SURGERY PROGRESS HAS BEEN SLIGHT

French Physician Pleas for Simple Surgery Based on Clear Ideas in Remarkable Address to Congress of Medical Men.

member of the Academy of Medicine, the doctor declared that he did not see

Dr. Richelot went on to attack the mania for surgical instruments, the "Infinitely varied forms which are supposed to answer all the needs of the operation, facilitate each of its movenents, adapt themselves to the slightest detall."

In terminating his speech, which was much applauded, the doctor put his confreres on their guard against the "unconscious enemies of surgery, whose vain researches disfigure it at pleas-

Post Is Excellent Motorist. The eminent poet, Edmond Rostand, has achieved quite a motoring feat. He left Cambo in the Pyrenees accompanied by his wife and two sons, and drove straight to Paris, with only two brief stoppages-one at Angouleme to take a cordial and another at Tours to get some breakfast. He arrived safe and sound at his hotel in the French capital with the proud consciousness of having covered 909 kilometers in about that he had met with no accident or misadventure of any sort on the road. than of pieces like "Cyrano de Bergerac," which have given him his fame.

Children of the Stage. The Theatre Femina has been having a series of amusing matinees in which children are the actors and actresses, and their parents and friends compose the audiences. The youngest actress the editor.

Salem. Or. Nov. 6.—Since June 30. that has been so busy during the past 1908, 167.16 miles of new railroad have been placed in operation in Oregon according to figures compiled by Secretary George O. Goodali of the state railroad commission. The figures are taken from the annual report of the taken from the annual report of the railroads doing business in this state. Aside from this state 688.25 additional molecular and in other parts of the United States he has prefty well outlined the position of the construction in this state 688.25 additional molecular and in other parts of the United States he has prefty well outlined the position of the service in all of the matters with Dr. Richelot went on to attack the our statistics, will be ready for publication at the beginning of next year, and finally two further volumes devoted to families, with special regard to the occupations of each member, and to the number of inhabitants occupying the same dwellings, will make their ap-pearance in due course. All this offi-cial literature, carefully collected by expert statisticians, should offer fine material for the study of France in its actual conditions.

Ministers to Mental Ills.

A new "philosophical and literary" paper called "L'Echo du Bonheur," professes to have made the greatest discovery of the century, namely, happiness. This paper is prepared to tell you, too, how to discover it. "Would you beautify your life? Would you be happy, in spite of adversity? Apply to the office of the editor, who gives consultations upon all the difficult problems of the battle of life." Elsewhere the editor says: "There are 5000 doctors for bodily ills in Paris, and 15,000 in that he had met with no accident or misadventure of any sort on the road.

M. Rostand has confessed that he is more value of his motoring achievements du Bonheur" will supply. It will, in than of pieces like "Cyrano de Ber fact minister to minds diseased, pluck from the memory rooted horrors, rage out the written troubles in the brain, and so on. What sweet oblivious anti-
