

Fourth Congress Promises Norwegian Steamer Arrives to Be Big Success-Many Delegates Arrive.

12

Billings, Mont., Oct. 25 .-- All doubt as to the success of the fourth Dry Farming congress, which is to be held here this week, beginning tomorrow and steamer Henrik Ibsen, which arrived at continuing three days, was dispelled today by the arrival of a larger number of delegates and visitors than even the most sanguine of the promoters of the gathering had expected. The delegates, come from almost every state and territory, from Canada and Mexico and from several countries of South Amerion and Europe. Included among them are many agricultural experts of international reputation.

Governors of states, officials of the national and state departments of agriculture, representatives of agricultural colleges and experiment stations, rallmagnates and numerous others. identified with or interested in agricultural development will take part in the conference. The addresses and discussions will deal with methods by which non-irrigated hands may be profitably cultivated, the encouragement of legislation for the benefit of the agricultural regions of the world, and closer cooperation between government and state experts in charge of dry farming experimental work.

JEALOUS MAN HURLS WIFE DOWN STAIRS

(United Press Leased Wire.) San Francisco, Oct. 25.-In a fit of jealous rage brought on by watching his wife dance with a friend, George Ormerod of \$29 Twenty-first street. rushed between the couple, snatched his wife from the arms of the man and hurled her down a stairway for a distance of 25 feet, early today.

The woman was taken to the hospital and physicians believe she is suffering from a fractured skull. Orme-rod is in jail charged with assault to rod is in jail charged with assault to commit murder. His wife says she will not prosecute him. Her condition is serious. is serious.

number of dancers were present when the man and woman struggled for an instant at the top of the staircase before she was precipitated to the floor below, but all seemed to be paralyzed by the tragic scene until too late to rescue her from her husband's rage. A moment after he had acted Ormerod became repentant and sped down the stairs. At the bottom he picked up the unconscious form of his wife and brokenly begged forgiveness until the officers led him away to jail.

MINISTER PAYS OLD DEBT TO COOS WOMAN

(Special Dispatch to The Journal.) Marshfield, Or., Oct. 25.-Keeping his word by paying a debt of \$9.50, con tracted 1 ice of Matt Pesson, formerly of Coos Bay, time Mrs. Louisa A. Hirst of Marsh-field received \$10 which she never ex-

The captain said that at times the shortiy after Pesson came from Fin-land to America he settled on Coos Bay. He was employed at John Bears Ilvery barn and later worked on the railroad. While employed at the lat-ter place he was injured and all his savings were exhausted by doctor bills and other expenses. Thomas Hirst, a ploneer merchant of Coos Bay, who has been dead some years, was known by resson. The latter told his troubles to Mr. Hirst and the merchant said he would give him clothing with which

FOR

RHEUMATISM

Rheumstian is in reality an internal inflammation; a diseased condi-

tion of the blood cells which supply the nourishment and strength necessary to sustain our bodies. The disease is caused by an excess of urio acid in

the blood, which comes from indigestion, weak kidneys, constipation, and

other irregularities of the system. This uric acid produces an inflamed and acrid condition of the blood, and the circulation, instead of nourishing

the different portions of the body, continually deposits into the muscles, nerves, joints and bones, the irritating and pain-producing acid with which

it is filled. Then follow the painful and torturing symptoms of Rheumatism.

We do not claim for S. S. S. that it is anything more than a first class blood

purifier, and that is just what is needed to cure Rheumatism. S.S.S. goes

into the circulation, and by neutralizing the uric acid and driving it from

cific tracks, are \$18,000 worth of dia- who are more interested in the welfare for the loss of the jewels.

not however, until the glass filled with diamonds was sent hurtling through the aperture.

Mrs. Chilberg returned. The rings were gone. At the next station, an engine and car were chartered and the couple returned to the vicinity where the jewels were supposed to be. The search was fruitless, the wet spot made by the water had evaporated and with It the hope of recovering the diamonds. The Chilbergs are at the Fairmont.

WHY OREGON IS GOING DRY

Culmination of Causes Will Work for Prohibition.

"Why Oregon Is Going Dry in 1910" was the theme treated by Dr. Clarence True Wilson Sunday evening before a large audience in the Centenary Methodist church. He introduced the subject by showing "that three fourths of the territory of the United States is now dry, and more than four fifths of Ore-gon. Twenty-six counties of this state have voted the saloons out in the last five years, and four others have only missed it by a trifling majority," he declared. "This decided sentiment is not a spasm. It is the culmination of causes that run back into the years, and must 2 run on forever. I shall name some of Nov. 5 the causes that contribute to the effects

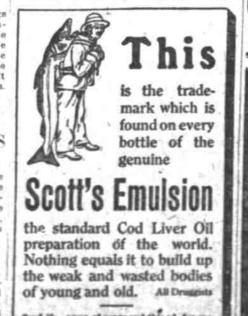

we have seen. "Twenty years ago the public schools began the systematic instruction of our children upon the nature of .alcoholic liquors and their effect upon the human system. They learned from scientifle text books that alcohol is never a food, but always a poison, and though useful as a medicine is always dangerous as a beverage. No man ever labored for the youth of

his community without getting a secret dread of the counter influence of the San Francisco, Oct. 25 .- Somewhere saloon. And here I can speak for near Shasta, mixed with the cinders and preachers, Y.
