

FINCH DIES ON GALLOWS FOR MURDER OF RALPH FISHER

5000 WORKERS BLACKLIST SPOKANE

Federation in Coeur d'Alene District Bitterly Denounces Alleged Warfare Upon Free Speech and Free Press.

(Special Dispatch to The Journal.)
Spokane, Wash., Nov. 12.—Twenty thousand men are awaiting the call to come to the aid of the Industrial Workers of the World in their fight for free speech, declare leaders of that organization. It is said that 500 sympathizers are en route from Chicago to Spokane.

Masses of people are being instituted today in more than a score of cases where industrialists are charged with disorderly conduct in street speaking.

Attorneys Rogers and Moore, counsel for the imprisoned men, are taking their cases direct to the superior court, declaring they are unable to get justice before Municipal Judge Mann.

The first installment of Spokane's great cost in its warfare against free speech and free press is due. Her merchants must meet it. Spokane, with her every single profit making product of her manufacturers and merchants has been boycotted by the Western Federation of Miners of the entire Coeur d'Alene mining district, representing 5000 men, who heretofore consumed some of this city's merchandise. At the very least it means a loss of thousands of dollars to merchants here.

The resolutions bearing the seal of the Coeur d'Alene district of the Western Federation of Miners are as follows:

Resolutions Against Spokane.
"Burke, Idaho, Nov. 10.—Members Western Federation Miners and Workers of the World—Fellow Workers: The attempt to strangle the right of free speech and the right of assembly on the streets by the government of Spokane, Wash., and its beneficiaries is on to a finish. The rights of the workers of that city are our rights; their fight is our fight; their success or defeat is our success or defeat and deepest concern. Blood was spilled for the right of free speech and free assembly. It was written in the constitution of these United States by the blood of the working class, and by the same force and field, if necessary, it shall remain an inalienable right."

Boycott Every Product.
"Workers of North America, we call upon you to use the weapons now in your hands. Get out your hammers, knock the city of Spokane—the enemy of human kind. A government of, by and for those who have no toil nor boycott her every product, knock every nail."

PATHETIC APPEALS OF WIFE ARE OF NO AVAIL

Two vacant cells in Murderers' row, in the Oregon and Washington state penitentiaries, testify to the passing of "Hangman's Day." That three men did not die upon the gallows today was due to the clemency of Governor Benson, who last night commuted the death sentence of Harry Daley, charged with the killing of Harry Kenny of Portland, to life imprisonment.

At 12:30 this afternoon James A. Finch, former Portland attorney, went to his death in the prison at Salem, and there ended one of the most desperate fights to evade the gallows ever made in Oregon.

At 6:25 this morning, in the Walla Walla state prison, the trap was sprung under Bud Barnes, slayer of the aged Mrs. Aldrich, and within 13½ minutes he was pronounced dead.

James A. Finch, Who Was Hanged at Salem Today for the Murder of Ralph Fisher.

DIG SUM FOR PRODIGIOUS COLUMBIA

Colonel Marshall in Annual Report Outlines Work for Rivers and Harbors of Pacific Coast—Oregon Is in the Lead.

(United Press Leased Wire.)
Washington, Nov. 12.—Colonel W. L. Marshall, chief of the United States engineering department, in his annual report made public today, recommends that \$1,560,000 be appropriated for the improvement of the mouth of the Columbia river; that \$1,000,000 be appropriated for work on the Columbia river between the foot of the Dalles rapids and the head of Celilo falls and that \$315,000 be appropriated for the improvement of Oakland harbor.

Among other important recommendations for appropriations affecting the Pacific coast states are the following: For San Luis Obispo harbor, \$100,000; for the Columbia and lower Willamette below Portland, \$175,000; for Puget Sound and tributaries, \$120,000; for the Sacramento and Feather rivers, \$30,000; for the Columbia river and tributaries above Celilo falls to the mouth of the Snake river, \$90,000; for the lower portion of Gray's harbor, \$16,000; for the Willamette river above Portland and the Yamhill river, \$60,000; for the canal at the Columbia river, between Vancouver and the mouth of the Willamette, \$15,000; for a waterway to connect Puget sound with Lake Union and Lake Washington, \$300,000; for the Columbia river between Wenatchee and Bridgeport, \$25,000; for San Diego harbor, \$30,000; for Wilmington harbor, \$45,000; for the Mokelumne river, Metlakahts and Napa river, \$20,000; for Coos river \$30,000; for Tillamook bay and bar, \$10,000; for Snake river, \$55,000; for Willapa river and harbor, \$50,000; for the improvement of Pearl harbor, which, according to the announcement made yesterday, is to become the main naval base in the Pacific.

Also it is recommended that \$600,000 be expended in the improvement of Hilo harbor.

Alaska Appropriations.
The report asks for \$160,000 for the improvement of the St. Michael canal in Alaska. For Yellowstone Park \$150,000 is asked but no mention is made of Yosemite Park.

For the road to Mount Rainier an appropriation of \$125,000 is recommended. The report recommends that \$1,315,000 be expended on improvements for fortifications and sea coast batteries in the Philippines. The following appropriations are also asked for the Philippines: For searchlights, \$139,200; for repairs, \$14,000; for repairs to torpedo structures, \$1000; for supplies, \$5000.

Under the head of rivers and harbors, however, it is recommended that a million dollars be expended at once in the improvement of Pearl harbor, which, according to the announcement made yesterday, is to become the main naval base in the Pacific.

Also it is recommended that \$600,000 be expended in the improvement of Hilo harbor.

MISSING BANK ROBBER IS CAUGHT

William Pinkerton Says One of Five Thieves Arrested at Omaha Helped Rob East Side Bank in This City.

(United Press Leased Wire.)
Omaha, Neb., Nov. 12.—A motion for a new trial is being argued today by the attorneys for the five men who were convicted last night of holding up the Overland Limited last May. The convicted men are William Matthews, Fred Torgerson, Daniel Downer, Frank Grig-worse and Lawrence Golden. The men hail from Colorado, Washington, Idaho and Oregon.

If the motion is overruled the men will probably be sentenced late today. Each man is liable to a sentence of life imprisonment.

William Matthews, missing robber in the East Side bank robbery of a year ago, is at Omaha and faces a life sentence for train robbery. Last night he was convicted on six counts of an indictment charging him and four other men with robbing a United States mail car on the Union Pacific railroad at Omaha, May 27, last.

Chief William Pinkerton is in Portland on his regular tour of the posts of his agency. This is the story of the five men who were caught as told this morning to The Journal by the famous detective:

Mail Car Robbed.
"Six months ago a mail car on the Denver and Rio Grande just on the outskirts of Denver was rifled by masked men. They succeeded in getting away with their loot, consisting of \$30,000 taken from the registered mail sacks. Soon after a similar robbery occurred at Spokane, on the Union Pacific. Six months ago the Omaha robbery took place with apparently the same success that attended the others."

"It was not at first a case for the Pinkertons. It was a case for the government to handle, since the mail had been robbed. But the Omaha robbery caused the Union Pacific to offer a reward of \$5000 for the capture of each of the five masked robbers; this in addition to the recompense which they proposed to make for our services."

"When we took the case I arranged for General Superintendent Phillip K. Ahern to go from Seattle with a corps of operatives to the scene of the robbery."

Loot in Church.
"At the time I reminded them that robbers often leave their loot in a church, under the pulpit, under the pews, or up among the rafters. Our men went to Omaha."

"Small boys playing near a school saw a sack pulled on it. Out came a revolver. They told the teacher, the teacher notified the police. The police watched near the brushheap."

TROOPS HOLD CONTROL AT CAIRO

Several Companies Already in City—Entire Regiment of Guards to Be Assembled as Anti-Mob Measure—The Double Lynching.

(United Press Leased Wire.)
Cairo, Ill., Nov. 12.—Although the several companies of militia which arrived here early today have the city completely under control this afternoon, the entire Fourth regiment will arrive here later in the day and go into camp.

In the presence of 10,000 cheering men and women, a mob late last night hanged Will James, a white of murdering Anna Pelley, a white woman, riddled the body with 600 bullets and then dragged it along the streets for a mile and burned the remains.

Still filled with the lust for blood, the infuriated gathering closed in on the jail, battered its way through the steel bars, dragged out Henry Salzer, a white man accused of wife murder and hanged him.

Authorities Demand Troops.
In the meantime the authorities communicated with Governor Deneen and state troops were rushed to the city. All night long the mob surged through the city streets clamoring for more victims. Fearing a repetition of the scene at Springfield of two years ago when a mob ran amuck, shooting and hanging negroes, the blacks of the city stormed the various police stations pleading for protection.

Although the troops have partially restored order today, the negroes are still in a state of frenzy and are afraid to show themselves on the streets. Great difficulty was experienced by the 11 companies of state troops in dispersing the mobs, and more trouble is expected.

The lynching of James followed a sensational chase of many hours, in which a stolen freight train figured. When a mob formed Wednesday night with the avowed intention of lynching James, Sheriff Davis saved the negro's life temporarily by springing him out of the city.

Davis and his prisoner alighted from a train at Dongola with the sheriff hoping to get to Cairo before the mob.

SENDS NOTICE TO UNCLEAN DAIRIES

Special Inspector Hutchinson Calls Attention to Law Forbidding Sale of Milk Carrying More Than 400,000 Filth Germs.

"The law forbids the sale of unclean milk" is the distinctive sentence used by Milk Inspector Hutchinson in communications he is sending to dairymen who have failed to meet the pure milk test. The refusal to allow unclean milk to be disposed of in Portland considers neither the source of supply nor the purchaser, but merely the fact that if the product contains more than 400,000 filth germs to the cubic centimeter it is by law named unwholesome and unsalable. Consequently impure milk which goes to creameries in the city is barred in exactly the same way as milk which goes direct from the dairyman to the private family.

The announcement of the special milk inspector is expected to have a disconcerting effect on dairymen who have planned to evade the law by ingenious pretenses. The letter reads:

Copy of Letter.
"A sample of milk taken by me on 12/10/09, from the supply which you were about to serve consumers or dealers in Portland shows by test of Dr. Ralph C. Mattson, state and city bacteriologist, a count of — bacteria per cubic centimeter allowed as a maximum count by an ordinance of the city of Portland, regulating the sale of milk within its corporate limits. In the terms of this ordinance the milk which you are supplying consumers in Portland must be declared unwholesome and unsalable and the law forbids you to make further sales until you have satisfied the city board of health that you have made such correction in your methods of production as will insure milk of legal cleanness. Very sincerely,
EDGAR W. HUTCHINSON,
"Special Milk Inspector."

Dairymen Notified.
The following dairymen were addressed by the inspector as being among those whose milk is too unclean for use as food:

Kaufman & Toney, 2,000,000 bacteria per cubic centimeter, sample taken October 25; Dairy delivery, 1,000,000 bacteria per C. C., from sample of October 28; U. S. dairy, 1,000,000 bacteria per C. C., from sample of October 27; F. Cadanan, 1,400,000 bacteria per C. C., from sample of October 27; A. W. Schantz, 2,640,000 bacteria per C. C., from sample of October 28; G. A. Peterson, 800,000 bacteria per C. C., from sample of October 28; Slauteback, 1,200,000 bacteria per C. C., from sample of October 29; F. Hergen, 2,000,000 bacteria per C. C., from sample of October 30; Beighlinger, 800,000 bacteria per C. C., from sample of November 4; J. H. Charlton, 450,000 bacteria per C. C., from sample of November 4; C. W. Conzler, 500,000 bacteria per C. C., from sample of November 5; W. G. Lee, 1,000,000 bacteria per C. C., from sample of November 5; E. C. Gedemphs, 650,000 bacteria per C. C., from sample of November 5; Pete Gilliam, 500,000 bacteria per C. C., from sample of November 5; Bellinger, 800,000 bacteria per C. C., from sample of November 5; E. M. Dedrick, 600,000 bacteria per C. C., from sample of November 5; E. H. Olson, 1,000,000 bacteria per C. C., from sample of November 5.

Several of the dairymen found to be selling milk below standard operate in Washington. They are made subject to the same restrictions and regulations as those who have dairies in this state.

ENGINEER DOE SCALDED; DIES

Not Seriously Burned, and Death Probably Due to Heart Failure.

(United Press Leased Wire.)
San Francisco, Nov. 12.—The steamer St. Croix arrived in port early today, 12 hours late on her run from San Pedro. She was on her way to the body of Otto Doe, chief engineer of the vessel, who died presumably from heart failure, a few minutes after he had been painfully, but not seriously scalded by steam, Wednesday night.

The accident occurred while the steamer was near Santa Barbara. The engineer was looking for a lead in the whistle valve when the blast of the whistle blew out and filled the upper floors with a blinding cloud of superheated steam.

Suffering from the burn which he had received, Doe ran from the compartment, dashed past the first assistant engineer and was crushed by the funnel of his steamship when he fell in the deck case.

Doe was well known among shipping men. He had served as chief engineer on various coast vessels during the past 15 years. He was 42 years of age. His widow, who resides at San Pedro, has been notified of his death and is expected to leave San Francisco today.

PORTLAND WOMAN INJURED IN EAST

Mrs. Daniel Entler Falls Between Coaches of B. & O. Train.

(United Press Leased Wire.)
Washington, D. C., Nov. 12.—Mrs. Daniel Entler, a resident of East Davis and Twelfth street, North Portland, met with a serious accident at Shendoan Junction enroute from here to Piedmont to visit relatives.

Standing on the platform of a B. & O. train awaiting her son Paul to board the car she fell between the coaches. Her ankle was crushed badly. She was taken to Piedmont, W. Va., where she was cared for until removed last night to Deer Park, Md., where she is now attended in the home of her brother, William Hoye. Although the injury is serious the wound is being successfully treated. She was about to start home and intended to stop at several places on short visits. She has been absent several months.

MOB ATTACKS; MANY ARE DEAD

(United Press Leased Wire.)
Paris, Nov. 12.—A dispatch from Rome to the Fourteenth news agency, says many persons have been killed in an attempt by a mob to invade the Picquet council chamber. Three persons are among the dead. Stomachs and knives were used by the mob in the attack. The crowd entering the chamber were said to have been put to flight and the building fired. No cause for the attack is given in the dispatch.

BENSON FIRM BARNES LIVES IN REFUSING THIRTEEN 1-2 PARDON MINUTES

Salmon, Or., Nov. 12.—Finch left the cell at 12:34, left chapel at 12:35. At 12:38, he was dropped and at 12:32 pronounced dead, just 3½ minutes from the time the trap was dropped. This beats all Oregon records by 8 minutes.

(Special Dispatch to The Journal.)
Walla, Walla, Wash., Nov. 12.—Unconscious and showing but faint signs of weakening, Bud Barnes went to his death on the scaffold at the state penitentiary here this morning. At 6:25 the trap was sprung and 13½ minutes later Barnes was pronounced dead by the doctors. Barnes was confident to the last moment that a pardon would come from the governor, and even on his way to the scaffold he had not lost hope. He spent last night writing a letter and was given his last meal at 11:30, after which he refused to go to bed until he had had a smoke.

At daybreak a large crowd had assembled in front of the prison trying to gain admission, but none was allowed entrance save the newspaper men, physicians, clergymen and officers. The morning was chilly and cloudy. Barnes, accompanied by Father James, a Catholic priest, walked with a nervous step, and when going up the stairs to the scaffold, stumbled twice. On the trap he was eyed as he was bound, but needed no assistance to stand.

The officers went through the execution hurriedly, evidently fearing a breakdown. Barnes fell clear as the trap was sprung by five guards simultaneously, and his neck was broken by the fall.

History of Barnes' Crime.
It was on April 20 that Barnes committed Mrs. Anna Aldrich, a woman (Continued on Page Sixteen.)

IF RED WIDOW IS ACQUITTED

Government Will Investigate Murders of Which She Is Accused.

Paris, Nov. 12.—If Madame Steinheil is acquitted, as appears likely today, the government will immediately resume an investigation of the murders of the "red widows" and husband and assassin, Madame Japy. The government is convinced that there are grave secrets of national importance behind the garroting of Madame Steinheil and the authorities are anxious to get at the bottom of these.

On several instances when the prosecutors were pressing the woman closely she threatened to disclose secrets that would cause a sensation unless the prosecutors desisted. In every instance the threat had the desired effect and the prosecutor general started on another line of questioning.

LA FOLLETTE SAYS REFORM IS NOT DEAD IN TWO CITIES

(United Press Leased Wire.)
Madison, Wis., Nov. 12.—Under the caption "Defeated but Not Beaten" the current issue of La Follette's Weekly says: "In the defeat of Tom L. Johnson for mayor of Cleveland and Francis J. Heney for district attorney of San Francisco, we find nothing disheartening."

"The struggle to wrest the government in cities, states and nation from the clutches of special privilege has been marked by many setbacks. It is a long struggle, but the leaders of the people's cause must meet some defeat and this will simply make them fight all the harder. It also declares to leaders of the people who are not seeking personal gain and glory, that defeats are but incidents, and continue."

"To such men defeat means means surrender and so with Johnson and Heney. These men labored faithfully, unselfishly and well for the public good. They accomplished great things far greater than the tangible results that may be set down on the credit side of their ledger."

PHYSICIANS DISCUSS INFANT MORTALITY

(United Press Leased Wire.)
New Haven, Conn., Nov. 12.—Famous physicians from points throughout the country are in attendance today at the final session of the American Academy of Medicine. One of the main events of the day was a conference on the subject of the prevention of infant mortality.

The conference was held in the afternoon and was attended by about 100 physicians from all over the country. The subject of infant mortality was discussed in detail and the following resolutions were adopted:

Resolved, That the American Academy of Medicine hereby expresses its deep sympathy for the efforts of the various societies and individuals who are engaged in the work of the prevention of infant mortality.
