Friends of Samuel Gratton, Greet Rescuers With Lusty Rich Stockman, Fear a Tragedy.

(Special Dispatch to The Journal.) Tacoma, Oct. 8.—Samuel Gratton, a wealthy cattle man of British Columbia, left the Gladys hotel in this city last Monday night, accompanied by his faithful shepherd dog, Gratton saying he was going to the hills, and would send word to his friends.

Last night his dog returned to the hotel, badly wounded and covered with mud. As it was known that the dog would never voluntarily leave his master, search has been instituted, it being feared Gratton is with some serious mishap, if he is alive.

Grace Wilson, proprietor of the Gladys hotel, who is a personal friend of the missing man, is greatly alarmed. She says Gratton left while she was out of the city, leaving no word save that he was going to the hills and she can't imagine what particular hills he referred to. She also says the dog would not have left him voluntarily.

DEATH WILL BE THEIR SENTENCE

James A. Finch and Harry Daly to Appear Before Court.

James A. Finch, convicted of the murder of Ralph B. Fisher, and Harry Daly, convicted of the murder of Harry Kinney, will be sentenced to death for the second time tomorrow morning. Finch will appear before Judge Bronaugh and Daly before Judge Gantenbein, the judges who tried them.

Daly, who has been confined in the penitentiary since the time he was brought to Portland last night for sentence, the supreme court having denied a rehearing to him and to Finch on the same date. This morning Daly was taken before Judge Gantenbein and notified that sentence will be passed tomorrow. The same formality was gone through with Finch this afternoon. Finch's attorney not having been found in time to have him brought into court this morning.

Both men will, for the second time, hear the judge pronounce the doom of death, this being the only sentence possible under the verdicts of guilty in the first degree. The day of death will be named by the judge, and no further delay can come except through a commutation of sentence by the governor or an appeal to the federal courts, which is promised in Finch's case by his attorney.

Neither man showed any sign of breaking down when brought into court today. They have apparently steeled themselves for the ordeal, and they seemed to give no more heed to the proceedings than the spectators. Daly was represented by L. W. Humphreys and Finch by John A. Jeffrey.

Hee-haws—Kitten Has Several Lives Left.

(United Press Leased Wire.) Roslyn, Wash., Oct. 8.—Hope is strong that some of the five men entombed in the mine shaft where the fatal explosion occurred last Sunday are still alive. Rescue parties who have been working to recover the bodies of the supposed victims ever since the explosion took place, were astonished last evening when they were greeted with the baying of eight mules. The party led by Mine Inspector Thomas, had passed the carcasses of a mule and had just completed breaking through a heavy cave-in, when the living mules, almost famished, were found. Members of the rescue party were surprised, as it was not thought possible that anything could live for a moment after the fearful explosion of Sunday which swept to miners into eternity.

Proceeding to the mule barn, the men were greeted with the faint cries of a very hungry kitten, which was the mascot of the shaft and made its home in the barn. The famished animals were fed and watered and the kitten was carried to miners into eternity.

The finding of the mules and the kittens alive now leads to strong hope that John E. Jones, the pumpman, still lives. The static electricity was working in more than 600 feet farther from the shaft than the mule barn. There also appears a possibility that Pozarich and Tomach, who were working some distance from the shaft may still live.

General Superintendent J. F. Menzies said today that although the explosion did awful havoc in the mine and the work of penetrating the shaft is difficult, fair good progress is being made. The work will now be pushed with greater energy than ever, in the hope of rescuing alive some of the entombed men.

Good Tomorrow for This World's Most Famous Beauty Specialist

An opportunity is now offered every reader of this paper to consult the world's most famous beauty specialist, Milie Meta, of Paris, London and Syracuse, absolutely free.

A little over three years ago there was nothing known which, in our judgment, would actually remove wrinkles, but at that time Milie Meta made the important discovery which has since made her famous in two continents.

She demonstrated the great power of her new process by taking her own wrinkles out with it in three nights, after French massage, make-up, steam baths, etc., had all failed, and today Milie Meta's face is still free from wrinkles, her cheeks are plump and her skin and complexion is a delight to behold. In fact, by many she is considered the most beautiful woman in all Paris.

Her remarkable discovery was brought before the judges of the Paris International Exposition and the Rome Exposition Internationale for their investigation, and in both instances they quickly awarded her Gold Medals thereon. The French Government has honored her with a patent on her new process, and patents are now pending before the U. S. Government at Washington.

London doctors of the Beauty Edifices to investigate her methods, and their high endorsements of her discovery made her famous almost overnight, so that she was eagerly sought after by French Countesses and English Ladies of high title and rank. The Beauty Edifices of London, London-looker wrote, "An interview with Milie Meta left me persuaded that here at last might be found the secret to restore youth and beauty."

Many of those who have used her process report most astonishing results. Mrs. Mary Davis, of Essex, London, Ill., says, "My wrinkles were very deep and of long standing, so you can imagine my surprise when, after only two applications, they entirely disappeared." Mrs. L. E. Haskell, of 2503 Clay St., St. Louis, Mo., writes, "I was fifty years old. Consequently my wrinkles were of long standing and I had not thought it possible to erase them, but now when I view my changed reflection in the mirror I can scarcely realize the transformation that has been wrought."

Mrs. W. L. Richmond, Va., writes, "I used your process for the removal of wrinkles for the treatment one night and it succeeded in entirely removing my wrinkles, leaving my face soft and free from lines as a child's."

Since Milie Meta made her remarkable discovery imitators have naturally sprung up all over the country. Some of them have copied Milie Meta's advertisements and literature to such an extent that the public is often misled to distinguish the imitation from the real. We are therefore authorized to issue the following remarkable offer, which cannot fail to convince you as to who is who.

She will forfeit \$1,000.00 in Gold if every testimonial and sworn statement which she publishes is not absolutely genuine. She will forfeit \$1,000.00 in Gold if any one can show advertisements similar to hers published in any newspaper or magazine in the United States or Europe prior to the publication of her advertisements.
