

THE HUMAN BODY IS AN ELECTRIC BATTERY

Startling new discoveries prove beyond all doubt that "Electricity Is Life."

Men of science demonstrate the value of electricity as a cure for disease.

Seattle doctor tells about his remarkable invention.

"The word health now means a normal supply of electricity in the body and the word disease means an insufficiency of that power."—Prof. Edgar L. Larkin.

That the human body is electrical is no longer a theory among scientists and up to date physicians. It is generally conceded to be an absolute fact.

Professor Edgar L. Larkin discussing the new physiology writes as follows:

"A man, brain and body, is a battery, and nerves correspond to wires. It is now certain that transmission of sensation over them is electric. Nerves have been cut and a galvanometer inserted. The needle moved, proving that nerve power is electric. The human system is an electro-chemical battery and the life principle is electrical. The electric age is here. Drugs are hard hit on all sides, and an intelligent physician tells me that he has almost entirely stopped their use. The word health now means a normal supply of electricity in the body, and the word disease means an insufficiency of that power."

Dr. Albert J. Atkins, the eminent California scientist, is still at work proving that every principle in what we call our electrical science is merely borrowed from the human body. We propel railroad trains and automobiles by means of electricity and think it wonderful, but the human dynamo has always known how to propel itself and with skill and almost absolute safety in either walking or running, and now Dr. Atkins shows us that the millionaire in his automobile and the hobo on foot are alike carried forward by electric force.

"With a man's stomach as the only electric battery Drs. Albert J. Atkins and E. J. Lewis recently charged an ordinary telephone apparatus so that it conveyed sound," says the San Francisco "Examiner."

"The experiment was made in the presence of a number of medical men and scientists of national repute."

"It demonstrates that the human body is an electric battery."

"The experiment consisted in the swallowing of two platinum electrodes so that they touched the walls of the living stomach."

"By means of copper wires the electrodes were connected with a telephone and a microphone, a sensitive instrument which greatly intensifies sound."

"There was absolutely no mechanical or chemical battery in the circuit, yet the moment the electrodes were swallowed sufficiently to touch the walls of the stomach human electricity flowed over the wires, rendering audible sounds. The electric charge measured from 7 to 8 volts on a Weston galvanometer."

Finds New Cure for Appendicitis

Dr. Harvey Archibald of New York City has discovered that appendicitis yields to the action of electricity pretty nearly as mists are dissipated by the sun. When a case of appendicitis comes into Dr. Archibald's office the physician trains the powerfully penetrating electric ray upon the sore spot. Right away the swelling goes down, and the excruciating pain stops short. And after five or six days, "after five or six applications," Dr. Archibald says, the cure is always complete.

Electricity the Basis of Human Vitality

Prof. Jacques Loeb, after ten years of research and experiment, made this statement: "A part of the chemical energy of foodstuffs is transformed into electrical energy, which in turn gives energy to the muscles and organs of the body. Electricity, and not heat, is the life of the body. These discoveries are going to upset the theories of medicine as administered by the physicians of today, as it is settled that electricity is the basis of human vitality."

Electricity will restore the elasticity and buoyancy of youth," declares a famous New York physician, writing in the "Medical Times."

"No matter how old a man may be nor how young in years, whenever his arteries begin to harden, to resist the increased pressure of the blood, then he actually is old. Then the electric treatment must be applied, and after a few times nature takes up the work and carries it on, and the patient gets young again—or at least he is able to resist the encroachments of old age."

Keeps Old Age At Bay

"Electricity will restore the elasticity and buoyancy of youth," declares a famous New York physician, writing in the "Medical Times."

"No matter how old a man may be nor how young in years, whenever his arteries begin to harden, to resist the increased pressure of the blood, then he actually is old. Then the electric treatment must be applied, and after a few times nature takes up the work and carries it on, and the patient gets young again—or at least he is able to resist the encroachments of old age."

"By electric stimulus the system is energized, the blood made to circulate equally, the digestion aided, the waste products eliminated, the repair tissues are assisted, and the normal workings of the bodily functions restored."

Says Electricity Will Supersede Drugs

There is a physician in Seattle whose success in curing disease by the application of electricity has attracted world-wide attention. This physician is Dr. Samuel Hall.

Dr. Hall is the inventor of a remarkable device for restoring electric energy to the body. With his appliance it is possible to infuse a steady, unbroken current of galvanic electricity into the nerves and vitals for hours at a time without the least shock or burn. Dr. Hall was asked recently to explain his method of electric treatment for the benefit of the readers of this paper. He makes the following statements:

"For the past 22 years I have maintained that electricity is the power which runs the human body—the force that keeps the heart going, the blood circulating and the various organs performing their functions like so many machines. I claim that electricity works the miracle of digestion and assimilation and converts the food into the blood and bone, tissue and muscle, and supplies the brain with power to think."

"I have had my theories confirmed by the world's most learned scientists, and today the use of electricity as a curative agent is spreading to every corner of the civilized world."

"While others were speculating and arguing over the merits of electric treatment I have gone ahead

achieving results, and I can point with pride to thousands of cured patients who regained their health and strength through the use of my Electro-Vigor."

"Before I talk further regarding the use of my appliance you must understand that the human body is an electric organ, deriving its motive power from the digestion of food in the stomach. This electric force generated in the stomach is taken up by the nerves and conveyed to the different organs of the body and is their life. So long as there is sufficient electric energy to satisfy the demands of nature the vital organs perform their regular functions properly, but just as soon as the natural electric force is overtaken in any way the organs become weak and inactive, and sickness or disease is the result. Now you can't cure the trouble until you restore the lost force. Nature must have more electricity, or vitality, as it is termed by medical men, in the ailing part. You cannot renew this force by dosing the stomach with poisonous drugs, which only help to drain away the vitality that you have. When every organ of the body has all the motive power—electricity—it needs, disease cannot exist."

"Now the purpose of my invention, Electro-Vigor, is to restore this electric force in a natural, scientific way. When the stomach is unable to supply the demands of the vital organs you must assist nature by filling your nerves with galvanic electricity."

"Electro-Vigor is a generator of a powerful but soothing current of electricity, worn about the body while you sleep. It sends a subtle stream of electric life coursing through the nerves and vitals for hours at a time. Its touch is gentle, without sting or burn. There is no shock. All you feel is a glowing warmth."

"Electro-Vigor fills the nerve cells with new life. It drives out pains and aches, builds up vitality and strength and cures to stay cured all such troubles as lumbago, sciatica, nervousness, rheumatism, insomnia, female complaints, varicose and all stomach, kidney, liver or bowel disorders."

The Product of Experience

"I have devoted twenty years to the perfection of my appliance. I have removed defects as fast as they appeared in actual use and have applied new features from time to time, so that Electro-Vigor is in a class by itself."

"Electro-Vigor makes its own power; therefore it requires no charging. It is equipped with special dry cells, which are longer lived, smaller and more powerful than any other dry battery. The current can be regulated to any degree of strength by the pressure of a finger upon the rheostat."

"Compared with Electro-Vigor all other electric body appliances are inventions of the blacksmith's hammer."

"It is not upon that point, however, that my success has been founded. My immense business is due to my knowledge of the effect of electricity upon the ailments treated, and the best way to obtain that effect. I treat every case that comes to me as an individual and direct the application of my appliance to suit the demands of each particular case. When you consider that electricity, which I supply, is life to the organs into which I send it, you can see how I get my results. My success is the result of my cures. If I did not cure, my business would have died out long ago."

"When I say that Electro-Vigor cures I don't ask you to accept my word alone as evidence. I have one or more cured patients in nearly every town on the map. I'll send you the names of those near you, and you can ask them about my treatment."

Mr. Frank Bernier, of Pilot Rock, Oregon, says: "I am well pleased with the results I have derived from its use in so short a time. My health has improved wonderfully and Electro-Vigor has removed every element of weakness and pain from my back and stomach. After eating I used to feel very drowsy and sleepy, but this trouble has been overcome. I sleep well at night and feel refreshed upon arising and have no more tired feeling as if life wasn't worth living. I feel much stronger, in fact, I am much better in every way and I am very thankful that you were so persistent in your effort to convince me that this treatment was the right one for me to use."

"I am convinced that it will help others in the same way that it has helped me."

Mr. Cyrus Henderson, of Route No. 1, Box 12, Molalla, Or., writes: "It is thirty days today since I began using Electro-Vigor, and although I have not given it proper attention it has brought me wonderful results. I sleep better, eat better, my food digests better, and your Electro-Vigor has cured me of constipation. There is not a symptom of my old trouble, but yielded to the effect of the current, and I have gained three pounds in thirty days."

"I am a country and many talk of securing it soon. I would not take its weight in gold if I could not get another, and you are at liberty to use my name and give my address to anyone who can call on me or write, and I will gladly give my time in telling what it has done for me."

Mr. Elton Johnson, of 193 Harrison avenue, Astoria, Oregon, writes: "I am getting along very nicely after using your treatment. There is no doubt about Electro-Vigor curing any ailment. I have no more pains and my appetite is good. I have good satisfaction for all traces of Rheumatism in my legs and hips have entirely disappeared, and I feel different altogether. Assuredly, you are my willingness to recommend your treatment at all times."

Mr. Adolph Nelson, of Tillamook, Oregon, writes: "I will write and let you know that I have used your Electro-Vigor seven weeks and it is certainly a wonderful appliance. I have no more pains and my appetite is better. My catarrh is gradually yielding to the influence of Electro-Vigor. I will always recommend your appliance to anyone who may apply to me, for I have found that it is an honest remedy."

Health Without Drugging

Dr. A. Aronson, a well-known servant of the Physiological Institute of Paris, in a paper read at the Institute said that electricity would be the medicine of the future. He showed that it is essential for the maintenance of health and described the difference between sudden shocks and the slow method by which it pervades the system without the patient's consciousness.

"I know that many people are skeptical about testimonials; and perhaps they have a reason to be. Quacks and medical fakery have fooled the public so often with bogus letters of praise that it is hard to believe any. I guarantee that all testimonials I publish are genuine and will pay \$1000 for proof that any of them were bought."

The Danger in Drugs

"Many people believe that when a drug gives relief it is doing good. That's a big mistake. Drugs can only give temporary relief, and it is always at the expense of the nerves and vital organs."

"If you have a pain or an ailment of any kind, you don't want to fool yourself into the belief that you are getting well when you are not. Do when you dose yourself with drugs."

"It is easy enough to stop a pain by stupefying the nerves with poisonous dope, but the pain will return as soon as the stupor passes off. You can force an organ to act by giving it a powerful stimulant, but you can't restore its natural strength that way, and it will be weaker than ever when the drug stops working."

"That is why temporary relief is dangerous. Drugs do not remove the cause of disease, and every minute that they give relief the disease is getting a firmer hold upon your system. As long as the cause remains the trouble stays there, and the only way to get rid of it is to assist nature. Nature wants strength, vitality, power to fight disease and drive it out, not poisons which only make it worse."

"Electricity is nature's medicine, and the proper use of it will restore you to perfect health."

"Disease always results when you break nature's laws. If you continually overwork the stomach you will have stomach trouble. If you abuse any organ of your body you must suffer for it afterward. Then the real cause of disease is due to the inactivity of some part of the body machinery. The reason any organ breaks down or fails to work properly is because it has not enough vitality to withstand the

strain when it is overtaxed. This vitality is nothing more than electricity, the motive power of the human body. Now, to cure the disease you must renew the vitality or electricity of the part that causes the trouble. When this is done the disease cannot exist, for the cause is removed."

Electricity for Weak Nerves

"A great many people suffer from ailments caused by weak, impoverished nerves, and try to cure these troubles by dosing their stomachs with drugs. It is impossible. Drugs are poisons, and poisons wreck the nerves."

"If you are run down, nervous and unambitious; if you suffer frequent headaches and have spells of despondency, it means that your nerves are starving for new energy, electricity. That's all they need, and nothing else will restore them."

"Electro-Vigor saturates the nerves and vitals with electric life while you sleep. It builds up strength and vitality in every organ and drives out pains and aches."

"If there was any nourishment in drugs, they might do some good, but you know there is not. Drugs are drugs, stimulants, narcotics, antidotes, poisons, not food. Electricity is nerve food—nerve life. It soaks into the nerves and is taken up by them just as a sponge absorbs water. It nourishes and vitalizes the parts which drugs cannot reach."

"Every dose of drugs that you put into your stomach weakens your nerves. Every time you kill a pain or an ache, by stupefying the nerves with poisonous drugs, you are hurting them, and anyone can see that in time, by steady dosing, your nervous system will be completely broken down."

Mr. F. W. Jolley, of Box 782, La Grande, Or., writes: "As I have been using your Electro-Vigor for about five weeks, I can say with perfect candor that it has done more good for me than all the medicine I have ever taken in my life. Because of this, I feel it my duty to recommend it to others—for I consider it one of the surest cures for disease ever introduced. Surely it is the most wonderful cure of the present day and age."

"You know that rheumatism is caused by uric acid in the blood. There's only one thing on earth that can get at this uric acid and drive it out of your system—that's electricity. It soaks into every vein and tissue of the body and drives the poisonous matter through the circulation, back to the kidneys, which filter the blood of all impurities."

"My Electro-Vigor has cured some of the worst cases of rheumatism after drugs and other methods had failed. When electricity goes in the body rheumatism must go out."

"No pain can exist in a body charged with electric life. You can have no rheumatism, no inactive parts, because the life generated by this grand force gives health and strength to every organ."

PROF. E. L. LARKIN

Human Electricity.

Telephoning With Power Furnished by the Human Stomach.

Restoring the Buoyancy of Youth by Electric Treatment.

Men Made Young at Sixty

"There is no excuse for men being old at sixty, complaining about pains in the back, stiffness in the shoulders, and legs, that 'tired feeling,' nervousness, indigestion and constipation. It should not be. Nature started you with a constitution that ought to have held you good until you are eighty, and you ought to feel like a boy now. But you have overdone some things and wasted your vitality. You still have the constitution, but lack the force. That is electricity, and Electro-Vigor will restore it."

Mr. George W. Cox, of Roseburg, Oregon, writes: "I want to tell you that I am perfectly satisfied with your Electro-Vigor treatment. I have now used it just thirty days and I have been relieved of all the pains and aches which troubled me greatly. I am gaining strength and feel better in every respect. In view of the fact that I am seventy-three years of age, I consider that this improvement realized in such a short time is something remarkable."

"Look at the men who have used Electro-Vigor and you will see men of force, men of power and confidence, men who respect themselves and are respected and admired by their fellow men."

"Wouldn't you like to be the man you were a few years ago; to have the same ambitious spirit, the strength and vitality that you used to possess? Wouldn't you like to be free from pains and aches, and to feel that you are the equal in strength of any man your age? You can be."

"All that you lack is vitality—new life. You are like an engine without steam—you haven't the motive power to keep the machinery of your body working properly. Anything that will restore your 'steam' will make a new man of you. Drugs have been tried and have failed. You know that; but Electro-Vigor cannot fail; it is electricity, and 'electricity is life.' That is what you require, and a few weeks' use of Electro-Vigor will give you health and happiness."

Women Saved From Dangerous Operations

"A large percentage of women's ailments are so perplexing that operations are often recommended by physicians. Such operations are not only dangerous, but they sometimes cause serious complications. Thousands of women are uselessly butchered who could be cured by my electric treatment in the privacy of their own homes."

"I find, in most cases, that all such women need is new strength, more vitality and nerve force. When the organs of the body are denied the vitality necessary to perform their proper functions, inactivity and disease result."

"Electro-Vigor renews the activity of the organs and builds up vitality and strength where it is needed by infusing the body with a glowing current of electric life."

"A patient asked me the other day why it is that faradic batteries and static machines do not give such results as Electro-Vigor."

"That's because you can't stand the treatment for more than a few minutes at a time. A nervous person can't endure it that long on account of the shock. When a man tries that method and finds that it does not help him he naturally concludes that electricity is no good."

"Now, my system is different. Electro-Vigor pumps the current into the body for six or eight

hours every day or night, usually while the patient sleeps."

"The delicate nerves are not jarred or shocked by this current, as it goes in them just like a drizzling rain saturates a newly ploughed field. They absorb it, drink it in, and as it is their life, they grow strong with it."

"Poor digestion, inactive liver, constipation, sluggish heart, slow thinking, dormant energy and laziness are all due to lack of electricity. Understand that electricity is the motive power of the human machine, the power that keeps the organs active, and you will see what I mean. In such cases you will see how Electro-Vigor will pump action into the body. It renews the electric life and transfers the sluggish into a bundle of vigorous energy."

"Because you have experienced with faradic batteries or taken electric treatment from physicians without being cured is no reason why my method should prove a failure. The doctor's battery can only be applied for half an hour at a time, and that is not enough to effect a cure. Besides, that method is inconvenient and expensive. Electro-Vigor can be used all day or all night without interfering with your work or rest."

Mrs. H. C. Stanton, of Roseburg, Or., writes: "I have never regretted the price I paid for Electro-Vigor, for it has completely and permanently cured me of stomach trouble, and I am thankful indeed for this relief."

Mrs. D. O. Fisher, of Portland, Or., 447 E. Davis St., writes: "Four Electro-Vigor has done me a world of good. I feel like another woman. My nervous condition I consider entirely cured. I started using your appliance full strength and got a little too much current, which created a feeling of lassitude, but this has been overcome by a more careful adjustment of the appliance according to your directions. I find that my circulation has been greatly improved also."

Mrs. C. E. Gaylord, of Halfway, Oregon, writes: "My principal ailments when I began using Electro-Vigor were Sciatic Rheumatism, stomach trouble, and a terrible soreness and pain deep in the body just below the shoulder blades. After using Electro-Vigor for thirty days, my rheumatism has entirely disappeared. My stomach trouble is much better and the bloated condition in my whole body is entirely overcome."

Mrs. H. W. Schenck, of Junction City, Oregon, writes: "It is now three months since I began using Electro-Vigor and I would not take the price of it under any consideration, and be back into my former condition. Your appliance is gradually curing me of a condition which I never hoped to be relieved of."

Mrs. H. W. Schenck, of Junction City, Oregon, writes: "It is now three months since I began using Electro-Vigor and I would not take the price of it under any consideration, and be back into my former condition. Your appliance is gradually curing me of a condition which I never hoped to be relieved of."

Mrs. H. W. Schenck, of Junction City, Oregon, writes: "It is now three months since I began using Electro-Vigor and I would not take the price of it under any consideration, and be back into my former condition. Your appliance is gradually curing me of a condition which I never hoped to be relieved of."

Prejudice Against Advertised Treatments

"There is a whole lot of prejudice against advertised remedies, due no doubt to the large number of quacks and schemes that have foisted worthless treatments on the public during the past few years."

"If it were not for this prejudice, I would not be able to handle all the business that would come to me. The many fake electric belts and so-called 'vitalizers' advertised by charlatans have made every one skeptical, but I know that I have a good thing, and I'll hammer away until everybody knows it."

"Any organ of the body, any part that lacks the necessary vitality to do its work as nature intended, can be restored by my method."

"It gives strength; it makes the blood rich and warm; it vitalizes the nerves and puts vim into the brain and muscles; it just makes a good man out of a bad one in every way."

"With Electro-Vigor I cure rheumatism in its worst forms; I cure pains and aches, weak nerves, general debility and any other trouble which can be cured by restoring the life force."

"No matter where you live, I can treat you as successfully as if you were here in my office."

Book Worth \$1.00 Free

To any man or woman who will mail me this coupon I will send, free (closely sealed), my finely illustrated book regarding the cause and cure of diseases. This book is written in plain language and explains many secrets you should know."

Don't spend another cent on doctors and their worthless medicines."

Electro-Vigor cures to stay cured. You should know about it."
