

### MAT BRIGATE 150,000 ACRES

#### Believed Oregon Trunk Is Back of the Old Crooked River Project in Crook.

(Special Dispatch to The Journal.) Madras, Or., Oct. 29.—That a new faction has entered into the problem of irrigating the northwestern portion of Crook county, known to the government as the "Crooked River Project," was manifest this week when a Mr. Rogers and his son, in company with an engineer, G. O. Stevenson of Boise, Idaho, stopped in Madras a few hours, going to the headwaters of the Deschutes river. The only information to be obtained from the party was that they were investigating the practicability of irrigation for this section and were going to the lakes which form the headwaters of the Deschutes to secure data as to the available water supply. As to whom they represented, no information was forthcoming, but taken in connection with the rumor that interests identified with the Oregon Trunk line are considering the proposition of furnishing irrigation for this section, there is a possibility that the presence of the party is explained.

#### Water Is Scarce.

The paramount difficulty to be met in irrigating this section is to find an adequate supply of water. The government while making preliminary investigations for finding a water supply for irrigating the Crooked river project, went to the headwaters of Crooked river, but there was grave doubt as to a sufficient supply being available for storage at that source, and the fact that this party has gone to the headwaters of the Deschutes indicates that they expect to find a larger quantity of irrigable waters in that locality.

#### 150,000 Acres in Tract.

There will be no difficulty about getting the water upon the lands, the only question pertinent in this connection is availability of funds. The lay of the lands is such that in a project of this magnitude, comprising about 150,000 acres, there will be less waste tracts than might be expected, probably 90 per cent of the entire project being susceptible of irrigation.

### POLITICS WARM IN PENDLETON

#### Candidates File Petitions—Charter Amendment Is Ready for Ballot.

(Special Dispatch to The Journal.) Pendleton, Oct. 29.—The city political pot is now boiling with increasing temperature as the time for filing petitions of nominations draws to a close. The first democratic candidate, C. W. Brownfield, whose first petition was found to be defective, has been circulating another one. W. E. Brock, from the second ward has appeared in the field backed by his friends. In the fourth ward Dr. E. A. Mann, who has been boomed for the council, withdrew his name as a possibility. Much material is being found in the third ward as probable successor to Councilman Hill, such men as C. S. Wheeler, Ben Hill and Dan Kemler being suggested, while it is rumored that Mr. Hill would like to serve another term. Mayor Murphy will undoubtedly announce his candidacy for reelection. While it is persistently rumored that P. Winter will withdraw his name. The ordinance and charter amendment bearing upon the liquor traffic and which will be submitted to the people at the coming election, are fully prepared and the initiative petitions for the two measures may be placed upon the official ballot.

At the last meeting of the committee it was decided to fix the amount to be paid for saloon licenses, in the event the ordinance becomes effective, at \$2000 per annum instead of \$2500 as originally announced. The general consensus of opinion is that the people adopt these measures of regulation.

### N. P. TO IMPROVE ITS PASSENGER SERVICE

(Special Dispatch to The Journal.) North Yakima, Wash., Oct. 29.—According to a new time table just announced by the Northern Pacific the main line through the Yakima valley will carry 14 passenger trains each day, seven each way. Some of the trains from the west will arrive earlier, which will be much appreciated here, as it will bring in the morning papers from the sound about noon. In connection with this new train arrangement it is rumored that the Northern Pacific will improve its train service and road bed between Spokane and the sound instead of considering the building of the cutoff. It is argued that the grade between the Columbia river and Ellensburg is too heavy, and that the territory there will not support another road.

### MARSHFIELD BONDS GO TO CHICAGO FIRM

(Special Dispatch to The Journal.) Marshfield, Or., Oct. 29.—The Chicago firm of Woodin, McNeil & Moore has purchased \$54,000 worth of Marshfield bonds at premium of 168. A bid of \$723 premium was made by the Oregon Bank & Trust company of Portland, for E. H. Rollins & Son, but the council thought that could be done more quickly with the Chicago firm, owing to the fact that their attorneys were present. The money derived from the bonds will be used to take up outstanding warrants in the city on a much better financial footing.

### 71 1-2 HOURS TO CHICAGO

Via S. P. R. S. N. P., G. N., C. & O. Commencing October 31, two through trains daily, Portland to Chicago, via Spokane, Portland & Seattle railway and G. N. and N. P. railways. ### GAYNOR ACCEPTS POLITICS NOT IN SATAN AS PATRON THE CURRICULUM

#### Says He Would Have Run Had the Devil Nominated Him—Leaders' Claims.

(Heart News Service.) New York, Oct. 29.—Three days more of windjamming by hundreds of candidates who snatched all speed records as they hurled themselves from one hall to another in high power automobiles, and the campaign will be over. Really there are four more days before the shower of ballots, but one is Sunday. The town looks like a big circus ground. It is placarded with political banners from the top of the Metropolitan tower to the nethermost portions of the subway, and from Columbus Circle, the center of Manhattan, to the limits of the city. There are so many political banners strung across Broadway that the Great White Way looks like a London fog at night.

#### Claims of the Leaders.

Charles F. Murphy, chief tiger, who has predicted right along that William J. Gaynor, his color bearer, would run first, still sticks to his opinion. But last night he admitted that Hearst, not Bannard, would run second. Charles E. Gehring, Hearst's manager, said last night: "Hearst will receive 270,000 votes and of course will be elected. Bannard will run second and Gaynor will be a bad third. Bannard will probably get from 155,000 to 160,000. I don't know how many Gaynor will get and I don't even believe he will vote for himself. He has made such a botch of his campaign that I think he is ashamed to vote for himself."

Bannard's managers say it will be Bannard, Gaynor and Hearst. The betting is supposed to be two to one on Gaynor, but the color of real money at those odds is not very pronounced.

#### "If the Devil Had Nominated."

Former Justice Gaynor added something to political eloquence last night when he spoke in the Bronx, declaring he "had been drawn into the campaign inch by inch," and said he would have run anyhow, "even if the devil had nominated him." This made much more of a hit with his hearers than his statement that he would reduce the assessment of property in the Bronx if elected.

### HONORS TO DAUGHTER OF JEFFERSON DAVIS

Richmond, Va., Oct. 29.—Beside the graves of the president of the Confederate states and Mrs. Jefferson Davis, the ashes of their daughter, Mrs. Margaret Davis Hayes, who died at Colorado Springs last June, were buried in Hollywood cemetery today. The interment was preceded by funeral services held in St. Paul's church, conducted in the presence of a congregation which included many from the highest official life of Virginia and other states of the south and eminent representatives of the United Confederate Veterans and kindred societies. The service, although short and simple, was most impressive. Almost innumerable wreaths and other floral offerings sent by friends in many parts of the country were deposited at the grave. As a fitting tribute to the dead the flags on all the public buildings in Richmond were kept at half mast.

#### Convention of Suffragists.

New York, Oct. 29.—Widespread interest is manifested in the woman's suffrage convention to be held tonight in Carnegie hall. The convention promises to be the largest and most enthusiastic gathering of advocates of woman's rights that has ever been held in this country. Mrs. Clarence Mackey will preside and grouped about her on the platform will be many men and women of international reputation in reform movements.

### Big Run of Salmon at Yaquina.

Telegraphic advice from Yaquina to Mr. Wm. McMurray today states that there was a big catch of salmon at Yaquina last night, and that the fish are running freely. Sportsmen are having the time of their lives. Special round-trip rate of \$6 from Portland; tickets on sale daily. Run of salmon usually lasts from one to two weeks.

### NERVOUS HEADACHES OVERCOATS and RAINCOATS

Cured by Dr. Williams' Pink Pills Which Enrich the Blood and Send Nourishment to the Starved Nerves.

There is absolutely no way of reaching the nerves with medicine except through the blood. The nerves receive all of their nourishment and support from the blood which, under healthful conditions, carries the elements needed to rebuild wasted nerve tissue.

It is, therefore, no mystery that Dr. Williams' Pink Pills are both a blood-builder and a nerve tonic, nothing unexplained by science in the power of these pills to cure severe nervous disorders as well as diseases of the blood.

Mrs. J. M. Robertson, of R. F. D., San Gabriel, Cal., who was cured of a nervous disorder by these pills, says: "I suffered for nine years with nervous prostration, which was brought on by overwork. Whenever I lay down there was a sensation or pressure on my chest as though something was choking me. My heart fluttered and I couldn't sleep well. Every morning I would feel exhausted and as though I had been working very hard. For nine weeks I didn't sleep more than twelve hours, even with taking morphine. I had headaches and dizzy spells a good deal and when I closed my eyes there would be yellow spots dancing before them. I had to keep very quiet as any excitement made me much worse. I was always imagining all sorts of things. Many times during my sickness I became so exhausted that I was confined to bed for days and weeks without being able to raise up. My blood was thin and my finger nails were thin."

"For about eight years I was almost constantly under the care of doctors. They simply couldn't do anything for me. Then a friend at Ogden, Utah, which was my home for five years, advised me to try Dr. Williams' Pink Pills. I did so and felt better right away but I kept on taking the pills until I felt entirely cured. My cure has been permanent and I can recommend Dr. Williams' Pink Pills as the best medicine in the world for the blood and nerves."

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y. The genuine are sold only in packages bearing the full trade-mark, "Dr. Williams' Pink Pills for Pale People."

to be placed on trial next Wednesday was committed on the night of May 31, 1908. M. Steinhil was a portrait painter and a nephew of Melançon. The assassination of Jarry, however, is supposed to have been incidental to the killing of her husband. He was the man it was desired to get out of the way, it is alleged, in order that Mme. Steinhil might be free to marry the wealthy merchant Maurice Borel, who was then infatuated with her.

### WOMAN WHO MURDERED HUSBAND AND MOTHER-IN-LAW TO FACE JUDGE.

(United Press Leased Wire.) Paris, Oct. 29.—All France is awaiting the feverish interest, the trial next week of Mme. Adolphe Steinhil for the murder of her husband and her mother-in-law, Mme. Japy. The public interest has been whetted by the stories freely circulated that intrigues, amours and romances involving persons high in the public life of France will be disclosed at the trial. Hints concerning the possible exposure of a national scandal are heard in many quarters.

### NEW TRAIN SCHEDULE PLEASES WALLA WALLA

(Special Dispatch to The Journal.) Walla Walla, Oct. 29.—The change of schedule announced by the Northern Pacific to take place November 1, means more to Walla Walla than to any other city along the line of that road. The trains will now make almost direct connection with the main line, and through sleepers to Spokane and Seattle will be put through in much better time.

One great effect for good that is to affect Walla Walla is that theatre companies can now get in and out of Walla Walla from the main line without losing a day and without hiring special trains. This will give Walla Walla many attractions that she would otherwise have missed.

### High Tide—Clatsop Beach.

Large crowd expected Saturday and Sunday at Clatsop Beach to see the high full moon tide. Are you going? Round trip fare only \$2.00, via Astoria & Columbia River R. R. Trains leave 8 a. m. daily, also 6:30 p. m. Saturday only. Hotels at Seaside open all winter.
