

KILLED AS FLYING AUTO TAKES TURN

Agnes Claypool, Daughter of Indianapolis Capitalist, Dead at Pasadena.

(United Press Leased Wire.) Pasadena, Cal., Dec. 15.—Harvey Bissell, son of a millionaire manufacturer of Detroit, Mich., let a six cylinder automobile get beyond his control on the Eagle Rock grade yesterday and it plunged over a 100 feet embankment, resulting in the death of Miss Agnes Claypool, daughter of Newton Claypool, a wealthy Indianapolis capitalist, and Bissell's serious injury. Bissell will recover, according to his physicians. An examination was made by the doctors in the Pasadena hospital and it was ascertained that Bissell was not internally injured as was supposed. He was his spine hurt in any way. Bissell will be confined in bed for several weeks, however, with a broken leg and a fractured collar bone. In the hospital today Bissell told the story of the wreck. He said: "We had topped the rise going from Pasadena to Eagle Rock. I was coasting down the grade, using the air pressure of my engines to brake the car. Something must have broken in the transmission, for my feet shot forward off the brakes and the next instant we had started. I told Miss Claypool to jump, and ran to the side of the road so she would not strike a hard place. She said, 'No, I will stay with you.' We were going fully 70 miles an hour when I struck the turn. "When I recovered consciousness I saw her lying on the ground some distance from me. I crawled over and put her head in my lap and wiped the blood from her mouth. Then I called for help. I didn't know she was dead. "At the time I did not know my leg was broken below the knee. I found that out when I tried to rise. Then I tried to lift her body a little higher and found that my collar bone was broken also. "It was fully three hours before Claypool knew that his daughter had been killed. He heard a rumor that she had been injured in an automobile accident and called up the local hospitals. Later Bissell was brought to the city in a taxicab and the news of the tragedy was given to her father. Claypool is a millionaire and the owner of the famous Claypool hotel at Indianapolis. Miss Claypool was 22 years old. She arrived here with her father and sister a week ago, for the winter. Bissell is the son of the late owner of the Bissell Manufacturing company at Grand Rapids. He has been staying at the Hotel Maryland. Last year he was a student at Stanford university.

CRACK AMATEURS WAR ON STEEL TRUST DECLARED

Tommy Tracey Has Assembled Clever Youngsters for Monday's Smoker.

The next fight moral to be handed out on a silver spoon to the lovers of the amateur boxing game is the Tracey Athletic club open smoker at the Exposition building next Monday night. All the amateurs in Tommy's club are anxious to go on the program and the instructor is having a hard time assigning men to the different weights. There are three men in the club that followers of it look on as invincible in the medal field, and they are Bud Anderson, the crack lightweight, Guy Lee, the welterweight, and Ace Clemens, the middleweight. Against these boys Tracey will match Dan O'Brien, the 150 pound champion of the Catholic club, who was a former pupil of Tracey; Swanson of the Catholic club, a clever 145 pound man, and Nissen of the Polina Athletic club, a clever mit welder who shows much promise in the padded glove line. If this trio appears in the ring against the Tracey pupils, the fans can expect some of the cleverest amateur boxing seen in Portland in recent years. All the boys are anxious to wear titles and the amateur can be expected to put up some rattling good bouts during the evening. A couple of good preliminaries will be staged before the three main events are put on.

WAR ON STEEL TRUST DECLARED

Labor Leaders Deliberate on Question and Resolve to Fight to Finish.

(Special Dispatch to The Journal.) Pittsburgh, Dec. 15.—The announced intention of the United States steel corporation to force the "open shop" in all its plants, has brought a declaration of war from the labor organizations of the country, which promises one of the most bitter struggles in the history of labor troubles. Leaders of organized labor in session here have deliberated on the matter for days, and there seemed to be no way out but to fight to the finish. The executive council of the American Federation of Labor has sent to President Taft lengthy resolutions setting out the conditions of workingmen in the steel mills, and the contents of organized labor in the controversy. Committees are to be appointed to wait upon the president and upon congress in an effort to get the facts before the people of the country. The resolutions in part say: "A crisis in the affairs of labor has arisen. The gigantic trust, the United States Steel corporation, is using its great wealth and power in an effort to rob the toilers of their right of American manhood and of the opportunity to resist its further encroachment. Grown rich by the consent of the people of our country, this sweeps aside, makes and unmakes law, its enactors and executors, and is now engaged in an effort to destroy the only factor—the organizations of its employees—standing between it and unlimited social and moral carnage. On June 1, 1900, the United States Steel corporation proclaimed its decree of hostility toward labor. The right of the workers to associate for their common protection was no longer to be recognized or tolerated. Accompanying that decree was a notice of a further reduction in the wages of the workers. Music Teachers to Meet. Chicago, Dec. 15.—Great preparations are being made for the entertainment of the Music Teachers' National association, which is to hold its annual convention next week at Northwestern university in Evanston. Many musicians of wide prominence will take part in the gathering, which will include a series of concerts and recitals in addition to the regular sessions for the discussion of business. PRESIDENT MAY BE NAMED LATE TODAY

New York, Dec. 15.—Owing to the failure of the National league magnates, who are in session here, to get down to the business at hand, the election of a new president for the organization will probably not be reached until late today. The result of the election cannot be predicted, and the magnates apparently are as much at sea as the fans who are awaiting their decision. Stanley Robison of St. Louis, who is said to hold the deciding vote, has not yet made known his position. The New York, Brooklyn, Philadelphia and Chicago clubs, it is generally supposed, will cast their votes for John M. Ward, Acting President. John A. Heydler, who has served as temporary head of the league since the death of Harry Pulliam, commands the votes of Pittsburgh, Boston and Cincinnati. Should Robison cast his ballot for Heydler, a deadlock will result, and a compromise candidate probably will be elected.

Tax the Women of Portland the Same as Elsewhere.

Hard to attend to household duties with a constantly aching back. A woman should not have a bad back. And she wouldn't if the kidneys were well. Doan's Kidney Pills make well kidneys. Here is a Portland woman who endorses this claim: Mrs. A. Canavan, 330 Lincoln street, Portland, Or., says: "In 1903 I used Doan's Kidney Pills with such beneficial results that I gave them my hearty endorsement. I still think of them and advise their use whenever I have an opportunity. For two or three years kidney complaint had clung to me, my back being so lame that I was unable to attend to my household duties at times. Dizzy spells were common and I was also subject to headaches. The use of home remedies and more than one preparation guaranteed to be a sure cure for such troubles failed to give me relief. Finally I learned of Doan's Kidney Pills and procured a box. I used them according to directions and they gave me more relief than all other remedies I had taken combined." For sale by all dealers.
