

### UNION COUNTY'S GRANGES OPPOSE ASSEMBLY PLAN

#### Grand Ronde Valley Farmers Align in Support of Initiative and Referendum and Statement No. 1.

(Special Dispatch to The Journal.)  
La Grande, Or., Jan. 6.—State candidates endorsed by and favoring the assembly plan of nominations will receive but little or no support among the granges of Union county. Already some of the lodges have gone on record with resolutions opposing such tactics in politics. The Cove grange, composed of wealthy farmers and fruitmen, has given loud voice to its objections to the assembly plan, and incidentally to those methods in politics tending to avoid the precepts of Statement No. 1. While the other granges of the county have not passed such resolutions, they will, according to the best authority, do so at the first opportunity. According to information coming unofficially from the grange camps, the rank and file are unanimous in their support of the stand against assemblies.

The resolutions passed by the Cove grange follow:  
"Whereas, There is a disposition on the part of the machine politicians of the state of Oregon to assail the initiative and referendum together with the most vital part—Statement No. 1—whereby candidates are chosen by the people and not by a clique, therefore, be it

"Resolved, That the Mount Fannie grange, No. 558, P. of H., in conformity with other granges of the state of Oregon, go on record as opposing the assembly plan and favor and give our allegiance to the direct primary law, and be it further

"Resolved, That we are opposed to any kind of salary for any officer of Oregon for any cause whatever other than by the initiative, as they are becoming masters rather than servants."

### OAKLAND MAN SHOT BY HIS EMPLOYER

(United Press Leased Wire.)  
Oakland, Cal., Jan. 6.—Claude Smith, a stucco worker, was thought to be dying in a hospital here as the result of a bullet wound inflicted by his employer, Fred Jurgowits.

Jurgowits, at the police station awaiting the result of Smith's wound, said the shooting was the result of Smith's attentions to his wife.

Smith, who has a wife and child living in Oakland, has been in the habit of visiting the Jurgowits home occasionally and dining there. Finding, last night, that no meal had been prepared for him, he is said to have gone in an angry mood to a house in the neighborhood where his employer and Mrs. Jurgowits were visiting.

Jurgowits said he went to the door when Smith tried to batter it down, and was knocked down by a blow from the stucco worker's fist. Notification was given to the police, and Jurgowits in self defense then fired a shot that went wild, according to his story. A second bullet took effect in Smith's abdomen, causing a wound that it is believed will prove fatal.

### Hearing Is Postponed.

(Salem Bureau of The Journal.)  
Salem, Or., Jan. 6.—Notification was yesterday sent to J. P. O'Brien, general manager for the Harriman lines in Oregon, by the railroad commission postponing the hearing in the matter of depot facilities at Umatilla Junction from January 11 to February 23. In order that the Oregon Railway & Navigation company may have time to determine whether that point will be continued as a division point for the Oregon and Washington systems.

### Complaint Made by H. N. Dryer.

Complaint was made by H. N. Dryer, a shipper of Umatilla, that the conveniences furnished both shippers and passengers at that place were wholly inadequate and in some particulars the accommodations for women passengers were not even decent.

### PILES Quickly Cured

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrappers.

We want every man and woman suffering from the excruciating torture of piles to just send their name and address to us and get by return mail a free trial package of the most effective and positive cure ever known for this disease, Pyramid Pile Cure.

### FREE LUNCH TO BE RELEGATED

#### Sacramento Health Board Argues Against "the Eats" in Thirst Parlors.

(United Press Leased Wire.)  
Sacramento, Cal., Jan. 6.—The free lunch, on which many a Sacramento man has lived and waxed fat, is doomed if the local board of health has its way. Because Seattle has relegated this resort of impetuous starvelings, so would Dr. F. G. Fay, who guards the city's health. Dr. Fay argued thus today:

"Lunch counters are usually provided with highly spiced foods, which make a man thirsty and induce him to drink more than he otherwise would.

"Another harmful thing they are responsible for is a great deal of eating between meals.

"Eating irregularly and drinking excessively are both great evils to health and I think it is within the province of the board to diminish these evils where it is possible."

But the majority of the frequenters of the lunch shelves replied that the argument did not apply to them. There was no between meals they said; or, rather, it was all between meals; rather still, it was between meals or nothing.

Dr. Fay also said he did not doubt that the saloonkeepers would count the board's move as economical so far as they are concerned.

### PROFESSOR EXPLAINS SECRET OF SUCCESS

S. E. Webb, J. L. B. of Northwestern University, Evanston, Ill., spoke last night at the Y. M. C. A. upon "The Science of Business Success."

The talk was a practical one and hinged upon the thought that success is governed by an eternal law just as good health is, and that the man who understands the underlying principle can seize success in business just as a man can make himself strong and healthy by observing the laws of health from childhood up.

He held that success is never a matter of chance, that no man ever stumbled into victory by mistake, and that it is the man who plans every move that wins. He gave the palm to hard work and said it often wins the battle of life where genius fails. Conviction, he said was one of the first requisites for success; that to convince another that your wares are good you must first convince yourself.

This is Mr. Webb's second visit to Portland during the past year. He was secured by the Y. M. C. A. for this lecture, which was offered to the business men of Portland as a part of the general educational and usefulness of the association. Mr. Webb showed by logical reasoning and apt illustration how success may be attained by any man. That it is more a matter of training and hard work than luck; that the trained man wins no matter if his education was received in no higher a place of learning than the "college of hard knocks."

"Just so the God given qualities are brought out until the man is master of the situation," he said. The reason there is so much room at the top is because there are so few masters. A pound of logic is worth a ton of talk."

### THE STRANGER WITHIN OUR GATES

David Trefler, Arco, Idaho—The Lost river country never suffers so much in 20 years with cold as they have already this winter. This is the first winter, within my recollection that horses have perished on the range. The snow crusts so much that they are unable to paw down to the dry grass. Hundreds of head of stock of all kinds have starved and frozen in Blaine county this winter.

Frank B. Ryan, Salt Lake, Utah—I hardly know whether I like Portland better than Salt Lake. I have lived in Salt Lake for 10 years, but I visited Portland's Rose Festival two years ago and since then I have almost decided to make this city my home. I have no interests in either place, so it is a toss up with me. If I find the climate satisfactory here during the next two or three weeks, why Portland wins. It gets pretty chilly at Salt Lake in the winter time.

Carl Lindstrom, Napa, Cal.—Snow and extremely cold weather is the order of the day in California. For the first time in 50 years it snowed in the Bakersfield country last week and the residents are becoming alarmed. There never was so much minor sickness in the state, either, caused from the peculiar weather here during the winter. It reached the epidemic stage at Napa and several deaths have resulted.

### STOPPING OF FERRY CAUSES PROTESTS

Whitwood, the suburb on the west side of the Willamette river, is practically isolated from St. Johns as a result of the tying up of the ferry which connects the two. The ferry has been tied up with the consent of the city council until such time as the weather moderates. A great deal of protest has been aroused by the action of the St. Johns council in permitting the tying up of the boat, as it is said to be clearly against the terms of the franchise recently granted the company.

The ferry is operated by the St. Johns Transportation company under a franchise granted them by the city council of St. Johns. When the request came to the council from the company asking that it be allowed to tie up the ferry temporarily, it was found that the council had no right to make any such grant. On the point that service was practically impossible the council promised, however, that it would say nothing if service was discontinued.

The ferry serves the west side traffic to a large extent and its closing will cause much trouble and inconvenience. Several streets were improved this summer in St. Johns so that the ferry might be used during the winter. The St. Johns people claim that a little work would remove the gathering of ice and that the running of the ferry would then be possible. They are said to be planning on taking the matter into the courts should the ferry be out of service very long.

### POLITICS WON'T BRING HOME RULE

#### Ireland's Champion Visits America to Induce Irish to Make a Trade Fight.

(United Press Leased Wire.)  
San Francisco, Jan. 6.—The efforts of the Irish political party will never bring about home rule for Ireland, according to Charles Joseph Dolan, former member of the British parliament and one of Ireland's champions. Dolan is touring America advocating the development of Irish industries with the aid of Irish citizens. Industrial independence, he believes, will bring about the freedom of his native land.

Dolan is looking for American markets for Ireland's products. He urges upon all Irishmen to substitute Irish goods for those made in England. By refusing to purchase the products of England's industry and utilizing Ireland's output, one of the means towards welding the island into an industrial nation will have been put into operation.

Dolan stated that the Irish party got back of the Liberals in the present campaign in England because Prime Minister Herbert Asquith promised Ireland home rule if the party received Irish support. As to this Dolan said:

"I think Asquith's promise will be like so many others and will amount to nothing after the election."

### Traction Company Buys Site.

(Special Dispatch to The Journal.)  
Pendleton, Or., Jan. 6.—Another important preliminary step has been taken in the promotion of the traction company which is to tap the rich timber country in the southern end of Umatilla county and furnish transportation for the wheat and other farm products.

This step was the recent acquisition by the Umatilla Railway & Electric Power company of the water power site on the north fork of the John Day river, the franchises and all other rights obtained with it by A. R. Turner of Pilot Rock, Douglass Belts of Pilot Rock, and George Arthur Brown of Portland. The consideration was \$54,000.

### Umatilla Grand Jury Acts.

(Special Dispatch to The Journal.)  
Pendleton, Or., Jan. 6.—The grand jury, which is now in session, made its first report yesterday afternoon, returning one indictment and two not true bills. Carl Smith was indicted for larceny from a building. Not a true bill was found in the case of A. L. Campbell, who was charged with attempting to pass another man's check in a local store. Not a true bill was returned in the case of J. N. Klein, of the Weston hotel, who shot Frank Beaths in the shoulder a few months ago. The jury found Klein was justified.
