It is possible that a warehouse will be secured in either Tacoma or Seattle and maybe one in Spokane; as the company's market extends all over the northwest. Just now the company has the biggest lot of well seasoned yard stock it has ever had on hand at any one time and the gentlemen connected with it expect to do the biggest business that they have ever had during the next year, as the outlook is very promising. From 12 14 carloads of furniture will prob ably be made monthly, which will help to swell the payroll of the city.
