

WOULD DRIVE OUT BEGGARS

Associated Charities Propose to Rid City of Constant Needy.

Closer cooperation of the many charities was the most important question up for discussion at the annual meeting of the Associated Charities. With the view of furthering this end, President Strong will appoint a committee from the most prominent organizations to take up the matter and bring about that result, if possible. A committee will also be appointed to confer with the city authorities on the problem of ridding Portland of professional beggars. The remainder of the meeting was devoted to the giving of reports and the election of members to the board of directors.

The reports showed 34,575 registered cases since the organization of the society. During the year which ended last night, \$7734.44 was disbursed; 1811 cases, involving 3250 people came through the society; 224 families were definitely relieved; 333 persons were given 1049 meals; 616 pieces of clothing were distributed and medical aid was given in 113 cases. The report of Mrs. L. A. Wilson showed that she had made, at the lowest estimate, 859 visits to needy people. A visit sometimes requiring 10 minutes and sometimes a whole day.

Following are the officers of the Associated Charities: President, T. N. Strong; vice president, J. N. Fleischner; secretary, W. R. Walpole; treasurer, Charles E. Ladd; assistant secretary, Mrs. L. A. Wilson; registrar, Mrs. M. R. Trumbull, and the following directors: Dr. A. C. Smith, G. G. Gamman, Dr. Luther R. Dyott, Mrs. E. B. Colwell, Mrs. A. V. Biles and Dr. Edna D. Timms. Mrs. Biles and Dr. Dyott are the new members and Mr. Gamman and Dr. Smith were re-elected directors.

A Safe, Quick Way to Clean Silver

(Guaranteed by the Gold Dust Twins)
Instead of scouring and rubbing each piece of silver after each meal, put the silver in a separate tin by itself; cover with lukewarm water, to which a tablespoonful of Gold Dust washing powder has been added. Set the pan on the range until the water gets to boiling point; lift the silver out, wipe each piece with a soft linen cloth and polish with a chamois skin. Silver that is seldom used should be wrapped in Canton flannel.

he goes to Seattle where he has a long engagement. From the standpoint of interest, conversions and finances, the meetings have been the most remarkable held here. The total attendance is placed at 15,000. The largest gathering numbered 1800. The meetings were characteristic in that they marked the first attempt to unite the churches of Dayton in religious work. All of the Protestant churches of Dayton were united and the expense of the meetings were borne pro rata. It is believed the unification of the Dayton churches will be more solid hereafter.

TURKEYS SCARCE IN EASTERN WASHINGTON

(Special Dispatch to The Journal.)
Dayton, Wash., Nov. 24.—Turkeys are scarcer here this year than for many seasons, according to local poultry dealers. This will be a welcome news to the Portland and other coast dealers for Dayton has been counted on in past years to furnish thousands of pounds of the choice bird for the holiday trade. The scarcity is general throughout eastern Washington. Farmers are receiving 16 cents on foot and choice dressed turkeys are selling at local shops today for 23 and 25 cents. Said William Chandler, a leading dealer, today: "We find it impossible to secure even enough turkeys to supply local demand. No turkeys have yet been shipped from here to the coast and it is improbable that any will be shipped this season. We attribute the unusual scarcity to the cold weather of last spring, which killed hundreds of young turkeys in this county."

WILL FACE TWO SERIOUS CHARGES

Grand Jury Indicts Earl Higley and Several Others.

Earl Higley, 17-year-old highwayman and desperado, who is accused of robbing in Portland, Seattle, Anacortes, Wash., and other places, and who made a thrilling escape from the police in Los Angeles by spurring his horse over a hedge fence, has been twice indicted by the grand jury. He is accused in one indictment of being one of the men who bound and gagged Sophie Hamra in a home on Portland Heights on October 18, the affair being one of the boldest daylight robberies recorded in the criminal history of Portland. He is charged with burglary. In the other case he is accused of stealing clothing and other valuable articles to a total value of nearly \$100 from the home of O. L. Price on July 24. As Higley is only 17 years old, his attorney has stated that he would file a petition to have the youth dealt with in the juvenile court, but up to noon today he had not done so. In view of the record made by Higley it is doubtful if his case would be considered in that court in any event. Judge Bronough has power to transfer cases to the circuit court for trial when his judgment so directs. Another indictment returned is against Frank Watson, who was convicted of vagrancy in the municipal court and left town after his bail was fixed by Circuit Judge Gatens on appeal. The indictment charges him with larceny from the person, the complaining witness being Emery Buren, who lost \$400 in a fake pool room deal. E. R. Steen was indicted on the charge of assault and battery on Louisa Stoets on November 14, Antonio Cuvata for assault with a dangerous weapon on Giacinto Visconti on November 14, and E. A. McCarthy for passing a forged check for \$12.50 on W. M. Knight on June 8. A not true bill was returned in the case of Charles A. Burnes and May Burnes, accused of stealing \$92 from William Johnson. Like action was reported in the case of Mrs. Ira E. E. Crosby, charged with stealing a bedroom set from W. H. Maxwell.

GENREAL MILES' SON WEDS MISS PARKER

(United Press Special Wire.)
Washington, Nov. 24.—St. John's church was the scene of a notable wedding at noon today, when Miss Yulice Noble, daughter of Mrs. William Belden Noble and granddaughter of the late United States senator David Yule of Florida, became the bride of Lieutenant Sherman Miles, U. S. A., only son of Lieutenant General Nelson A. Miles. The church was crowded with prominent representatives of the official and social life of the national capital, together with guests from New York, Chicago and other points. The bride's attendants were Miss Elizabeth Parker, daughter of Congressman and Mrs. Richard Wayne Parker of New Jersey; Miss Joanna Schroeder, Miss Evelyn Chew and Miss Thyrena Read of New York. The bridegroom had Colgate Hoyt of New York as his best man. The ushers were Lieutenant Philip Matthews of Fort Monroe, Lieutenant Harold W. Funtley of Fort Myer, Percy Weeks and Sherman Hoyt of New York, Chauncey Haskell and William Emery Jr. of Washington.

of six bulls by matadors, but not before 15 or 16 horses had been gored to death. Joining the steamer at Salinas Cruz the two Seattleites landed at San Jose and took the train to Guatemala. They had not been in their hotel five minutes before a squad of detectives arrived and took them in charge. It was with great difficulty they escaped the indignity of being sent to jail, the labels on their baggage being the only thing that prevented the officers of the law from locking them up. Returning to San Jose they awaited the return of the steamer from Corinto.

Make Money on British Columbia Surveyed Land

DOLLARS WILL QUICKLY GROW TO HUNDREDS

"The Farmers' Paradise"; the Investors' Golden Chance

LAND MAY BE SECURED NOW AT THE AMAZINGLY LOW PRICES OF \$3.85 AND \$5.50 AN ACRE, IN RICH VALLEYS, ON THE GRAND TRUNK RAILROAD LINE, NOW BEING BUILT. WITHIN A FEW MONTHS THERE WILL BE NO LAND AVAILABLE AT ANYTHING LIKE THE PRESENT PRICES.

The Portland Oregonian says: "The exodus of American farmers to Canada continues to be a phenomenon of the first importance. More of them are crossing the border this year than ever before, and they are flocking thither from all parts of the country." Here the Oregonian discusses the effect upon the United States of losing so many good citizens, and continues: "Why do they go? Naturally, the cheap and fertile land of western Canada attracts them. Each emigrant goes with a reasonable expectation of bettering his fortune. Indeed, in a few years he may grow rich through the abundant crops he can raise and the increase in land values. But perhaps that is not the sole

reason for the astonishing migration. There is a common notion abroad that in Canada life and property are appreciably safer than they are here. Murders are not so frequent, and more speedily and surely punished. Mobs and the 'unwritten law' are virtually unknown in Canada. Again, the law is a vastly more ascertainable entity there. Canada does not permit its judges to veto acts of the legislative body. When a statute has been enacted, it is known to be the law of the land until it has been repealed. This naturally imparts to Canadian civilization a stability and security which we have not yet attained. We must remember, in the same connection, that the Canadian pro-

ective tariff is far less exorbitant than ours, and much less boldly arranged for the benefit of special favorites." From this you may see that Canada, particularly western Canada, is an ideal place to live in. In fact, the only reason in the world why the land which we offer you today at \$3.85 and \$5.50 an acre is not selling for hundreds of dollars is that it has heretofore been inaccessible by rail transportation. Of course, the trains are not running to it yet. But they will be within a few months now, and when they do you may look out for rises in land values more astonishing than you have ever seen before. People who are fortunate and who have the business energy to get in now will reap the advantage of these rises in values.

This Country Is for Strong, Shrewd Business People

This announcement is not written for dreamers. It is for people who have the business judgment to see an opportunity when it presents itself, and the energy to take advantage of it when they see it. To read and consider this, and then not act upon it, is for that large class who are always able to look back at the time "when they could have bought that property for a song; but look at it today." There are lots of people who have missed such chances. The rich ones today are the ones who took advantage of these chances.

to become interested there, too. We will give you the benefit of our experience there, and you may have our advice in any matter regarding the great new country.

Call at our offices. Talk with Mr. Moon, the vice-president of this association, about western Canada. He will give you any information you may want, and he will show official reports and field notes by government experts and surveyors, who have examined every quarter section of land we advise you to take up. These reports show in detail the exact character of the land, the location of the section, the timber growth (if any upon the land), the creeks, springs or streams upon it, what the land is adapted for, and every matter regarding which a prospective investor might be interested. It does not cost you anything to see the documents and maps describing this land. See us at once.

This chance is as good for investors as it is for settlers. You do not have to be a citizen or even a resident of Canada to acquire fully guaranteed government title to land at this time. The liberal laws for the development of Canada are made because it is well known that, once a person has invested in land there, that person becomes a "booster" for the country, even though he may live in "the states."
