

CLUE TO IDENTITY OF LOST FAMILY

Miss Bertha Dougherty of
Chicago Thinks Missing
Man Is Her Brother.

(United Press Leased Wire.)
San Bernardino, Cal., Oct. 23.—Five persons reported as wandering on the Mojave desert in the Colorado creek region are thought to be Jay Dougherty and his wife, Cora Dougherty, of Chicago, and their three children, Lois, 10 years of age, Nettie, 8, and Robert, 6. A message received here late yesterday from Miss Bertha Dougherty, 1921 Hoyne avenue, Chicago, a sister of the missing man, stated that there was little doubt that the members of the lost party were her relatives.

According to Miss Dougherty, her brother and his family have been living at Santee, a desert village. They intended, however, to seek a new home in the Yuma, Ariz., region, and expected to trek across the desert about the middle of the present month.

Word received today from searching parties went into the desert to rescue the wanderers, stated that their trails led directly to the course of the main west gate canal, where sufficient water could be obtained. The searchers, however, were unable to follow the trail farther.

MYSTERIOUS RAPPINGS BASIS OF HER FEARS

(United Press Leased Wire.)
Chicago, Oct. 23.—Because she heard mysterious rappings on the floor Miss Bertha Dougherty, a Chicago school teacher, believes that her brother Jay, his wife and three children have perished from thirst in the Mojave desert in California.

When she last heard from her brother he was starting out from Santee, Cal., to cross the desert, for the purpose of getting to the Yuma Indian reservation. Searchers are now seeking for Dougherty and his family, according to today's dispatches.

Miss Dougherty today said:

"Our family, money for which whenever death is imminent some member of the family will be warned by mysterious knocking. Thursday night, nearly all night, I heard the rapping repeatedly. My first thought, expressed to friends yesterday morning, was that some harm had befallen my brother, and last night I heard the news that leads me to believe he is lost in the desert."

DECISION FOR WEBSTER IS SWEEPING

(Continued from Page One.)
for ministerial services performed by such officers, money for which they are obliged to pay into the county treasury.

Disposing of the argument that the language of section 20 of the act says "every officer" and is therefore very broad, Judge Bronaugh says:

"The face of the act, in section 20 thereof, even with its very comprehensive expression, susceptible of a construction that will include the county judge? It is the face of the act, in section 20, which would seem to refer to officers authorized by law to have deputies, that is, executive and ministerial officers. The county judge is not charged with the execution of any duties which he can execute through a deputy. The very idea of a deputy county judge suggests an absurdity."

Was No Abiding Place.
"But, passing that, and coming to the real purpose sought to be accomplished by the writ, which is the filing of a statement which is claimed by the plaintiff will, it is the filing of a statement, note the language of section 20: 'Section 1004 of Bellinger & Cotton's compilation provides where the county clerk shall keep his office, section 1009 of the sheriff, section 2540 where the treasurer shall maintain his office, but there is no statute providing where the county judge shall have his office nor is there any statute requiring him to have or maintain an office at all or anywhere.'"

Salary Not Affected.
Judge Bronaugh then proceeds to point out that the county judge receives a fixed salary, which cannot be diminished or impaired, and that if he were to file a statement as demanded it could serve no useful purpose. His salary would not be in any way affected. Section 932 of the code expressly provides that the county judge may engage in the general practice of his profession as a lawyer, and does not provide that anything shall be subtracted from his salary.

Zera Snow appeared as a friend of the court during the proceedings instituted by King and presented a brief setting forth the position of the county judge. The court's ruling today denies his motion for a peremptory writ of mandamus and dismisses the whole matter from the records of the court.

TEXANS IN GENERAL PREPARE FOR TAFT

(Continued from Page One.)
at hotel, where the president and party will be guests at a banquet arranged by the local committee. It is expected the president will pass the night aboard his train, though accommodations have been reserved at the hotel should he care to use them. At 10 o'clock tomorrow morning the presidential train will depart for St. Louis.

Marshall, Texas, Oct. 23.—The people here are making great preparations for the visit of President Taft tomorrow. The vicinity of the Texas & Pacific railroad station is being gaily decorated with flags and bunting and it is expected hundreds of visitors will come to the city to hear the president's address. The president will speak from the rear platform of his train, as the stay here will be limited to a quarter of an hour.

Texarkana, Texas, Oct. 23.—President Taft has accepted an invitation to make a brief stop here tomorrow afternoon and elaborate arrangements for a reception have been completed. Business houses and residences are being

The Modern Don Portola and Queen of San Francisco's Great Festival

decorated in honor of the occasion. The president will be welcomed by a committee headed by Mayor A. B. DeLoach of the Texas side, Mayor R. L. Trigg of the Arkansas side and President Pomdrom of the board of trade.

Terrell, Texas, Oct. 23.—President Taft, on route from Dallas to St. Louis, will make a 15 minute stop in Terrell tomorrow morning. The Sunday school children of the city will be assembled at the union station and will be addressed by the president.

THREATEN TO RECALL THE MAYOR

(Continued from Page One.)
sandwich men and banner carriers off the street.

Resolutions Introduced.
The resolutions as introduced and adopted are as follows:

"Whereas: Mayor Simon, of the city of Portland, has, since assuming the office of mayor, permitted houses of prostitution to run in open violation of the law and has permitted the establishment of a restricted district; and

"Whereas: He has also permitted open gambling in violation of the law; and

"Whereas: He has appointed on the water board one George W. Brown, of Woodmere Water company fame; and

"Whereas: The water board, of which George W. Brown is a member, has authorized and installed a 12 inch main to supply city water through the Woodmere Water company for the Mount Scott district at a rate of 12 1/2 cents per 1000 gallons, which is in turn retailed to the residents of that district at a rate of not less than 20 cents per 1000 gallons, which is far in excess of the rates in vogue in Portland, and is a distinct case of not less than 16 2/3 cents per 1000 gallons; therefore, be it

"Resolved: That the Central Labor council of Portland and vicinity, in regular session assembled, does hereby invoke the legislative committee to invoke the recall on the said mayor, Joseph Simon.

Mayor Explains.
Mayor Simon discussed the action of the labor council this morning. He pointed to the result of his meeting yesterday afternoon with the representatives of the municipal association as showing his attitude on the open town and gambling questions, contending that his desires coincided with those of the municipal association, wherefore the labor council had no grounds for complaint on that score.

He also explained his attitude in regard to the Woodmere Water company and the Mount Scott water supply. He said that the Mount Scott district had just come into the city when his administration came into power. Complaints and petitions were continually made by the residents to the water board asking for relief from the water famine.

At last the water board, against the regular mode of procedure, knowing that if the regular proceedings were followed it would be a long time before water could be put in the district, entered into a contract or agreement with the Woodmere Water company.

The city water laws were in such a tangle, the mayor explained, that it would be hard to secure immediate relief, and there was no money in the city available for such construction. In spite of this the water board decided to ignore the usual course and give immediate relief. This was done through the agreement with the Woodmere company.

For Temporary Relief.
By the terms of this contract the Woodmere company was to guarantee the city 6 per cent on the cost of a main connecting its mains with the city lines. This main was put in at the cost of several thousand dollars. In addition to this guarantee the Woodmere company was to pay the city 12 1/2 cents for every 1000 gallons of water used above the amount necessary to guarantee the 6 per cent. It was also to reduce the cost of water to the consumers. This agreement was made simply as a means of temporary relief until the city could construct mains throughout the district early next spring.

The mayor contends that this was the best that could be done under the existing circumstances, and that it was in the nature of a relief, which would not have been available had the water board followed its usual mode of procedure. He said that the city would either have to wait until the water board itself or the water board should be censured for making the arrangement.

Superintendent's Statement.
Superintendent Dodge of the water department also discussed the Woodmere situation. He said that the board had the plans of its engineer on hand when Mayor Simon failed to see where either the Woodmere company, and that the main laid from the Section Line road to the Powell Valley road to connect with the Woodmere company's mains was simply the first section of the new system of

extensions which will be put in during the coming spring.

This main, said Mr. Dodge, is a 12 inch pipe tapping the 18 inch main of the city on the Section Line road. It cost \$6800 to lay it. This extension planned for next spring will cost approximately \$100,000, and will entirely supersede the plant of the Woodmere company.

The old rates charged by the Woodmere company, Mr. Dodge said, were \$1 a month for cooking, drinking and washing purposes and 25 cents for a bath and 25 cents for a toilet connection extra, making the monthly rental for houses having bath and toilet \$1.50. Under the contract now in force Mr. Dodge says the company charges 75 cents a month for cooking, washing and drinking purposes and 25 cents for bath and 25 cents for toilet extra. This makes a maximum total of \$1.25, which is 25 cents lower than under the old rates, and 25 cents higher than the charges for city water in other parts of the city supplied by the Bull Run system direct.

As soon as the work can be done in the coming spring, Mr. Dodge says, the city will extend its mains throughout the Mount Scott district, putting the Woodmere company out of business and furnishing the residents with city water at the monthly rate of \$1.

**COOSANS PROTEST
AGAINST DREDGE**
Increased Depth on Bar Can Be Obtained Only by the Jetty, Say Citizens.

(Special Dispatch to The Journal.)
Marshfield, Or., Oct. 23.—A vigorous protest has been registered by Coos Bay business men against the recommendation of the government engineers for the improvement of the bar. It is likely that the matter will be taken to the rivers and harbors committee of congress. A committee representing North Bend and Marshfield citizens will meet next week with the port commission to decide upon a plan of action.

The engineers recommended that \$500,000 be appropriated for a deep sea dredge, to be used in dredging out the bar. The people want the jetty rebuilt, as the only practicable way of deepening the bar. It is held by the citizens that a dredge would do little use, as the ocean would fill up the bar with sand more rapidly than the dredge could take it out. They contend that a dredge would be nothing but an experiment; that the old jetty proved a success; and that therefore a new jetty would be far superior to a dredge for deepening the bar. It is thought that a jetty will give 50 feet of water on the bar.

If necessary a delegation will be sent to Washington.

**TEACHER STEPS
IN FRONT OF CAR**
Miss Georgia M. Robbins Instantly Killed at Foster Station, Wash.

(United Press Leased Wire.)
Seattle, Oct. 23.—In full view of several of her pupils, whom she had dismissed less than an hour before, Miss Georgia M. Robbins, a school teacher, was instantly killed by a Tacoma interurban train at Foster station last evening. Miss Robbins, who was about 30 years old, came to Seattle from Somerville, Mass., several months ago. In her hurry to catch a train for Seattle Miss Robbins stepped directly in front of a car going rapidly in the opposite direction and was crushed to death before the motorman could apply the air.

**REPUBLICANS MAY
KNIFE M'CREDIE**
(Special Dispatch to The Journal.)
Kalama, Wash., Oct. 23.—There is but very little interest being taken in the congressional campaign. Where registration is required in this county less than half the voters are registered, and it is doubtful if half that number will take interest enough in the election to go to the polls. Many Republicans say that if the judgeship is to go to Clarke county, they would rather see Judge McCredie retain the office than to see a new man appointed, and for that reason if they vote they will cast their ballot for Ernest Lister, the Democratic nominee. Had Judge McCredie resigned immediately after the nomination and an attorney from this county been appointed to fill the vacancy Judge McCredie would have had a strong vote in this county. Leading Republicans in this county place Judge McCredie's majority at less than 500 in the entire district. The late Francis Costigan

had 17,000. The Democrats are looking forward to a victory for Lister, who expects to carry the district by a good majority.

TESTS TO BE MADE FOR BACTERIA

(Continued from Page One.)

dairy may be overlooked in making inspections and in the granting of licenses the state dairy and food commissioner, whose office is at 263 1/2 Washington street, will be given the names, addresses and exact location of all unlicensed dairies, so that he may take any action he may deem desirable in regard to them.

This system, it is believed, will have the effect of turning finally from the city the great amount of dirty milk from dirty dairies as produced from diseased cows, which Portland has endured many years and which has made mortality of infants under 2 years of age unnecessarily high.

DAIRYMAN JOINS IN CRUSADE TO GIVE PURE MILK TO PORTLAND

"Right always wins. That is the reason Portland's clean milk campaign will be successful. As a server of milk and cream to the people of Portland, who does not want to be indirectly responsible for the death of any baby or the injury of any person, I enter the ranks of the crusaders and am going to fight along with them till we correct the evils of the milk supply."

H. H. Carey, president of the Carey Sanitary Milk & Cream company, is one whose business has been hurt by the fight for pure milk. Samples sent by housewives to the state bacteriologist showed a high bacteriological count. But this fact seemed to add enthusiasm to the statement he made this morning. He added:

"Like other creamerymen, I was the victim of an unfortunately impure supply. Pure milk cannot be produced from dirty dairies, no matter how much care we take after the product reaches us. I gave instructions to the dairymen who supplied me with milk as to the methods they must use in producing it. But negligence followed instructions. The fault lies in the non-enforcement of the state license law.

"Every license is a certificate of inspection and means that the cows are free from disease, the dairy and its equipment sanitary and the milk handled with regard to cleanliness and freedom from contamination. Let us all work for the enforcement of the license law. It will help the dairymen, the middlemen and protect the consumer."

But Mr. Carey is not waiting for an enforcement of the license law. Since bacteriological tests showed that portions of the milk coming from his creamery were large amounts of money is spent to make the milk safe for use, were not pure, he has been taking samples from all the milk sent in to him. In regard to this plan he said:

"Just as rapidly as Dr. Matson can test the milk, I am furnishing him with samples. I have some 25 different shipments a day. He can make tests of five samples a day from these. Dairymen sending me milk that tests unreasonably high I will not allow to send any more of their products to me. I want clean milk. I want those who supply me with milk to know that I want the dairies clean. I have already emptied some of the milk into the sewer, because I did not think it safe. Clean milk is too important as a food, dirty milk too deadly as a poison, to take chances or to be careless.

"Now let me give a 'milk man's' opinion of the crusaders:

"The crusaders are the friends of the people. The best people of Portland are in the ranks of the crusaders. They are working not to persecute the creamerymen or the dairymen, but to help them and to protect the lives of the people, and especially the babies, whom had milk kills. Then the first reports of milk tests from the supply I serve the people here were made. I will say frankly that I thought I wasn't being given a square deal. But when I met those who are most active in the fight I was impressed first of all with their reasonableness, then with their clear sincerity of purpose to purify the milk supplied Portland.

"Now, I am convinced that all decent people will help the fight, whether they are producers or consumers. For one desire to be numbered among those who want to do right. I don't want to figure as a foe to progress. Only a narrow minded person would be opposed to clean milk or the cleansing of dairies and the modernizing of equipment by which clean milk is produced, and we propose to continue to do right. This agitation will help us all."

UNMARRIED MEN NOT DESIRED AS LESSEES

(Special Dispatch to The Journal.)
Pendleton, Or., Oct. 23.—Unmarried white renters of Indian lands on the Umatilla Indian reservation will not fare so well in future as they have in the past, or so well as their married brothers, according to the new rules and regulations promulgated by the department of Indian affairs, approved by the secretary of the interior, and just received by Agent Swartzlander. In fact an unmarried man is no longer to be considered an eligible lessee, unless he resides with his parents on the reservation his chances for securing land are exceedingly slim. Even then he will only be entitled to 320 acres, instead of 640 as in the past. Present single lessees will not be shut out but the amount of their land will be cut down at the expiration of their present leases.

But whereas the amount of land permitted to be rented by a single man is cut down an incentive is given to matrimony by increasing the amount which a married man can lease from 640 to 800 acres.

Among the other important changes made by the new rules is the provision for a registration of all persons who are eligible to lease land with the number of acres to which each is entitled, the bidding for land by would-be lessees and the clause which disqualifies a lessee if it is found that he has paid a commission to some Indian to secure a certain lease. This last provision is aimed to prevent one of the worst abuses which has existed on the local reservation in the past.

12 Acres Sells for \$20,000.
(Special Dispatch to The Journal.)
Medford, Or., Oct. 23.—Frank Weston has disposed of his 12 acre apple orchard near this city to an eastern capitalist for \$20,000, or \$1666 2/3 an acre. The tract is one of the finest in the valley. Mr. Weston bought the place last winter, paying \$18,000. He reserves this year's crop, which has been sold net for \$2500. At this rate he has made \$7500 on 12 acres within nine months.

Clouds and rain look and feel good to the farmers.

THE SEASON'S FIRST CONCERT

BUNGALOW THEATRE

THURSDAY EVENING, OCT. 28

Direction Lois Steers-Wynn Coman

Five carloads of Chickering upright and grand pianos of the very latest styles have been received at our wholesale and retail departments during the last seven days. You are cordially invited to come and inspect these masterpieces of America's oldest and the world's best piano makers.

Aged Woman Breaks Fast Walking Record

MRS. JANE EDWARDS ROOT.

And the Winner, Mrs. Jane Edwards Root, of 1605 E. 30th St., Cleveland, Ohio, 80 Years Old, Whose Picture Appears in the Illustration, Won the Race by Walking 2 1/2 Miles in 26 Minutes. Mrs. Root Attributes Her Vigor, Health and Staying Powers to Duffy's Pure Malt Whiskey, Which She Has Taken for Years.

In a recent interview Mrs. Root said: "I seldom take medicine, but two years ago at my home in Cleveland I felt not very strong, so bought one bottle of Duffy's Pure Malt Whiskey. I was benefited by it. I am 80 years old, and won the championship in the great walking contest for aged people in Cleveland. I came out winner of 28 contestants over 75 years of age (14 women and 14 men). I beat the world's record, and now hold the championship for the United States and Europe. I walked 2 1/2 miles in 26 minutes, and was not at all tired; could have walked it right over again. One paper gave the account as two miles in 26 minutes; all the other papers were right. When I reached the end, not another walker was anywhere near me, and the enthusiasm was great. I have had an immense mail ever since from professors in colleges and prominent men all over, wishing to know how I lived, what my diet was, what caused this wonderful strength and endurance at 78 years of age. I take good care of my health, have camped out every summer for the past 25 years, live well, and use as my only medicine Duffy's Pure Malt Whiskey. I have known during the past two years several wonderful cures from Duffy's Malt Whiskey. It is a remarkable medicine for Rheumatism and Stomach Trouble. Two instances have come to my notice of permanent cures. My wonderful health and ability to walk long distances I attribute to using it as a medicine."

Duffy's Pure Malt Whiskey

If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is recognized as a family medicine everywhere. It is invaluable for overworked men, delicate women and sickly children. It is a promoter of health and longevity; makes the old feel young and keeps the young strong.

CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only; never in bulk. Price \$1.00. Look for the trade-mark, the "Old Chemist," on the label and make sure the seal over the cork is unbroken. Write Consulting Physician, Duffy Malt Whiskey Co., Rochester, N. Y., for a free illustrated medical booklet and free advice.
