out by Dr. D. W. Mack, city milk inspector.

The plan, however, relates only to dairies which are within the city limits. The city health officer will have jurisdiction only over the milk that comes from dairies beyond the corporate limits, and until the authority vested in the office of state dairy and food commissioner has been made active, or has been communicated to the city authorities, the responsibility for making the dairies outside of the city sanitary, still rests on State Dairy and Food Commissioner J. W. Bailey.

The majority of the dairies in the city, still rests on State Dairy and Food Commissioner J. W. Bailey. The majority of the dairies in the city, still rests on State Dairy and Food Commissioner J. W. Bailey.

Acting on the plan of campaign as outlined, Dr. Wheeler, acting through Dr. Mack, caused a warrant to be issued for the arrest of Joe Kiser of the Canyon road, charging him with continuing to sell milk from his dairy had been officially closed. Mrs. Kiser stated to The Journal that she and her husband would abandon the dairy business and seek another business and another location if given time. She also said that the statement coming from the city health officer that one of her children died last winter from diphtheria is inaccurate, that none of the children died, although a number of them were seriously ill from the disease.

Dr. Wheeler, in discussing the subject, said:

"I have given the city milk inspector instructions to proceed systematically in his inspection of the dairies that come under the jurisdiction of my office. He will cause all offenders to be vigorously prosecuted. I am determined that Portland's milk supply shall be cleaned up. I think the vigorous publicity given to the dairies without the city limits has already resulted in a great deal of good and will have even greater effects."

SPEAKS NICE OF JAPAN ADOPTS CITY OF ROSES TWO AIRSHIPS

Kansas City Man Says Portland Is Progressive Community. Native Inventor, Mr. Narahara, Has Completely Solved Problems.

Secretary Fred W. Fleming of the Kansas City Life Insurance company, who was recently in Portland while on a tour of the Pacific northwest, has returned to his home city and in a recent talk with the Kansas City Journal had many nice things to say about Portland, and especially of the Commercial club and the effective work that organization is doing in developing and upbuilding all Oregon.

Mr. Fleming, however, is somewhat off in estimating the population of this city, which he says is almost one third that of Kansas City, while as a matter of fact Portland is almost as large as the big and prosperous Missouri city.

The following is an extract from Mr. Fleming's interview:

"As an instance of a progressive and highly successful trade organization, the Commercial club of Portland is conspicuous. This city has approximately a population of perhaps one third that of Kansas City, yet their Commercial club, built last year, is a new twelve story, fireproof building, 80x100 feet in the retail center of the city. The club has about 1600 individual members, of which from 400 to 500 take lunch there daily.

"Through the Oregon Development league, comprising all of the commercial bodies of the state, a publicity fund was raised by voluntary contributions for use during the present year in advertising the resources of Oregon of \$175,000. This makes Kansas City's advertising fund of \$20,000, raised last year, look pretty small. What might be termed the 'Western Spirit' of building up the material business interests of the state of Oregon is equally active in Washington, Idaho, Utah and Colorado."

ample market for Hood River valley apples and would be pleased to buy the next year's crop if the union would entertain a price.

Mr. Stelshardt said his firm intended to give a choice cup as one of the awards at the Hood River apple fair to be held in Hood River in October, and suggested that the fair management send a few cars of the choicest fruit to New York for exhibition in one of the uptown stores.

Mr. Stelshardt left last night for Portland, from where he will go to Wenatchee and Grand Junction to purchase apples. He also expects to secure the Moscow, Or. apple crop before his return east.

MILTON SCHOOLS HAVE 400 PUPILS

(Special Dispatch to The Journal.)
Milton, Or., Sept. 9.—The fall term of school began Monday with an attendance in the three schools in the district of over 400. Many of the rooms are crowded almost to overflowing.

The brick and cement schoolhouses now in course of construction, one in Milton and one in Freewater, will not be ready for use until after the Christmas vacation. The Central building in Milton, will cost about \$15,000 and will be an eight room building with full basement. This basement will be partitioned into cloak rooms, play rooms, toilets, and rooms for heating and ventilating apparatus. A modern heating plant will be installed and everything will be up-to-date and modern in every respect.

The Freewater building, costing about \$12,000, will be built of the same material and workmanship as the Central building, but will have four rooms and a basement. It will be a two story structure and the plan of the building is so made that four additional rooms may be added at any time it is necessary.

HIDDEN FOES FLOUR MAKERS CHASE DERBIN DISCUSS PRICES

California Rancher in Peril of Lead and Poison Appeals for Aid.

Theodore B. Wilcox Entertains Washington Men at Dinner.

(United Press Leased Wire.)
Los Angeles, Sept. 9.—Shot at from ambush, the food in his kitchen poisoned and the water on his ranch fouled, P. J. Derbin, a wealthy rancher in the village of Vernon, has appealed to the district attorney for protection from a mysterious enemy.

Derbin came to Vernon from Colorado six years ago. With him and his wife lives J. P. Haskins, a former mining engineer in Colorado. Haskins is a "Several weeks ago," Derbin said today, "Haskins noticed the water in a cooler that sat on the back porch had a peculiar taste. He said nothing about it at the time, but a week later the thing was repeated. This time Haskins gave some of the water to a dog and the dog died in convulsions within a few minutes.

Samples of this water, Derbin asserted, were analyzed and found to contain strychnine. Butter purchased at a nearby grocery was found to contain the deadly poison. Several weeks ago, he alleged, he was shot at by a man coming in the underbrush near his home. He can describe no motive for these underhand attacks.

Derbin today offered a reward of \$500 for information as to the identity of his enemies. Chief Detective Brown and Detective Ramsey have been detailed upon the case by the county authorities.

DEPARTMENT STORE DESTROYED BY FIRE HOOD RIVER APPLE OUTPUT IS SOLD

(Salem Bureau of The Journal.)
Salem, Or., Sept. 9.—Fire broke out in the basement of the department store of J. L. Stockton in this city at 10:45 o'clock last night and did damage to the amount of \$40,000 or \$50,000. The insurance on the damaged stock and building will reduce the loss more than one-half. The fire, however, was greater than from clear stub thrown through the sidewalk grating, which ignited the dry wood and paper lying about the store leading into the basement of the store.

The greatest damage was done by smoke and water. The fire was soon under control, but not until after the entire building was filled with smoke and the greater part of the stock thus ruined.

HOOD RIVER APPLE OUTPUT IS SOLD

(Special Dispatch to The Journal.)
Hood River, Or., Sept. 9.—The Hood River Apple Growers union consummated its deal last night with Stelshardt and Kelly, of New York, whereby the latter secure the entire crop of Hood River apples for this season. The crop will approximate about 160 cars. The price will not be made public until after the other northwest sections have disposed of their crop. The top notch price paid in previous years was \$3.25 per box f. o. b.

In an interview with The Journal, Mr. Stelshardt said that although the price paid this year was in excess of any previous season, the firm had

Athens School Gets Piano

(Special Dispatch to The Journal.)
Athens, Or., Sept. 9.—The school board has instructed Professor Caine to buy all necessary apparatus for the laboratories, a number of new maps, a piano and several other necessary articles for the different school departments.

CLALLAM COUNTY OFFICIAL A SUICIDE

(United Press Leased Wire.)
Port Angeles, Wash., Sept. 9.—W. E. Burnside, deputy county treasurer of Clallam county, committed suicide in his office by shooting himself through the head some time after the close of business hours Tuesday night. His dead body was found by his associates when they reported for duty yesterday. A revolver lay near the body.

During the day before the tragedy, Burnside had made out several checks transferring his property to his wife and these, together with a letter to Treasurer Pringle, giving some instructions as to the disposition of his estate, were left in an envelope in the latter's desk.

No cause can be assigned for the act by the friends of the dead man other than a general depression of spirits that had been noted lately.

It is not believed by the county authorities that there is anything wrong with the deputy's accounts, and the examination of his books has been ordered. Burnside's mother resides in California.

SUES FOR PROFIT HE WOULD HAVE MADE

Judge Bronough this afternoon took up the trial of the suit of D. J. Fry against the Waldport Lumber company, involving a contract by Fry to buy from six to 15 tons of cascaro bark at five cents per pound. Fry is a druggist of Salem and bought the cascaro as an investment, he says, intending to sell it at an advanced price. He alleges that he had an opportunity to sell at eight cents per pound and would have made \$300 on the contract. He claims he is suing the company failed to deliver the bark, he alleges.

PICKING HOPS AT OAKLAND

(Special Dispatch to The Journal.)
Oakland, Or., Sept. 9.—Hop-picking started in this vicinity yesterday. The yards to be picked are owned by Starns Brothers, located close to the town, and William Kemp, on the Emporia river, aggregating 40 acres. The crop is estimated to be the best in first class condition.

PRUNE HARVEST ON AT WASHOUGAL

(Special Dispatch to The Journal.)
Washougal, Wash., Sept. 9.—The prune harvest will begin next week and will be in full swing about September 20. It is thought the Washougal district will have the largest crop of prunes ever known in its history. It is estimated there will be between 40,000 and 50,000 pounds to the acre. The prune raisers are very busy getting their trees ready and employing help to harvest the crop. I. F. Russell has the largest prune orchard in this vicinity, it containing 40 acres. Last year he owned a 20 acre prune orchard and cleared \$7100 therefrom.

YOU CAN CURE DYSPEPSIA

But to Do So You Must Duplicate Nature's Process of Digestion in Some Way.

Indigestion and Dyspepsia are often simple little matters at first, but if neglected, will soon cause much pain and distress. Pretty nearly every disease that afflicts humanity is largely due to indigestion, at least in the beginning of the trouble. The only way to restore health is to remove the cause, and this can be done by a spoonful of Kodol, a healthy, vigorous plain food in moderation, there would be little need for doctors and drug stores; but all of us occasionally, and many of us constantly, eat not only too much, but swallow rich food that the stomach cannot digest.

The food fermenting in the stomach, and undigested lumps of food harden and the lining of the stomach becomes inflamed. That's where chronic and nervous dyspepsia comes in. Now, what is to be done? Simply this: give the stomach rest; help it to do its work. The only sure way is Kodol. This is true because Kodol is the only preparation that supplies the same digestive juices that are found in a healthy, vigorous stomach. Just as soon as Kodol starts down to the undigested food, it goes proper digestion at once—and away the distress and pain. Our Guarantee: Get a dollar bottle of Kodol. If you are not benefited—the druggist will at once return your money. Don't hesitate; any druggist will sell you Kodol on these terms.

The dollar bottle, containing 32 ounces as much as the 50c bottle. Kodol is prepared in the laboratories of E. C. DeWitt & Co., Chicago.
