DEEP INTEREST IN MOVEMENT

Many Will Attend "City Beautiful" Meeting Tomorrow Afternoon.

While it was first expected that a committee of 100 business and professional men would be all necessary for carrying out the plan for the beautification of Portland, as suggested by a number of business men, so much interest is being manifested in the movement that it is probable the number will be increased.

Check That Cold

It is a great mistake to let a cough or cold run unchecked. Aside from the unpleasantness and discomfort there is a real danger in the resulting irritation of the throat, lungs and bronchial passages, which leaves them sore and very susceptible to pneumonia and consumption.

crowded Friday afternoon when the meeting is called to order, because of the enthusiasm of the public in the movement.

Dr. J. R. Wetherbee, president of the Commercial club, will probably be the first speaker, and will be called upon to explain the plan in detail. Briefly, the meeting is being held to provide plans for a system of boulevards and parks and the complete beautification of the city.

DAMAGES ASKED FROM GOVERNMENT

(Special Dispatch to The Journal.)
North Yakima, Wash., Nov. 11.—An action for damages, the first of the kind under the reclamation act in this section, has been filed with Edward E. Cleaver, clerk of the federal court and United States court commissioner. It is brought by Julius Anthon and wife, settlers under the Mabton siphon, which is a recent extension of the Sunnyside project. They claim damages of \$9655, on three distinct grounds: First, that the government failed to pay plaintiffs the amount stipulated in the condemnation proceedings; second, that the government failed to keep its contract to restore the land to its former condition; and third, that the loss of crops for the season because of the government's delinquencies amounts to \$500. As this is the first case under the Tucker act, its outcome is watched with much interest by settlers under government projects.

NEW PRESIDENT FOR KANSAS COLLEGE

Manhattan, Kan., Nov. 11.—With an all day program of exercises Professor Henry Jackson Waters was today formally inaugurated as president of the Kansas State Agricultural college. Governor W. R. Stubbs and Honorable W. E. Blackburn, president of the board of regents, were the presiding officers and among the other participants were representatives of the chief educational institutions of Kansas.

PRESENCE OF COAL MAY SETTLE TROUBLE

(Special Dispatch to The Journal.)
Marshfield, Or., Nov. 11.—Coal has been taken from the Eden ridge coal field lately for the purpose of making tests of it. The land includes some over which there is a dispute. Claimants have been holding it as coal lands and as there has been a decision against them they are taking out coal for the purpose of showing that the land is valuable for that purpose. Tests were made at the Marshfield water pumping

MARSHFIELD MAY GET A VINEGAR FACTORY

(Special Dispatch to The Journal.)
Marshfield, Or., Nov. 11.—Local men are perfecting a plan which will create a market for the poorest grade of apples raised in this county and which are now wasted because they are culled from the finer varieties before shipment. F. S. Dow, together with some other Coos county men and outside capital, will start a vinegar factory and apple drying establishment. They will use the culls and not only make a profitable article to put on the market but expect in so doing to give the apple growing industry of the locality a good boom.

Hunter Loses House and Money.

(Special Dispatch to The Journal.)
Marshfield, Or., Nov. 11.—Leaving his wet clothing before the stove to dry while he went hunting for a deer caused Jeff Ward, who is holding down a homestead on Catching creek to lose everything he had. When he returned from hunting his cabin had caught fire and burned down and all his clothing and household goods and about \$50 in money were burned up. He was forced to make a long trip in the wet to find a house for shelter.

Want Governor to See Them Play.

(Salem Bureau of The Journal.)
Salem, Or., Nov. 11.—Governor Benson and staff have received an invitation from the managers having charge of the game to be played Saturday at Portland between the football teams of the University of Oregon and Idaho, to be in attendance at the game. Complimentary tickets were issued to the governor. The governor has not yet decided whether he will be able to attend.

BREAKS A COLD IN A DAY

And Cures Any Cough That Is Curable. Noted Physician's Formula.
This prescription is one of the very best known to science. The ingredients can be gotten from any good druggist. Mix half pint of good whiskey with two ounces of glycerine and add one half ounce Concentrated Pine Compound. The bottle is to be well shaken each time and used in doses of a teaspoonful to a tablespoonful every four hours. The Concentrated Pine is a special pine product and comes only in half ounce bottles, each enclosed in an airtight case, but be sure it is labeled "Concentrated."

PARLIAMENT IN SESSION TODAY

Much Important Business to Be Transacted by Dominion Legislature.

Ottawa, Ont., Nov. 11.—The Dominion parliament was opened today with the usual ceremonial. The session promises to be one of the most important of recent years. The principal measure to be presented by the government will be a bill concerning the creation of a Canadian navy and the participation of Canada in imperial defense. The insurance bill left over from the last session will be another important measure for the house to dispose of, and it is not improbable that the government will ask parliament to make some radical changes in the rules of the house looking to the expediting of public business.

MILL EMPLOYE IS GIVEN \$5000 DAMAGES

(Special Dispatch to The Journal.)
St. Helens, Or., Nov. 11.—The case of Halver Mathson vs. H. O. Howard, which has occupied the circuit court here for the past five days, terminated today. Mathson sued Howard for \$7500, for an injury sustained last December in the defendant's sawmill back of Rainier. The jury returned a verdict in favor of Mathson for \$5000. The case was stubbornly fought. Mathson is a confirmed invalid and had to be carried into court on a stretcher. Seabrook & Malarkey were his attorneys. Dilard, Day & Allen defended Howard's interest.

HEAVY DEMAND FOR UPPER VALLEY LANDS

(Special Dispatch to The Journal.)
Hood River, Or., Nov. 11.—There has never been a time in the history of Hood River when the Upper valley lands have been in such great demand. It was thought a few years ago that the altitude was too high to grow apples, but since it has been demonstrated that apples, especially the Winter Ben-

ana and Johnthans, do well at an altitude of 4000 feet, the Upper valley lands there are only about 2000 feet, have been selling rapidly. W. H. Marshall of Dee has sold this week the Phillip Atwater place to Edward Culbertson of Washington, Pa., and a portion of the London & Powers tract to Mr. Greenberg of Rochester, Minn. Raw land is selling readily at \$125 per acre in this section of the Hood River country.

RAINS MAKE GOOD RANGE FOR SHEEP

(Special Dispatch to The Journal.)
North Yakima, Wash., Nov. 11.—The wool growers of the Yakima valley consider the rains which have fallen here in the last week a God send. It has brought on a fine stand of grass on the lower ranges, and there is now grazing in the Horse Heaven country. H. Stanley Coffin, one of the largest sheep men in the valley, has just returned from his winter quarters for his sheep at Kennewick, and reports that the grass on the ranges down there is two inches high and that from 10,000 to 12,000 sheep are now being grazed there. This number will be largely increased as the season advances.

SHERMAN TO RAISE ADVERTISING FUND

(Special Dispatch to The Journal.)
Wasco, Or., Nov. 11.—It was decided by the Sherman County Development league at a big meeting held here yesterday.

ECZEMA CURED IN SIMPLE WAY

No More Dosing the Stomach—Cure the Skin Through the Skin.
The best skin specialists today are agreed that the only way to cure the skin is through the skin. For statistics show that nearly all eczema sufferers are perfectly healthy in all other ways except as to their skin. And if the eczema patients were really suffering from internal malady, the entire body and not only the skin would be diseased.
You can prove immediately the relief of a true skin cure by using oil of wintergreen as compounded in D. D. D. Prescription. This liquid kills the disease germs, while toning up the healthy parts of the skin.
We have now handled this meritorious and thoroughly scientific remedy for so long and have seen its reliable results so many times that we freely express our appreciation. Williams Drug Co., 151 Third street.

New Lumber Camp Opens.

(Special Dispatch to The Journal.)
Hood River, Or., Nov. 11.—The six-mile extension of the Mount Hood railroad is nearing completion and trains are expected to be running by December 15. The railroad company is building the road. The Oregon Lumber company, at Dee, the present terminus of the road, has opened a large logging camp that will double the present facilities for securing logs for the mill, which is one of the largest on the coast.

CLAY IMAGE FOUND IN GERMANY WORLD'S OLDEST WORK OF ART

(United Press Leased Wire.)
Berlin, Nov. 11.—A clay figure of a goddess which experts pronounce to be about 4000 years old has been unearthed at Otitz, in Silesia, Prussia, by an excavating party under Johannes Richter. The figure was discovered in a house that was constructed during the stone age. Richter declares the statuette is the oldest art record of the human race thus far discovered.

Stomach Misery

Get Rid of that Sourness, Gas and Indigestion
