LATEST NEWS OF WORLD'S MARKETS

SUGAR 10 TO 20 CENTS HIGHER

Dry Granulated Put on the Same Basis as Berry and Fruit Grades Today.

There was an advance of 10c to 20c per 100 pounds in the price of sugar this morning, the change taking effect at once. Both refineries are quoting the same figures.

The advance in regular grades of sugar amounted to 10c, while ordinary cane granulated was advanced 20c. This puts the jatter on exactly the same standing as fruit and berry. This is the first time that such has been the case for a long time.

While the advance in sugar had been expected in some quarters for a long time, just why such a movement was made at this time is a mystery to the trade. However, there is no denying the strength of the market because under normal conditions the price of ordinary granulated would not have been placed on a par with the finer grinding.

Bagar War Thing of Past?

Bugar War Thing of Past? In today's taking off of the differ-ential between coarse and fine sugar he trade has come to the conclusion the trade has come to the conclusion that the various refiners are working hand in hand. There has been no such change in prices, except during times of scarcity, since the advent of the California & Hawalian Sugar Refining company into the coast field.

In some quarters it is even rumored that the California & Hawalian company has been practically put under the wing of the American Sugar Refining company, the sugar trust, and in control of the Western Sugar Refining company.

company.
Should this be so it would prove a serious blow to the trade, as competition would be completely shut off. However, so far as competitive prices are cancerned, it has been a long time since such ruled in this territory. An advance or decline by one refinery is always followed by a similar movement by the other.

Today's jobbing price on fruit or berry is \$5.95, while ordinary dry granulated has been moved from \$5.75 to the same figure.

Packers Holding Cattle High.

In order to encourage shippers to send in good cattle killers are not pressing the cattle market as they would under normal conditions. At this time practically every killer is filed up with supplies, and this therefore justifies a slightly lower price in that line. No change has been made in values as yet, for the reason mentioned. There were no receipts of cattle or caives in the Stockdale yards during the past 24 hours. If this condition is continued long enough to allow the surplus to be cleaned up it would undoubtedly relieve the situation considerably and probably bring about a higher price range in the future.

Sheep Market Is Firm. Case Same as Others.

A cut of 10c per case in the price of Pioneer canned milk, 5c size, is an anounced by the Borden company through local jobbers. The former price at \$3.10 a case was too high considering the fact that the milk was to sell for a nickle at retail. Result was that other for milk sold.

Oregon City, Dec. 11.-A peculiar set of articles of incorporation were filed with the county clerk yesterday. The Evangelical Lutheran Zion's congregation of Macksburg resolved to incorporate into a church and filed their arti-cles, which are in reality the articles of their faith, their practices and their doctrine and laws.

In the manuscript the different books to be used in the church are enumerated, and the congregation is to believe in no others.
