### RUTH BRYAN AS COOK IN PARADE A CONGRESSMAN

to Make the Race in Colorado.

(United Press Leased Wire.) Denver, Oct. 8 .- Pollowing the an nouncement of Ruth Bryan Leavitt, daughter of William Jennings Bryan, daughter of William Jennings Bryan, that she would accept a nomination for congress, friends of Bryan started her congressional boom today. Bryan, it is understood, has consented to Mrs. Leavitt's making the race, and it is predicted that he will speak in her behalf if she receives a nomination.

(Continued From Page One.) the people using the products of such dairies.

"This investigation was conducted by members of the state board of health, the city and county boards of health, the state veterinarian, the bacteriologist to the state board of health, the United States bureau of animal industry, the city health officer and the city milk inspector.

city health officer and the city milk inspector.

"This investigation, supplemented by reports of the examination of milk samples obtained by the state bacteriologist from dairies inspected, and report of the scores of dairies from the city milk inspector confirm the accuracy of complaints relating to the generally unsamitary condition of the dairies visited, and emphasize the necessity for immediate, effective and permanent regulation of these dairies and their products in order that the condition of the dairymen themselves may be bettered and the dangers arising from the use of impure milk eliminated.

Board Takes Charge.

"By an examination of the laws governing the dairies of this state, which also define the executive relations thereto of the office of state dairy and food commissioner, and further from an opinion rendered to a member of the state board of health by the attorney general of Oregon defining the duties of this board in its relation to any and all auxiliary agencies affecting public health, it has been made apparent that it is the duty of this board to assume its supervisory authority in order that immediate results may be obtained and permanent cleanliness of dairies assured.

"With this end in view the board has formulated certain dairy regulations, and invites your earnest cooperation in the carrying out of the same, the essentials of which are as follows:

Dairy Regulations. Board Takes Charge.

Dairy Regulations.

"1. Sanitary condition of dairies and care of dairy herds and dairy products. "2. Standardization of milk as to its

purity.

"3. Enforced licensing of dairies.

"4. Issuance and distribution of educational literature among dairymen.

"The law pertaining to the office of state dairy and food commissioner is clear in defining its powers and duties in the following particulars:

"1. Executive power to compel dairy regulation is vested in the state dairy and food commissioner. This includes sanitation of barns and other buildings used in the collection and care of milk. Care of itensils used as receptacles for milk. Attention to the cowe as regards

Presents Herself as Willing St. Louis Honors Pole Finder Caught in Ravine and Exposed to Deadly Fire and Daring Aviator Together. From Heights.

Must Have Certificates.

"DR. E. A. PIERCE, "DR. ROBERT C. YENNEY, Sec. and State Health Officer. "DR. ANDREW C. SMITH."

(United Press Leased Wire.) (United Press Leased Wire.) St. Louis, Oct. 8 .- Dr. Frederick A. Lisbon, Oct. 8 .- The Spaniards in the Cook, the explorer, and Glenn Curtiss, Mellifa peninsula lost heavily today in a the aviator, rods together in a carriage reconnotat the head of a parade in connection Moors with the ceatennial celebration here today. The explorer and the aeroplanist were introduced to each other before the Mellita. reconnoissance of the position of the Moors about the fortifications, according to dispatches received here from were introduced to each other before the parade started.

Dr. Cook, who came here from Kansas City, where he lectured last night, was escorted to his hotel by a battalion of mounted police. Later he was taken to the starting place of the parade in a carriage drawn by four black horses. There Curtiss entered the carriage.

Mounted police surrounded the distinguished men during the parade, which was three hours in passing a given point.

A large force of infantry and cavalry was trapped by the tribesmen in a shallow ravine. With ranks enfiladed shallow ravine. With ranks enfilled the Spaniards were exposed to a withering fire from the Moorish rifles, whild they could make no adequate return owing to the concealment of their enemies behind rocks and underbrush. The Riffiats had mounted heavy callber rifles along the tops of the hills surrounding the ravine. The gunners had the range before the Spaniards appeared and a destructive shell fire caused great slaughter.

The Spaniardse threw forward their cavalry to cover the retreat of in-

pleanliness before milking and the sale of milk or milk products produced un-der any unsanitary conditions whatso-

It is reported that the tribesmen then massacred their captives.

All cannon and supplies carried by the advance expedition fell into the hands of the Moors. orsemen captured.

# "2. That it is the duty of every person, firm or corporation engaged in the sale of milk or cream of 10,000 or more inhabitantis, who keeps a cow or cows for the purpose of selling milk, to secure on the first day of April of each year from the state dairy and food commissioner, or from inspectors appointed by him, a certificate of inspection revokable, at any time by the said dairy and food inspector when said dairy is found foot to be in a proper condition as to healthfulness of cow or cows, or as to cleanliness and proper sanitary regiuations of the stables, buildings or grounds in which said grounds are kept. 2. That he shall inspect as often as possible the dairy, herds of the state and the methods of feeding, caring for and stabling the same.

and the methods of feeding, caring for and stabling the same.

"In order to make our further work effective and intelligent we are in need of the following information which you will have on file in your office concerning dairies supplying milk to the city of Portland. (Later similar information will be solicited regarding dairies throughout other portlons of the state):

Want List of Dairies.

"(Continued From Page One.)

know that there is a desire on the part of the commercial interests and organizations to cooperate with and aid the delegation in its work for a river and harbor appropriation. Much more can be accomplished by cooperation than by individual effort.

Bourne Ready to Help.

"I. Location of dairy and name of owner with the following information concerning each dairy at time of inspection; (a) date of inspection, (b) number of cows in herd, (c) sanitary condition of dairy with regard to the following; water supply, its source and distance from barn; ventilation of barn; drainage of buildings and grounds; disposition of manure; character of food; method of milking as to cleanliness of milkers, cows and utensils; method employed in cooling milk and location of cooling apparatus as regards stable and whether or not same is screened from files; kind of utensils used in milking and care of same as regards cleansing "Anything that I may be able to do to aid in the efforts and plans of this conference I will be only too glad to do. Unfortunately my stay in Oregon is at the command of work being done by men under my direction in Washington in regard to the work of the committee on federal expenditures, and I will be compelled to leave for Washington when notified that my presence there Is needed.

"I do not know whether I will be able to remain in Portland until October 13, as everything is up in the air awaiting news from Washington. But I am most and care of same as regards cleansing and sterilization; number of dairies licensed; methods of transportation and care used in same; copies of bulletins or other literature supplied dairymen; number and kind of bulletins issued by the United States bureau of animal industry distributed by your office among dairymen. anxious to meet with the chamber of commerce of Portland, and all other men and organizations and discuss the question of river and harbor appropriations and how to get the largest amount possible from the hands of congress. Chamberlain Will Cooperate.

Senator Chamberlain, who returned to Portland yesterday, is also heartily in accord with the movement. "Much more could be accomplished by dairymen.

"It is of vital importance that this information be furnished this board at the earliest possible moment, and before a meeting of the board to be held October 15, 1909. Anticipating your hearty cooperation in this important matter and immediate response, we beg to remain,

"DR E A PIERCE

land business interests the inauguration of a campaign for adequate aid from congress for Oregon ports and rivers. "An organization for formulating and promoting a movement for aiding our rivers and harbors is the most important issue in Oregon at this time," said Mr. Grimes, "What we want can only be secured through united and determined action.

he secured through united and determined action.

"We must present a solid and determined front, and this can only be done through organization. If our delegation has an effective organization to appeal for assistance, their hands will be vastly strengthened. If they have to do it alone, their work may be far less effective and the chance of failure be largely increased. Such an organization as is proposed, if undertaken, will, in my opinion, meet with hearty encouragement and cooperation throughout the state." Mr. Grimes was accompanied by C. P. Peck, attorney for the Marshfield Commercial club, who was equally enthusiastic with Mr. Grimes in advocacy of the rivers and harbors campaign. campaign.

State Is Interested. That the plan will meet with ap-proval throughout the state is shown by a communication addressed to Senaby a communication addressed to Sena-tor Chamberlain by the Astoria cham-ber of commerce inviting him to view the Columbia river jetty work a few days ago. In the letter it was pointed out that there was assembled at the mouth of the river a vast amount of material and machinery which would be necessary for the construction of a north jetty.

necessary for the construction of a north jetty.

It was pointed out that to move this away, or allow it to be moved before the completion of the Columbia river project in its entirety would be a great mistake and cause much loss and delay. It was requested of Senator Chamberlain that he take a trip over the jetty work on October 5 last, but owing to a previous engagement with eastern Oregon organizations he could not be

Oregon organizations he could not be present.

In discussing the necessity for united and energetic action men of Portland who are deeply interested call attention to the peculiar condition of fiffairs in the nouse of representatives. The great power of Speaker Cannon is called to mind and his openly expressed opposition to river and harbor appropriations is remembered. Speaker Cannon's district in congress has no river or harbor improvement to make and he therefore is very hostile to any such appropriations in his effort to para down the appropriation bills to the lowest limit.

Bill Eas Mard Boad.

Bill Has Hard Road.

Bill Has Hard Road.

It is known therefore that the rivers and harbors bill will have a serious time when it comes into the house for consideration. It is realized that unless a united demand is made from Oregon that the many big interests who are close to Cannon will get the lion's share of the appropriations set out in the bill for eastern projecta,

It is also apparent that unless Oregon makes a determined campaign, through a concentrated and united action, its appropriations for the Columbia river letty, for the improvement of the Willamette, for the completion of the Cellio canal, for Coos Bay, the Oregon City locks, and all other improvements needed will be pared down to the bone and thrown overboard wherever possible.

Accordingly the conference with the delegation, having as its object the formation of a definite plan of action, is regarded as being of vital importance at this time to the future and speedy development of the harbors and materways of the state.

Revenge of Good Samaritan. It will be aix months on the rock pile for Fred Wagner, who took \$12.50 from the home of Charles Sammelson, Thirty-eighth street and Sandy road. Wagner appeared at the Sammelson home one evening two weeks ago, and asked for logging. He was given a good room, and in the morning the money was missing. So was Wagner until Monday when he was picked up in Portland, Thecape was heard resigning before Justice of the Ponce Oison.

the Case of This Oregon

The experience of sufferers from stomach trouble, who have tried the tonic treatment with Dr. Williams' Pink Pills, has been that their trouble Pink Pills, has been that their trouble has disappeared as soon as the blood was made pure. The numerous disorders of the stomach, as catarrh of the stomach, acid stomach, nervous dyspepsia, neuralgia of the stomach, gastritis, and lack of tone, have the same underlying cause—impure blood. In each case the stomach is weak Dr. Williams' Pink Pills supply the stomach with the strength it needs by enriching and purifying the blood. Pure blood gives tone to the nerves, muscles, and glands of the stomach and makes it capable of properly performing the work of digestion.

A recent cure of a severe case of stomach trouble is that of Mr. I. G. Coffin, of No. 27 North Mora street, Arlets, a suburb of Portland, Or. He

says:
"In the fall of 1905 I began to have stomach trouble, which gradually grew worse until I was not able to work caused great slaughter.

The Spaniards threw forward their cavalry to cover the retreat of intantry. When this was done, the Moors all. I didn't have any appetite and my charged the retiring cavalry and scores stomach hurt me all of the time. It of the Spaniards were killed and 70 horsemen captured. ing on it. It was troubled with consti-pation and often had sick headaches I was greatly run down in flesh and strength

strength.

"I was treated by two doctors, but neither did me any good. They pronounced my trouble catarrh of the stomach and said I needed rest, I don't believe they knew what alied me. Finally I began taking Dr. Williams' Pink Pills, a medicine which had been used in our family for a number of years. I felt good effects from their use right away and continued with them until cured. I am able to work every day now and feel much better every way."

Dr. Williams' Pink Pills are a gen-

way."
Dr. Williams' Pink Pills are a general tonic and have cured such blood and nerve diseases as anaemia, rheumatism, after-effects of the grip and fevers, sciatica, neuralgia, sick headaches, St. Vitus' dance and female roubles

All druggists sell Dr. Williams' Pink Pills or they will be sent by mail, post-paid, on receipt of price, 50 cents per box; six for for \$2.50, by the Dr. Wil-liams Medicine Co., Schenectady, N. Y.

# Nehalem Basin

There is no known industry in the world which admits of as sure a chance to acquire immediate wealth, with a small amount of capital invested, as the oil industry.

Our machinery is all up and in running-order, and actual drilling for oil is to begin in a few days. No brighter prospects of success has ever been known than we can show in our oil field in the Nehalem Basin. We enter upon the work . backed by the opinion of numerous people who have been over almost every good oil field in the United States, and all say we have the best prospect for a high-grade oil at a shallow depth they have ever seen, and many say that if we do not succeed in getting oil, it will be because we did not bore for it. What stock we have to sell is selling rapidly, and by the 11th of the present month, when we advance the stock from its present price of one dollar per share to two dollars and fifty cents per share, we doubt if we have but little to sell at that price, at that date.

Our low capitalization of only \$50,000 is the attraction, as it is readily seen that our success means at least \$100,00 for each \$1.00 invested in this stock. In addition to that attraction, the Nehalem Bay Land company backs the stock with a contract on real estate (never heard of guaranteeing oil stock before, did you?).

## Every Dollar Paid for This Stock Goes Into the Development Fund

Not one dollar paid to officers as salaries. The people of Oregon, or any other state, never had put up to them as square a proposition as this, and every citizen of Oregon should become interested with us, as it means much to Oregon, and especially to Portland.

Send for prospectus.

On account of Saturday being the last day to obtain this stock at the present price of \$1.00 per share, the office will be kept open evenings until that date.
