

# WALNUT NEWS

## Associations Unable to Deliver More Than That Even If Confirmed.

The market for walnuts is showing a great gain in firmness for the past few days. Such better deliveries than expected—in fact even these may be further shortened before the nuts are actually received in the local wholesale houses.

"The shortage is exceedingly heavy," says W. H. Dryer of Dryer, Bollen & Co., "and practically everyone who has purchased walnuts from California producers' associations will be disappointed by the situation fully." "Today I received the following mail advice from Santa Paula, Cal., which explains the situation fully. It says: 'Our walnut harvesting season began and will end early this year. We expect that we will have gathered practically our entire crop within the next week or 10 days. It has now become evident that our crop will be smaller than we anticipated when we gathered you some weeks ago. The necessity of our pro-rating orders is now found that we will probably not be able to deliver 45 per cent of our confirmed orders. This market and unusual shortage is principally due to the damaging effect of a very hot spell in the valleys of the walnut blight and the weather during September, which destroyed by sunburning them so that the outside hull was burned into the shells of the nut.'

"We regret exceedingly being placed in this position in which we are obliged to give our customers such a small percentage of their orders. We appreciate your patience and inconvenience this will cause you but you can understand, and are utterly unable to do differently. We do regret this more than we do for in addition to being unable to fill our orders, this crop shortage means a loss of a good many thousands of dollars."

## LIVE TURKEYS SELLING

Demand Good at This Time With Price From 17 to 17 1/2c.

From a circular issued by Evered & Farrell:

"The turkey market until the last day or so, last week, was very firm, but receipts on the last day were so excessive that prices had to be shaded to make clearance. It will be a good idea for shippers to bear in mind that buyers are reluctant to take in poultry on Saturday unless the market is bare, and it is advisable to get goods in on some other day. Here and there a few turkeys are still held to shade price Saturday and we look for about same conditions this week. Live turkeys are selling at 15 1/2c to 16c per dozen. Some are firm at 16c to 16 1/2c per dozen. Guinea are firm at 16c."

## ORANGES ARE RIPENING FAST

Charles Levy Says Shipments of "Navels" Will Start in Short Time.

Charles Levy of Levy & Spigel, local commission merchant, says that the orange crop of northern California gives every indication of being very heavy this season.

"The trees are very heavily laden with fruit at this time," says Mr. Levy, "and they are now beginning to ripen. Indications are that many of the trees will start from that section within the next week or so."

"Because of the very heavy crop, potatoes are unusually cheap in California at this time. At Sacramento they are offering the best stock on the docks at 65c per bushel, and in the movement of the growers' hands is smaller than usual."

## BAYOU BEANS HIGHER AGAIN

Advance to \$5.75 Reported Locally—Michigan Heavy Buyer in South.

Still another advance is shown in the bayou market. Michigan has jumped into the California market, and at four and a half cents more heavily than a year ago. Principal strength continues in the bayou which is now being advanced to \$5.75 per hundred pounds by wholesale dealers. There is a like advance in large whites which are now being quoted at \$5.50 per hundred pounds. While no change is shown in the local market, it is not enough to be surprised if much heavier advances materialize soon.

## SILVERSIDES ARE HIGHER

Decreasing Run Puts Fish Prices to 3 1/2c Locally Today.

Run of silverside salmon is decreasing and this caused an advance of 1/2 cent a pound in the local wholesale market today. For a while the price was 3 1/2c a pound, but today the quotation is still at 3 1/2c and there is a likelihood that the price will be advanced to supply the wants of the trade.

Other fish prices are firm at unchanged values.

## FRONT STREET QUOTATIONS

**Hops, Wool and Hides.**  
Hops—Choice 18c; prime, 15c; medium, 12c; 1909 choice, 24c; prime, 22c; 24c.
