

LATEST NEWS OF WORLD'S MARKETS

TURKEY MARKET GOES ON TOP

WHEAT MARKET RANGE HIGHER

Highest Point in Years Is Reached When Bulk of Stock Goes Above 23c.

Just as predicted exclusively by The Journal, and just contrary to the reports given by others, the market was better today than ever before in history. Likewise turkeys sold at higher prices than ever before.

Best turkeys on the street sold at 25c a pound with an occasional lot moved at 26c. However, the latter price was an exception.

One of the remarkable features of the present turkey movement is the scarcity of real fancy birds. While there are many select turkeys in the market today, still the per cent. as compared with inferior stock is very small. The arrivals yesterday along Front street were up to the expectations of the trade, but were just about as had been forecasted in these reports from day to day.

So thoroughly were the bear forces routed in the turkey market that those who were doing all the talk of too liberal supplies, actually received more than two or three boxes of dressed stock. Had shippers not been informed of the true conditions by The Journal, it is likely that they would have sent hundreds of dollars, which would have gone into the pockets of these bears.

May Help Chicken Market.

Along with the small supplies of turkeys, came a surprise to the trade in the smallness of the showing of dressed chickens. As a rule these come in almost unlimited lots just previous to Thanksgiving. Unless the movement should increase within the next 24 hours it will cause an advance of moment in the chicken market.

Egg market shows a rather fair tone but the strength which was so apparent a week or 10 days ago, is missing. More local eggs are coming forward than then and the pressure of cold storage eastern stock has a demoralizing influence upon the trade in general.

PROVISIONS ARE HIGHER

Advance of 1/4c in Lard of All Grades and 1/2c in Compound Today.

Provision market is very firm locally because of the record breaking values recently reached in the livestock market. Today the principal affects the lard, all grades of which show a rise of 1/4c a pound. Compound is advanced 1/2c a pound due to the sharp advances in cotton seed oil and the upward fluctuations in lard.

WILD DUCKS COME SLOWLY

Only a Very Small Supply Offering—Limit Law Retards Movement.

Supplies of wild ducks entering the market today are considerably smaller than anyone had expected. Only a few shooters seem to be supplying the market, and as there is a limit on the number each person can kill, the amount offering is therefore under the requirements of the trade.

CRANBERRIES ARE WEAKER

Market for Local Berry as Low as \$5—Demand Showing Decrease.

Cranberry market is weak despite the higher prices offering on turkeys. Local berries are being offered as low as \$3 a barrel and movement is not heavy even at this figure. Because of their excellent condition eastern cranberries are not quoted under \$5 and are up to \$5.50. Sales slow all around, however.

STEELHEADS ARE HIGHER

Salmon Market Advanced Because of Small Supply—Storms Interfere.

Fish market shows an advance to 8c in steelhead salmon today because of the very small offerings. Silverides are now quoted firmer at 7 1/2c. Small fish of all kinds remain scarce.

Due to a razor cable accident in today and all fresh stock has been exhausted because of the storms.

HOP OUTLOOK MORE PROMISING

Indications of Better Demand During the Week—Englishmen Buying.

There promises to be an improvement in hop market trading during the present week. Already the tone of the market is firmer and some sales have been made at 25c a pound.

A small amount of buying has been credited to Carmichael for English account and Bird is likewise said to have taken on some lots.

LINSEED OIL IS BOOMING

Further Advance of 2c a Gallon Announced by Standard Oil Co.

Standard Oil company today announced an advance of 2c a gallon in the price of linseed oil. This advance in this line are causing alarm among the trade, while being the greatest price of linseed oil in the world in barrels is 73c, while boiled stands at 75c. Cases of both raw and boiled are 8c a gallon higher than these.

FRONT STREET QUOTATIONS

Hops, Wool and Hides.
