

# AMERICAN AND JAPANESE NAVIES HOLD LOVE FEAST

## Loving Cup Presented Japanese Naval Club by Admiral Hubbard on Behalf of Members of American Fleet.

(United Press Leased Wire.) Tokyo, Jan. 19.—American and Japanese naval officers engaged in a love feast today when Admiral Hubbard, on behalf of the officers and men of the American fleet, presented the Japanese Naval club with a handsome loving cup.

Many Japanese officials of high rank, with naval officers, including Admiral Togo, were present at the ceremony. Naval Minister Saito responded to Admiral Hubbard's presentation speech. He said:

"This expression of warm feeling on the part of our visitors from the United States is a proof of the cordial relations existing not only between the navies of both countries but the people themselves. I believe this incident will strengthen the chain of friendship between Japan and America, the first link of which was forged by Commodore Peary more than half a century ago."

Saito will entertain the American officers at a banquet tonight.

## TWO STOCK EXCHANGE FIRMS GO TO SMASH

(United Press Leased Wire.) New York, Jan. 19.—The big stock exchange firm of Lathrop, Perkins & Co., went down with a crash today when the stock of the Hocking Coal & Iron company, which has been under heavy pressure during the last few days, fell from 50 to 37. A panicky feeling resulted all along the line and the big interests were watching the market closely. The firm of J. M. Pisk & Co. also went to the wall in the general selling resulting from the break in Hocking Coal & Iron company stock.

Experiments by a big Canadian railroad of dispatching trains by telephone have shown that 50 per cent more traffic can be handled in a given time by that method than by telegraph.

## Some Advice About COLDS.

Take warning from the first sneeze and check a cold before the lungs are affected. An effective remedy for coughs and colds is made by mixing a half ounce of Virgin Oil of Pine compound pure with two ounces of Glycerine and eight ounces of pure whiskey. These ingredients can be bought in any first-class drug store and easily mixed together in a large bottle. It is claimed that a teaspoonful of the mixture four times a day will break up a cold in twenty-four hours and cure any cough that is curable. This formula is highly recommended by the Leach Chemical Co., of Cincinnati, in whose laboratories the genuine Virgin Oil of Pine compound pure is prepared.

Mr. Thompson will improve the site with a modern business building as soon as he finds a tenant for the premises. The sale was made through the agency of the H. P. Palmer-Jones company.

## ROOSEVELT PROGRAM FOR HOMEWARD TRIP

(United Press Leased Wire.) New York, Jan. 19.—Colonel Theodore Roosevelt will leave the African hunting grounds for Khartoum, Egyptian Sudan, about March 1. There he will meet Mrs. Roosevelt and after a leisurely trip across Europe will return to the United States, arriving here about June 1.

The former president's plans were made known today in advices received from British East Africa.

Mrs. Roosevelt will sail for Naples February 15 on the Hamburg-American liner Hamburg, and will go directly to Khartoum, where Colonel Roosevelt will arrive from Gondokoro on the monthly government steamer. Together they will probably visit Athens and Constantinople, crossing from the Turkish capital to the Atlantic side of the continent on the Orient express.

Roosevelt has consented to deliver lectures at Paris and Rome and at Oxford university. This series he expects to conclude late in May. It was stated today that there was no truth in the report that he would visit the Holy Land before his return.

## MARCOLA MAN SUES BREWING COMPANY

(Special Dispatch to The Journal.) Eugene, Or., Jan. 19.—Mart V. Endicott of Marcola, who recently was convicted of violating the local option law, and was fined \$250 and served a term in the county jail, today began suit against the Mount Hood Brewing company, of Portland, for \$10,000 damages. He alleges that the defendant sold him a quantity of "Nymph Tonic" for beer, which was claimed by the defendant, Endicott alleges, to be non-intoxicating. Endicott claims his business was entirely destroyed and that he suffered great humiliation and disgrace by being compelled to go to jail.

## EXPLOSION TEARS MAN'S FACE TO BITS

(Special Dispatch to The Journal.) Shastika, Or., Jan. 19.—As a result of a premature explosion of powder yesterday afternoon at Camp 1, near Shearar's Bridge, Thomas Durkin, an employe of the Pacific Coast Construction company, lost both hands and received injuries about his head which will probably result in his death. One side of his face was torn to pieces.

## New Praise-Word Coined.

From the Boston Globe. English speech, already opulent in synonyms, is being daily enriched. One of its latest accumulations is the new adjective "taffy," signifying complaisant. "He was a good clerk," said a New Yorker, "but he was so good-natured to everybody, so taffy, that he neglected the interests of the corporation, and we had to let him go."

## "WOULD BE FOOL IF HE DID NOT HEEL HIMSELF"

### Col. Frank Davey Says He Can Prove There Was Traffic in Legislative Votes for United States Senatorship in 1903.

Direct evidence by one who was then as to the traffic in legislative votes for the United States senatorship at the session of 1903 is given by Colonel Frank Davey in an article in a recent issue of his Harper's News. He makes the direct charge that offers were made him, that he has witnesses to prove the facts, and that he was told that he would be "a fool if he did not heel himself."

No specifications are given, and the significance is not in what is said, but in the direct and positive manner in which the charge is made. The publication grows out of recent attacks made by the Oregonian on the direct primary and direct choice of senator along with the abuse of the paper has heaped on Mr. Davey and other Republicans who have defended the system.

The article is as follows:

### The Jungle Wolf.

"The hyena like ferocity with which the Oregonian pursues the men who disagree with its political policies is as pitiable as it is disgusting to men who like fair play and political decency. The friendship and fidelity of years, the loyalty and the unceasing and freely given labor for party success are all forgotten and ignored when once the Oregonian starts on a line of political brigandage, or when the interests for which it stands appear in business of politics are threatened."

### Fattens Upon Monopoly.

"Fattening upon local monopoly for years, with sufficient allied power to crush out all competition, it was seven years ago forced to realize that a competitor was launched in the Portland field with which it would be forced to reckon, and because some of Portland's best and oldest citizens, tired of the Oregonian arrogance and unfairness, saw fit to give financial backing to the new enterprise—The Journal—the Oregonian pursued them in their business life, their social life and their public life, with a venom and hatred the repulsiveness of which had but one compensatory feature—It built up The Journal to most prosperous proportions."

### Pursuing Same Old Course.

"The Oregonian is pursuing the same course now toward men who have all their lives labored freely for the success of Republican principles and Republican candidates and it is doing it in the name of the Republican party (save the mark)."

"Upon what right or principle does the Oregonian presume to speak in the name of the party at all? Does not every voter in the state know that every disaster to the party in 30 years was largely chargeable to the attitude of the Oregonian? Hasen't it fought the cardinal principle of Republicanism—protection—all the while? Does not the principle that has held the voting masses in support of the party for 30 years?"

### Was Belittled Republicans.

"Hasn't it abused and belittled Republican state and district officials on all occasions until it has bred a widespread distrust of all our party candidates and encouraged the voters to support their opponents?"

"Did it not in 1902 hound Governor Geer with persistent malignance until it drove thousands of his friends to oppose and defeat Furnish and elect every movement and utterance of Chamberlain as governor that was calculated to cast odium on the Republican officials until it set up Chamberlain as a god in the minds of ordinary people, and paved the way for that elevation about which the Oregonian is now howling?"

### Encouraged Attacks on Fulton.

"Did it not encourage attacks on Charles Fulton until his renomination was made impossible and did it not fail to support Harry Cake for senator and encourage its following to support Chamberlain? Did it not do everything in its power to belittle and weaken Senators McBride and Simon when they were representing Oregon in Washington? Did it not hound John H. Mitchell into his grave and has it not dragged forth his remains with ghoulish malice frequently since to exhibit his defects?"

"Republican loyalty, forsooth! Bah! The Oregonian knows not what it is and never has known it! And yet the Fultons and the Geers and the McBrides and the Cakes and the Mitchell friends, all of whom it has betrayed, are now groveling at its feet in the hope of being raised again by the scruff of the neck to the platform of popularity which they once enjoyed."

### People in Earnest.

"They will miss it and the Oregonian will miss it. The people are in earnest and they will not permit themselves to be robbed of their rights and privileges to satisfy the ambitions of Mr. Scott, who has been cajoled into believing that he can be senator if he can only destroy the primary law and State-ment No. 1."

"The News will inform the Oregonian that if the editor of this paper had been of the disposition to trade his legislative vote for an office and sell out his constituents, he need not have waited until 1907 to receive his reward. He could have had anything he wanted in 1903 and was then told he was a fool because he chose to refuse the proffered opportunities to 'heel himself.'"

"We are in a position to prove this not only by living witnesses but by a law still on the books which we wrote, introduced and had passed in order to block the game of bargain and sale."

## SOUTH SEA ISLAND SHIP AND CREW LOST

(United Press Leased Wire.) San Francisco, Jan. 19.—Captain A. Schroder of the Norwegian schooner Allee, his wife and daughter and seven seamen were drowned when the little vessel foundered during a storm in the South seas early last December, according to a report brought by the crew of the schooner O. M. Kellogg, which is in port today.

The Allee, 117 tons burden, was bound from Rarotonga in the Cook islands to Manahiki. She was spoken by the Kellogg the day before a terrific storm swept that section. Nothing has been heard from her since. The Allee was engaged in the interisland trade.

Tomorrow (Thursday) is positively the last day for discount on east side gas bills.

## NAKED FANATICS AWAIT CHARIOT

### While Waiting Baby Dies of Cold and Hunger—Jailed After Fierce Fight.

(United Press Leased Wire.)

Bellingham, Wash., Jan. 19.—The little town of Lynden is in a state of great excitement as a result of the death last night of the little daughter of Mr. and Mrs. George Paschot, following a long session held by the entire family on their house-top at Lynden, north of here, where they awaited the coming of the Lord. The little child died from the exposure, and a 2-year-old daughter is in a precarious condition. As a result of the arrest of the father and mother with their 11-

year-old son and 8-year-old daughter, no harm can come to them as the hands of the people of Lynden, but there is real danger for other members of the Holy Roller faith, followers of which cult are said to be lying there. Officers are working on the case, and it is possible that other arrests will follow. Citizens of Lynden declare it will be just as well for the officers to see that the Holy Roller cult is removed at this time, for failure on their part to attend to this duty may mean that the citizens will take the matter into their own hands. Feeling is running high. A Holy Roller elder of Seattle is being sought by the officers, and arrests will no doubt follow.

### Fiercely Resist Arrest.

When the Paschots were discovered on the house-top and the condition of the children was made known, people of Lynden forced them to remove themselves, but this was not done until after a fierce battle in which the 11-year-old boy and the 8-year-old girl were the fiercest combatants. They fought like tigers for the faith that has tainted their youthful minds, and it was with the greatest difficulty that they were overpowered without injuring them.

It is probable that the coroner will decide that the baby came to its death by starvation as much as from exposure.

posure, for the entire family had fasted since Monday.

### Kid Destroyed All Clothing.

A cold wind was blowing when a Lynden man discovered the family on the roof of the little home, going through the most insane antics, the mother hugging the dead body of the infant to her breast.

Alid was quickly summoned, and then the fight began. It ended only when the Paschot family was landed in the county jail in this city. When the battle on the roof was ended, it was found that the clothing of all the members of the family had been destroyed, and it was necessary for neighbors to donate articles before they could be made presentable.

The hearing of the prisoners, probably on insanity charges, will be postponed until the case has been looked into. Later charges of a more serious nature will likely be made, in which other Holy Rollers, and especially the leaders of the cult, will be included.

### GASOLINE SLOOP CONDOR IS SAFE

(Special Dispatch to The Journal.) Newport, Or., Jan. 19.—The gasoline sloop Condor, which sailed Sunday from

Astoria for Newport, was this morning sighted 40 miles north of Newport. The boat is safe and will wait until the weather moderates before crossing in.

### YOU NEED NOT BE BALD

#### How to Stop Dandruff and Give New Life to Your Hair.

Of all nourishing tonics that give life and vitality to the follicles and roots of the hair none is more widely used than beta quinol tonic—perhaps because it can be made at home at small cost. There is no excuse for dandruff—no excuse for dull colored and dry hair—no excuse for falling hair—no excuse for at least half the bald heads you see. A good hair tonic used once or twice a week will prevent dandruff, invigorate the hair follicles and keep the hair beautiful, abundant and glossy.

Just get from your druggist one ounce of beta quinol and one-half pint of alcohol; mix with one-half pint of warm water. Or put the ounce of beta quinol in a pint of bay rum. Either method of mixing will please you, for it is the beta quinol that keeps the scalp healthy and puts new life into the hair.
