## LATEST NEWS OF WORLD'S MARKETS

## RABBIT DRIVES **FILL THE MARKETS** WITH NEW STOCK

Arrivals of "Jacks" From East- Opening and Closing Lower but

Among the Creapest Food.

While years ago rabbits were considered luxuries, the "jacks" are now within a reach of anyone who can afford to buy meat at all. In fact the price for the fresh stock is lower per pound than good meat. This is increasing the consumption, although it is not likely that rabbit meat will influence in the least the price of other meats.

FISH MARKET HOLDS FIRM.

Halibut Is Scarcer with Small Offerings from North.

There is a very firm tone in the entire fresh fish market. Halibut is firmer be-cause of the smaller offerings from the

north.
Some frezen Columbia river smelts are being offered at 5c. They are in fine condition. Quite a fair shipment of sliver smelt from Glympia came in this morning and was quoted at 7c a pound. Jan. ....1297 May ....1215 July ....1212

EGGS OFFERING AT 30 CENTS. Supplies Increasing and Trade Is Still Scared.

Eggs are now being freely offered at 30c a dozen along Front street. Supplies are still increasing, but accumulations are still shown. Shipments to the east have not yet reached a stage where the local market is affected. It is hard to sell eggs along Front street at any price; in fact, there is scarcely any market for eggs at this time.

en market has been very good, and quo-tations have been the highest in years, doing away entirely with the report printed in another publication during the holidays of huge stocks in storage. However, receipts have been so liberal recently that the trade is fearful of a break if continued.

POTATO OFFERINGS LIGHT.

Small Supply Moving from Country

to City-Damage News Proven. Offerings of potatoes in the local mar-ket continue very light, despite all the talk of some interests opposed to pro-ducers that only a very small per cent-age of the copp was damaged by the cold-weather.

Market along Front street is still at the high point, and for good stuff is the highest market on the Pacific coast.
