

ENGINEER LEEFE SAYS WORK ON CANAL ADVANCING

Snow During Month of December Stopped Concrete Work—Ice Gone Out of Cascade Locks.

Work on The Dalles-Celilo canal project is progressing very well, considering the weather that we have had to contend with," said F. E. Leefe, engineer in local charge of the government work at that point, this morning.

Mr. Leefe is in the city for a few days and he is optimistic in regard to the progress of the work from now on.

Engineer Leefe says that the common excavation or the present contract, which is for the first three miles of the work, is practically finished and that they are now on the rock excavation, which is progressing rapidly.

The concrete work, which was also held up by the snow and cold, will commence again next month and will go ahead rapidly.

Snow Unusually Deep. "During December we had about 16 inches of loose snow," said Mr. Leefe, "but it is practically gone now. There is no ice to amount to anything in the river at Celilo, but at Big Eddy it is covered up to a height of about 35 feet above low water. It is beginning to go out now, however."

Advice received this morning by Major McIndoe, corps of engineers, United States Army, say that the ice in all parts of the Cascade Locks, and that they are now in commission again, after having been closed from January 4 to January 18.

A large area of ice, according to the communication, which blocked the upper entrance to the locks has been cut up and pushed out by the tug La Cross, and can now run through them.

The river is now 15 feet above the adopted low water stage, and there is no floating ice at that point, but it says that information received is to the effect that from Lytle to The Dalles the river is closed by ice.

Something must be done with these 5 cent dance halls. They are beyond control by the police and have been the ruin of scores of young girls and boys of the city," said Mrs. Lola G. Baldwin this morning in an interview with Mayor Simon at the city hall.

"I think the only way to rid the city of their evil influence is to eliminate them entirely," continued Mrs. Baldwin, "and there is one in particular, the Casino, on the second floor of the old T. M. C. building at Fourth and Yamhill streets, against which I cannot possibly say enough."

"Why can't the police handle these places?" inquired the mayor.

"Because of the difficulty of getting proof of any wrong doing," replied Mrs. Baldwin, "the dance halls are not in themselves bad because a special officer is detailed to keep order and nothing immoral is allowed on the dancing floor."

Questionable Meeting Places. "But because no admission is charged for entrance, these halls have become meeting places for the underworld."

"A young man meets a dissolute woman and after a dance or two the couple repair to neighboring saloons, where, after taking a few drinks they proceed to some lodging house to spend the rest of the night."

"An innocent young girl may fall in with one of the ruses of the city and the same program be carried out as in the instance I have just cited. If an admission fee of 25 cents or more were charged, the girls could not afford to visit these places."

"The dance hall makes money by charging 5 cents a dance. In one place between 950 and 1100 a night is cleared up. So you see that there is some profit in a 5 cent temple of perdition as it is conducted in Portland."

Dissolute Character of Front. "The other night one of my assistants caught a denizen of the parlor house variety distributing her cards among the young men and boys of 17 and 18 at a dance hall. These cards read 'Madame So and So and young ladies, giving the street number.'"

Mayor Simon was greatly surprised to learn of the conditions described by Mrs. Baldwin, who as head of the department for the public safety of young women, is in a position to know where she speaks. He told Mrs. Baldwin to formulate her charges against the dance halls in a written communication and that he would see that they were at once taken up. "I will see if something can't be done," was the mayor's parting remark to Mrs. Baldwin.

Mrs. Baldwin is taking a collection of pictures showing the filthy condition of many of the 1200 United States lodging houses wherein the abodes of the dissolute of both sexes are maintained.

One of the pictures shows a bed in which five persons were found sleeping. The sleepers were a woman with tuberculosis, two young girls and a boy and an older girl suffering from a venereal disease. The place in which this photograph was procured is located near the fair grounds.

G. G. GAMMANS GOES TO HIS LAST REST. The funeral of the late G. G. Gammans was held at the First Unitarian church at 2 o'clock this afternoon.

The body lies in state at the church from 11 o'clock this morning until the hour of the funeral. A large number of the friends of the deceased lawyer called to view the remains.

Wife Secured Divorce. Eva L. Puckett was divorced from T. O. Puckett January 7, in the circuit court by decree of Judge Brannagh.

On the stand Mrs. Puckett told a harrowing story of neglect and cruelty on the part of her husband. She said that in April, 1908, he held one hand over her mouth and threatened to kill her with a dagger held in the other hand.

He did not kill her, she said, because he heard a noise and thought she had placed some one there to spy on him.

Mrs. Puckett had a boy by a former marriage and she charged her husband with neglecting him. She married Puckett July 4, 1907.

Rockpile for Coat Stealer. Andrew Elk was sentenced to 120 days on the rockpile this morning in municipal court for stealing a coat from John Carlson. He pleaded guilty to taking the coat. The police had evidence he had taken several articles of clothing.

Mrs. T. O. Puckett, the object of jealousy.

In a quarrel this morning over Eva Puckett, 567 East Twenty-sixth street, T. O. Puckett, her former husband, was shot in the chin by Charles Payne, janitor of the Ankeny rooming house at Seventh and Ankeny streets.

The injured man was taken to the Good Samaritan hospital. The bullet was located in the back of the neck. He will live.

The two men have long been rivals for the woman's affections. The former husband had the inner track, and although she secured a divorce from him January 7 the couple had planned to be reunited.

Payne is 50 years old, the woman is 39, and Puckett is 35. Payne has been a boarder at her home, and this morning went to the house to get his effects, as he had moved. While he was in the room, Puckett walked in from the rear.

The woman says Payne had accused her of allowing Puckett to be there last evening, and when she asked her former husband this he replied that it was none of Payne's business if he had been there.

Payne Quick With Gun. At this remark, the woman says, Payne pulled a gun and shot at Puckett, who was sitting in a chair. She grasped with Payne and threw him to the floor. Puckett attempted to take the gun from Payne's hands, when he was shot in the chin. Puckett ran into another room, and later into the street.

Payne ran out the rear door, and was found in the Canadian Employment office at Second and Burnside streets. He was trying to get out of town to take a position. Patrolmen Hansen and Innskeep arrested him.

Payne said he shot in self defense, as Puckett had struck him in the face and threatened to knock his head off. Payne is charged with an assault with a dangerous weapon. He waived hearing this morning in municipal court, and will go before the grand jury.

According to the woman and Payne, the latter furnished the money for her to secure a divorce from Puckett. She was working at the East Side laundry to pay this back. Payne and Puckett have been quarrelling over the woman for several weeks.

Mrs. Puckett's Story. "Both men at supper with me last night," said Mrs. Puckett. "They did not speak a word to me until they quarreled over a board bill Payne owed and had not been friends since. Payne went away early; my husband about 10 o'clock. My husband returned this morning about 6 o'clock. He said he wanted his gloves. He sat down beside my bed to read the paper, and was there when Payne came. Payne said he wanted some of his things. He seemed to think my husband had stayed all night. My husband said he did not stay, but if he had it was none of Payne's business."

"I will make it some of my business," said Payne. Then he pulled the gun and shot. I jumped at Payne and knocked him to the floor. From there he shot again. I didn't know either shot hit until I had crowded Payne out of the back door.

The bed had been occupied by two persons. It had not been made up when seen at 10 o'clock this morning. Blood was spattered over the floor and front porch. A bullet had penetrated the ceiling of the living room where the shooting took place. Broken furniture and a bruised wall gave evidence of a struggle.

White Slaver Sentenced. Harry Wigdon was sentenced to 90 days on the rockpile this morning for accepting the earnings of an immoral woman. The woman was Hazel Wilson. She was sentenced to 90 days in the county jail.

Chicago's fifth annual electrical show, to be held January 15 to 25, promises to be the greatest of the kind ever attempted.
