MARKET NEWS OF THE WORLD

CRANBERRIES TO COME FROM EAST

Car of Valencia Oranges Due to Arrive Here Next Monday.

New Jersey cranberries will be in the market next week, a carload being now on the way. The eastern berries will probably bring 50 cents a barrel more than the local berries from Ilwaco, Wash, which have been on the street for some time and selling at \$2 a barrel. It is expected that saveral carloads of cranberries will arrive here from the Atlantic coast before Thanksgiving when the demand will be heavy as usual.

Naval oranges are also expected to

giving when the demand will be heavy as usual.

Naval oranges are also expected to begin to arrive soon and to replace the Valencias which are now in and selling at the rate of \$2.25 for small sizes and \$3.25 for large sizes. It is expected that the navels regular size will bring from \$1.25 to \$5.50. One car of Valencias is due to arrive here Monday and it will probably be the last for the season.

A carload of California bell flower apples arrived here this morning and was placed on Front street at about \$1.50 a box. The California apples were being crowded out by the Oregon croe but the shipment received this morning was in very fair condition and no trouble is anticipated in cleaning up. Taken on the whole the apple market is looking pretty well just now, prices ranging from \$1.25 for common unwrapped cooking apples, to \$3 for winter bananas. Spitzenbergers and Newtown pippins are quoted at \$2 and \$2.25. Jonathans at \$2 and Grime's golden and bell flowers at \$1.50 per box. Quinces are worth about \$1.25. There are few in the market, but the demand is never large for this variety of fruit.

demand is never large for this variety of fruit.

The grape market is fairly good, with Tokays selling at \$1 and Concords at 10c or 12½c per basket. Muscats are scarce and like the Tokays are quoted at \$1 and \$1.25 per crate.

Vegetables are coming in liberally enough to meet the demands, with more cabbage than can be readily moved. The finest heads were to be had this morning for \$1 per hundred weight. Cauliflower is quoted anywhere from 75 cents to \$1.25 per dozen. Celery is plentiful enough but brings good prices, bunches being quoted anywhere from 50 cents to \$1 a dozen. Tomatoes are rather scarce and small and run from 45 to 60 cents per box of about 20 pounds.

pounds.

The potato market is dull with little local demand on Front street owing to the fact that farmers and peddlers are doing the bulk of the local business. Onions are steady at \$1.25 per sack. Receipts are not very heavy and a more active movement is looked for in the bear future.

Wax beans were in the market this morning, bringing 60 cents a pound with a fair demand. Ground cherries from the Cowlitz river district were quoted at \$1 a box. Sweet potatoes are worth anywhere from \$1.85 to \$3 per hundred weight, the 52 quotation being for fancy stock in smaller lots.

fancy stock in smaller lots.

There are a few Oregon peaches yet in the market, but they are the last of the season. From 80 to 90 cents per box was asked for them this morning. The egg market is yery firm, first class Oregon ranch eggs being quoted at 36 cents. It was reported on the street this morning that Seattle buyers are offering 37 and 38 cents f. o. b. and that eggs are selling in the Seattle wholesale market for 40 cents and higher. But these are strictly first class

wholesale market for 40 cents and high-er. But these are strictly first class Oregon ranch eggs. Veal and hogs are steady at prices that have prevailed during the week. A few shipments came in this morning but it is expected the market will clean up well.

The poultry market was a little weak-

The poultry market was a little weaker this morning than during the week, due to the fact that receipts were heavy but it is believed that there will be very little hold over stock as the demand is good. Receipts of turkeys continue light and this is saving the market from a break as the demand is limited at this time.

The grocery market shows no change today.

EFFORT TO BEAR

Has Depressing Effect at Chicago.

Chicago, Oct. 30 .- Wheat prices closed % to % lower after an early break of about % and a little rally on the last trades. December prices were off to \$1.05\\(\frac{1}{2}\) early, but had a rally to \$1.05\\(\frac{1}{2}\) or better on some buying by brokers for the big lead. A number of bearish features were noted in the sit-The livestock market is keeping up the weak and lower market at Liverpool although receipts for the market by well, and the selling pressure than wheat at three pence decline, denial of all court damage stories from Argentina and some heaviness in continental markets. Northwest receipts were considerable over last year. Kansas City increased wheat receipts to 243 cars, and reported a heavy cash wheat situation Primary receipts for the day and week look lower. Northwest cars for the week were 5273, compared with \$568 during the corresponding week last year.

during the corresponding week las year.

The bull news consisted of much smaller Russian and Danubian ship ments for the week, an Odessa cable report unfavorable to the outlook for winter crop in Russia. Late messages from the spring wheat countries claim more liberal farm offerings.

The trade will have to consider some bearish statistics on visible stocks Monday.

The clearings for the month were \$40,908,548.21.

FORMER INSTRUCTOR CHARGED WITH LARCEN

Many Discrepancies in His Accounts With Schools Alleged-Grand Jusy to Take Up Case.

Oregon City, Oct. 30 — Walton C. Mc-Kee, for three years superintendent of the Oregon City schools, was arrested yesterday morning by Constable Miles in Portland, on the charge of larceny by ballee of \$42.50. The former in-Favorable Reports Issued structor was brought to Oregon City and appeared before Justice of the Peace Sampson and released upon the deposition of \$150 cash ball by Dr. George Hoeye and W. J. Carson, the father-inlaw of McKee. The perliminary examination is set

New York, Gct. 30.—The stock market was quiet today with no sensational features. The favorable ralifoad carnings for the month, together with optimistic trade reports, the improved aspect of the copper industry and the hasty retreat of the short interests, have done much toward improving sentiment, but yet it is felt that caution might be exerted and advantage taken of sharp advances to take profits with a view of purchasing on recessions as it is figured that a reduction in the short interest will have a tondency to weaken the position of the market. The exchange will be closed here next Tuesday on account or election.

The Seabaard receiver reports an increase of 15 per cent gross earnings and another stimulating effect was noted when Bradstreet's reported full manufacturers' order books. The activity is so great, in fact, that the same source reports a general insufficiency of skilled labor to meet the requirements. Dun's Review reports further progress in trade expansion and says that trade conditions are more settled. The Steel and Expansion and says that trade conflictions are more settled. The Steel corporation, it is reported, has during the past three weeks received orders averaging 650 tons daily.

that was not paid.

The money collected for the subscrip-tions and advertisements of the Hesperian, the high school paper, were used for his own uses, as several of the students of the high school claim, and now there is almost \$100 due the printer for that publication. The students have not been able this year to publish a not because of the indebtedness of last years numbers.

the first of the baseball season last spring, the high school boys soll-cited from the business men, funds to purchase suits and outfits for the team. These funds were turned over to Mc-Kee to be paid to the dealer, but at the close of the season McKee suggested that the suits be sold to pay for them, and the boys did so, selling the outfit to the Gladstone team. Some of the students claim that McKee got away with about \$10 of this sum also.

During the annual Teacher's institute held in Oregon City last year, County School Superintendent ary paid to Mc-Kee \$10 for the use of the high school piano, and this sum disappeared as the rest did. The students raised funds to pay for the piano, and it was found out this fall that nothing had been paid on the instrument and that it was only remaining at the school because of the leniency of the dealer. During last year \$5 was raised among the students to be given the McLoughlin Memorial association, for use toward moving the old McLoughlin home and this found its way into the same pocket, that all the rest of the missing money was placed.

A suit was started during the last year's school term against the superintendent by some Portland firm for a note due, but McKee took the stand of an unjustly prosecuted man and the suit was quieted. Now there is a large suit pending in the circuit court for groand other unpaid bills.

He was arrested on the complaint of Dr. A. L. Beattie, who was one of a committee of three appointed by the board of directors to investigate the matter. The other members of this committee are Attorney O. D. Eby and State Senator Joseph E. Hedges.

When arrested yesterday McKee had little to say, but wanted to know if he was arrested on the 'plano deal." McKee came to Oregon City from Eu-gene, where he had been principal of the high school. He was at one time principal of the Lebanon public schools, He was in the Philippine islands during the Spanish-American war, but did not hold a government position, and was only on civilian duty. He was employed by the Portland Railway, Light & Power company at one time as streetcar conductor.
