

MECHANICS' FAIR FOR PORTLAND

Manufacturers Think Time is Ripe to Adopt This Advertising Scheme.

Initial steps in the organizing of the working forces for the Mechanics' fair are to be taken at a meeting of the Manufacturers' association, Friday evening. At this meeting committees are to be appointed to select a building for the holding of the event each year. The general plan of the fair will then be decided upon.

The fair will be for the exhibition of nothing but Oregon-made goods. It will be one of the greatest advertising ventures ever tried in Portland. The fair is a revival of the old annual fair exhibition, which was held up to 1900 in the Exposition building. Work was then started on the building of the Lewis and Clark fair, and the manufacturers put all their energy into making this a success. The condemning of the old Exposition building at this time deprived the association of an exhibiting place, and added to the difficulties surrounding the giving of such a fair.

With the Lewis and Clark and the Seattle fairs over, it is believed that a Mechanics' fair held each year will be a big drawing card. Plans for the buying or leasing of one of the largest buildings at the old Lewis and Clark fair grounds and for its remodeling to suit the needs of the association were discussed briefly at the recent meeting of the association. This matter will come up again Friday night.

"The revival of the old Mechanics' fair will mean a revival of the old fair days in Portland, which for so many years brought people to Portland," said Colonel D. M. Dunne, in discussing the fair this morning.

"We have done nothing with the fair proposition for several years, for the simple reason that the manufacturers of the state were being well advertised by the two big fairs. While no definite action has been taken, the association knows what it wishes to do, and will start this week on the preliminary plans. Made in Oregon," the slogan which for so many years has been attached to

goods made here, but which has been partially forgotten by Oregon people, will again be featured, while the general good of the state will be looked after by the fair."

CHRISTY CHILD UNDER COURT'S JURISDICTION

(United Press Leased Wire.)
Zanesville, Ohio, Jan. 20.—A compromise decree in the Christy case, whereby Natalie, the 12-year-old daughter of Howard Chandler Christy, the artist, will be kept within the jurisdiction of the court for some time, is expected next week, according to an intimation by Judge Smith today. The judge indicated that he would review the testimony in the case carefully and would keep the child under his jurisdiction for some time.
Mrs. Christy, the wife of the artist, who is petitioning the court to compel Christy to permit their child to visit her part of the time, said today that she would return to New York before a decision was rendered. She would not deny that she intended to sue Christy for divorce, but declared she had no definite plans for the future.

Marconi Wireless to Extend

London, Jan. 20.—Signor Marconi sailed today for America. He will proceed at once to Glace Bay to superintend the installation of Transatlantic wireless apparatus there in place of that recently destroyed by fire. The station at Clifton on the Irish coast has been re-equipped, so that the Transatlantic wireless service can be resumed as soon as the station at Glace Bay is ready. While in America Signor Marconi will also give attention to the plans of the Marconi company to establish numerous stations at points throughout Canada, which messages from Great Britain can be transmitted by wireless telegraph.

Ohio Health Officers Confer

Columbus, Ohio, Jan. 20.—The annual convention of municipal health officers of Ohio began here today with many of the chief cities of the state represented. Sanitation, the quarantine of contagious diseases, the campaign against tuberculosis and other matters relating to the work of the health officers will occupy the attention of the meeting for two days.

Newfoundland Parliament Meets

St. John's, N. F., Jan. 20.—The Newfoundland parliament convened today. The extension of railroads in the colony is the principal business outlined for the session.

BANK WRECKER ASKS FOR PARDON

Stensland, Looter of Chicago Bank, Wants Freedom on Account of Ill Health.

(United Press Leased Wire.)
Chicago, Jan. 20.—For the first time since his sentence to an indeterminate term in Joliet prison four years ago, Paul Stensland, wrecker of the Milwaukee Avenue savings bank, appeared before the state board of pardons today to petition for his freedom. His appeal was based on the ground of ill health.

After Stensland looted the Milwaukee Avenue bank of which he was vice president and general manager, he disappeared for months evading the detectives who attempted to trail him. He was caught in Morocco by James Kelly, a Chicago newspaper man, who left his desk to take up the search.

THE STRANGER WITHIN OUR GATES

Frank Crews, Danvers, & C.—The high cost of living is easily traceable to prosperity. The food producers know they can get the prices they ask; they know we have to eat, and we eat without an audible murmur. The solution is this: Let every buyer refuse to pay the prices asked—which they will not do—and soon the shysters who at present hold the consumers in their grasp will let up and give poor people a chance to live. A panic will eventually be the result.

JORDAN GRANGE OPPOSES ASSEMBLY

(Special Dispatch to The Journal.)
Selo, Or., Jan. 20.—The following resolutions were passed at the last meeting of the Jordan Valley Grange: "Whereas, There seems to be a disposition on the part of the politicians of the state, assisted by some of the newspapers to assail the direct primary law and the initiative and referendum, together with Statement No. 1. Therefore, Be it resolved by Jordan Valley Grange No. 42 of the jurisdiction of the State Grange of Oregon, that we wish to go on record as opposing the so called assembly plan, and that we renew our allegiance to the above mentioned laws.
"And Be it further resolved that we will support no candidate for public office who opposes them."

Hood Council Meets

(Special Dispatch to The Journal.)
Hood River, Or., Jan. 20.—At the meeting of the city council, an ordinance was passed forbidding minors frequenting poolrooms, etc., and ordering all such places closed on Sunday. In his annual message the mayor recommended the purchase of a rock crusher. He urged the hastening of the installation of the municipal water, and in response to complaints for the violations of the local option law, put it up to the district attorney and sheriff to enforce the law.

Americans Presented at Court

Berlin, Jan. 20.—The imperial court season opened today with the annual drawing room, which proved to be one of the most brilliant functions of the kind seen here in years. A number of Americans were presented, among them Miss Katherine Hill, daughter of the American ambassador and Mrs. Hill; Mrs. Benjamin Ide Wheeler, wife of the president of the University of California; Miss Sprague, also of California and a niece of President Wheeler, and Mrs. Moore, wife of Colonel Daniel T. Moore, U. S. A.

No matter how long you have suffered, Foley's Kidney Pills will help you. Mrs. B. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Pills. One Dollar bottle and part of the second cured me entirely." They will cure you. Skidmore Drug Co., 151 Third street.

IMPERIALISTS PLEASED AT PROPOSED WEDDING

Paris, Jan. 20.—French Imperialists hail with unfeigned delight the announcement that Prince Victor Napoleon and the Princess Clementine of Belgium are soon to wed, now that the old King Leopold is dead and can no longer interpose his objections to the union. Prince Victor is the head of the house of Bonaparte, three times hurled from the throne of France. He is the grandson of Jerome Bonaparte, king of Westphalia and brother of Napoleon, and is a nephew of King Victor Emmanuel of Italy. He is the son of that Bonaparte familiarly known as Plon-Plon, who was a French prince during the reign of Napoleon the Third. It is believed here that Prince Victor's marriage with Clementine, great-granddaughter of Louis Philippe, will add strength to the imperialistic cause. The marriage of Prince Victor and Princess Clementine will be the first union of the Bourbons and Bonapartes, Princess Clementine being a descendant of Louis XV.

McMinnville Knights Install

(Special Dispatch to The Journal.)
McMinnville, Or., Jan. 20.—Wednesday night, January 19, the Knights of Pythias of this city held their annual installation with Deputy Grand Chancellor J. T. Irvine as installation officer. The officers installed were W. J. Brower, C. C.; H. O. Wilkins, V. C.; Walter Wilson, P.; W. B. Ungerman, K. of R. & S.; A. McPhillips, M. of E.; William Poole, M. of W.; Roy Fink, M. of A.; Frank Boothby, I. G.; Charles Kerna, G. G.

Many New Ones at Stanfield

(Special Dispatch to The Journal.)
Stanfield, Or., Jan. 20.—Among the new arrivals at Stanfield during the past week were: Deputy Buckingham, K. of H. Hunter, W. G. Smith, William Edwards, W. E. McDonald, J. J. Buchanan, H. D. Burrows, G. A. Anderson, Joseph Simms, Mrs. Bell, Miss Bell and William Bell, J. P. Lowthian, George McDonald and wife, George W. Remington, C. L. Dunning, I. W. Dunning, U. S. McMillan, Mrs. B. Burritt, E. A. Bjorkman, Clara Sorrenson, John Greenhields, R. A. Holte and wife, M. R. Ling, J. E. F. Brown, J. Lovchack.

Steel Company Expands

Pittsburg, Pa., Jan. 20.—The directors of the Ohio Iron & Steel company met today and discussed arrangements for a proposed increase in the company's capital stock from \$50,000 to \$1,000,000. The company has been operating some large furnaces at Sharp-leville with great success, but it is now intended to enter the open hearth steel making trade on a large scale. With the increased capital stock it is proposed to erect six open hearth furnaces at Lowellville, Ohio.

How to Get Rid of Catarrh

A Simple, Safe, Reliable Way, and It Costs Nothing to Try.
Those who suffer from catarrh know its miseries. There is no need of this suffering. You can get rid of it by a simple, safe, inexpensive, home treatment discovered by Dr. Blosser, who, for over thirty-five years, has been treating catarrh successfully. His treatment is unlike any other. It is not a spray, douche, salve, cream, or inhaler, but is a more direct and thorough treatment than any of these. It cleans out the head, nose, throat and lungs so that you can again breathe freely and sleep without that stopped-up feeling that all catarrh sufferers have. It heals the diseased mucous membranes and arrests the foul discharge, so that you will not be constantly blowing your nose and spitting, and at the same time it does not poison the system and ruin the stomach, as internal medicines do.

Danderine

GROWS HAIR and we can PROVE IT!

A lady from Minnesota writes: "As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of nutritive matter. Baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

FREE To show how quickly Danderine acts, we will send you a sample free by return mail to anyone who sends this free coupon to the

OAKLAND MAY ISSUE LIGHT PLANT BONDS

(Special Dispatch to The Journal.)
Oakland, Or., Jan. 20.—Mayor Hunt has called a meeting of the voters of Oakland to be held on January 22 for the purpose of discussing the issuance of bonds for the installation of a municipal electric lighting plant. The proposition is to install an electric plant in connection with the waterworks system.
For the past five years Oakland has been furnished with lights by the Calapooia Investment company, which company has a plant located six miles east of town. This plant is now controlled by the Sutherland Land company. It is expected the company will not desire to furnish Oakland with lights after the present contract expires, as the power will be required for lighting the town of Sutherland and the residences throughout the valley for a distance of eight miles.
