

REVOLVED PLANNED BY MOUNTAIN MINERS

Divergence as to Duties of National Organizers Persists— Union Is With W. F. M.

(United Press Leased Wire.)
Indianapolis, Ind., Jan. 21.—Thomas L. Lewis of Bridgeport, Ohio, was declared elected president today of the United Mine Workers of America.

The other officers of the organization elected were: Frank Hayes, Springfield, Ill., vice president; Edward Perry, Okaloosa, Iowa, secretary-treasurer; delegates to the American Federation of Labor convention, John Mitchell, Lewis Perry, Frank J. Hayes, William Wilson, John H. Walker and E. S. McCulloch.

Indianapolis, Jan. 21.—Plans for a revolt by the younger leaders of the United Mine Workers of America, in session here, were revealed today when it was learned that they were preparing an amendment to the organization's constitution curbing the power of President Lewis.

Another amendment will be introduced for the purpose of taking from the president the power to appoint national organizers, by making the offices elective. The amendment also provides that organizers shall not leave their work to attend conventions.

Although the regulars believe the amendments will be tabled, the younger members hope to pass them by obtaining the support of delegates opposed to the payment of salary and expenses to organizers in attendance on the convention.

Regarding the coal mine situation, many delegates intimated today that, in addition to a demand for a 10 per cent increase in pay for coal diggers, a big increase would be asked for day laborers working about the mines.

In the course of the day's business President Lewis appointed a committee to confer with the Western Federation of Miners for the purpose of adopting a plan for amalgamation of the two mining organizations, or for the adoption of a "fighting" agreement. Lewis is chairman of the committee which will attend the next session of the Western Federation.

A resolution was passed today demanding that congress create a bureau of mines.

Laymen's Conference in Macon.

Macon, Ga., Jan. 21.—One of the largest of the conferences held by the laymen's missionary movement in the south began in this city today, with hundreds of delegates in attendance from all parts of Georgia. A program covering three days has been prepared for the gathering. Among the notable speakers to be heard are ex-Governor W. J. Northen, Rev. Dunbar H. Ogden of Atlanta, Rev. William A. Guerry, D. D. of Charleston, Rev. H. W. Williams of Nashville, Mrs. George Sherwood Eddy, missionary to India, and W. B. Stubbs, secretary of the laymen's missionary movement of the southern Methodist Episcopal church.

Canadian Club Banquet.

Boston, Mass., Jan. 21.—The Canadian club of Boston has made elaborate preparations for its annual dinner tonight. Following its custom of inviting distinguished Canadians to its functions, the club will have as its guests of honor Lieutenant Colonel F. W. Hibbard of Montreal, Robert Emmett Finn, a member of the Nova Scotia legislature.

The American Excess Of Good Living

The Principal Cause of the Great Prevalence of Indigestion and Dyspepsia.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

Man inhabits every part of the globe where external influences can be successfully resisted. Food is an important element in effecting this, and nature has provided for it accordingly. The colder the climate the more solid food and oily substances are required; the warmer a preponderance of vegetables and fruits is necessary in one's diet.

The whole-blubber of the fur-clad Eskimo, and the rice of the nude African, are as much necessities of locality, as matters of choice. The same indications exist in civilization. Thus, the diet in America and England is essentially different from that in Italy, Spain and Egypt.

The effects of universal communication are nowhere more obvious than on the luxurious table. To furnish the refined cuisine, all climates, both sea and land, are laid under contribution, and the stomach is expected to digest, without assistance anything that is put into it. Combining together such varied products, and the neglect of the relation between climate and foods, are very active causes of dyspepsia.

The heavy substantial dishes of this climate accord but with the thermometer at ninety degrees; and an inflexibility in regulating the kind and quantity of food is a cause of a large proportion of the ill health and stomach troubles among the English and Americans.

Thousands of people who have suffered from stomach troubles, and a general ill-health resulting therefrom, because of a badly regulated diet, and the ingesting of an excessive amount of food at the table, have obtained speedy and permanent relief by means of a simple expedient—that of using one or two of STUART'S DYSPEPSIA TABLETS after each meal, or whenever any of the well-known symptoms of indigestion are present.

These powerful digestive tablets contain every element that exists in the stomach to digest the food, and in the exact proportion as found therein. They take the place of the natural digestive juices when the latter are deficient in quality or quantity, and do their work for them, removing the indigestion by digesting the food, and resting, strengthening and purifying the digestive tract.

There is no other digestive remedy on the market which has been found equal to Stuart's Dyspepsia Tablets; none which is so rapidly and powerfully efficient, or which removes discomfort, banishes, or which relieves and cures all of the symptoms of dyspepsia and indigestion in so thorough and pleasant a manner as these marvelous little tablets, a single grain of which is capable of digesting 3000 grains of any and every kind of food.

All persons who are annoyed with stomach troubles of any kind should use Stuart's Dyspepsia Tablets, which will remove such troubles in a very short time. Purchase a box from your druggist, and send us name and address for free sample. Address F. A. Stuart Co., 150 Stuart Building, Marshall, Mich.

SOCIAL and PERSONAL

(Social news is a daily feature of The Journal. Any one wishing to insert such news should send it signed to the society editor or telephone it before 10 o'clock in the morning.)

A quiet wedding, and one that came as a surprise to their friends, was that of Miss Ruth Baumgardner and Waldo A. Avery, Jr., which was celebrated Wednesday afternoon at Trinity church.

The mother of the bride and Arnold Rothwell were the only witnesses of the quiet ceremony, which was performed by Bishop Charles Scadding. Mr. and Mrs. Avery left Wednesday evening on the Shasta limited to spend their honeymoon in southern California.

The bride had from Springfield, Ohio, but has spent much time in California of recent years. With her mother, she has been a resident of Portland for more than a year, and has been made much of, not only for her attractive ways, but for her mental gifts.

Mr. Avery is a member of the firm of Holland, Briggs & Avery, and has been one of Portland's most popular bachelors. He is prominently identified with the Arlington, University, Waverly Golf and Multnomah clubs.

Dr. and Mrs. D. H. Rand of 164 Twenty-fourth street, north, were hosts at a handsomely appointed dinner at the St. Marks hotel, Oakland, Monday of this week, in honor of the sixtieth anniversary of the wedding of Captain and Mrs. H. B. Rand, the parents of Dr. Rand. The table was a vision in its floral dress of carnations, roses and ferns. The guests numbered 26 and included four generations of the family, the youngest present was aged two years.

Rev. W. D. Simonds, pastor of the First Unitarian church gave a speech of good cheer. Congratulations and the presentation of a gold and silver bag, containing a token of love and esteem, were offered by Dr. D. H. Rand.

Mrs. Carrie Armstrong read a poem entitled, "Sixty Years of Married Life." Relatives from San Francisco, San Jose, Oakland and Portland were represented on this felicitous occasion.

Mrs. G. E. Bruce entertained informally at luncheon yesterday afternoon complimentary to Mrs. George Cartwright of London. Gathered about the prettily arranged table were Mrs. George Cartwright, Mrs. Herbert Holman, Mrs. A. L. Pease, Mrs. Israel C. Sanford, Mrs. Paul E. Froehlich, Mrs. O. A. Lyman, Mrs. William C. Knighton, Mrs. Frederick A. Nitchey, Mrs. E. L. Thompson, Miss Louise Bruce, and Mrs. Will Lawrence. Following the luncheon bridge was played.

The third in the series of the Scottish Rite at homes will take place at the Cathedral, corner of Morrison and Fifteenth streets, this evening. Dancing cards and music will be the diversions provided for the members and their families. The committee in charge includes C. C. Newcastle, H. L. Pittcock, R. W. Schmeer, C. S. Hosmer, J. E. Werlein, H. P. Palmer, J. K. Locke, Fred Guillette, C. W. King, Richard Martin, V. A. Avery, E. H. Willett and J. B. Moffett.

The Irving club organized and elected officers this week as follows: William F. Woodward, president; Ralph W. Wilbur, vice president; and A. E. Wastell, secretary and treasurer. This club is a reorganization of the Irvington Tennis club. The club owns a block in Irvington, upon which are 12 tennis courts. Upon the remaining eight lots of the block, it is planned to lay out a children's playground. A Portland woman has offered to contribute the necessary funds to put the grounds in shape, and to employ an attendant during the summer months to teach the children games.

Mrs. Louis H. Tarpley was a bridge hostess yesterday afternoon at her Melinda avenue home. Eight tables of bridge were played. Saturday afternoon Mrs. Tarpley will again entertain at bridge.

Mrs. C. J. Reed gave a luncheon of eight covers, complimentary to Mrs. Francis J. Heney yesterday afternoon.

JAPAN REFUSES TO ACCEPT PROPOSAL

(Continued From Page One.)
Chinese railway, which, either in operation or under construction, run from these ports to interior points.

All of this seems so far removed from anything that we could be interested in and so insignificant a fragment of the world's transportation system that one wonders why a project of "neutralization" should fill columns upon columns of the daily newspapers or why we should force it upon the attention of the chancelleries of the world.

United States Takes Hand.

The phrase "neutralization of the Manchurian railways" came first into the light in the early days of this month, when it became known that the United States had proposed to Russia, Japan, Great Britain, Germany and France that China should buy the Russian and Japanese sections of the Manchurian railroad, and that this college of powers should be responsible for the supervision of the road and for seeing that it was conducted on a strictly commercial basis and open to free traffic.

But all this would mean that China—even if she consented to the passive chessboard on which this great game of high finance was to be played—would have to pay out vast sums.

Outlay of \$350,000,000 Involved.

The two sections, 1088 miles, which Russia holds, cost not less than \$135,000,000 to construct.

The Japanese section of 508 miles was organized as the Southern Manchurian railway, following the war, with \$100,000,000 capital.

Altogether it would mean that the proposal to buy up the Russian and Japanese interests would involve an outlay by China of not less than \$250,000,000. But China could no more furnish this money than it could electrify the Great Wall. Therefore, China was to be financed, and it will not be a matter of great surprise to learn that the Morgan-Kahn-Leah syndicate stood ready to act as financial agent for our share in the transaction.

Object Lesson for Chinese.

It is not a long memory that recalls the fact that this same syndicate last summer obtained the American share in the Hankow railway loan of \$30,000,000.

In this connection the significantly gratuitous statement is made that our object in participating in the financing project should be recognized as "diplomatic rather than financial," and that China would be overcome by the "impressive object lesson of the four great capitalist nations' standing together for equity of commercial opportunity."

This is another of the large word phrases, and while one may concede the impressive object lesson, one may also read with interest one or two facts concerning the riches of the district whose railroads the financiers are willing to exploit from a diplomatic standpoint.

Manchuria Rich in Resources.

Manchuria is larger than Iowa, Minnesota, the two Dakotas and Nebraska. No known section of the world contains more forms of natural wealth.

The hills are treasure mines of gold, silver, lead, platinum, asbestos, antimony, iron and coal—above all, coal. Virgin forests of pine, walnut and ash as extensive as our northwest lumber regions lie along the headwaters of the Sungari and Yalu rivers.

There are thousands upon thousands of square miles of deep, brown loam whose productiveness passes belief. It would read like an agricultural catalogue to list the products.

The shipments of one of these products, a rich, white bean, from Newchwang,

Drunkennes Curable

Drunkennes is no longer considered a crime; eminent scientists and physicians have agreed that it is a disease and must be treated as such.

The home treatment that has been used for a number of years, and is highly successful, is Orrine. It is sold under a positive guarantee that if it does not effect a cure your money will be refunded. When desiring to give secretly, purchase Orrine No. 1, and if patient will take Orrine No. 2, should be given. Orrine costs but \$1 per box. Mailed on receipt of price.

Write for free booklet on "Drunkennes." The Orrine Co., 739 Orrine bldg., Washington, D. C. Sold in this city by Woodard, Clarke & Co., Distributors, 280 Washington street, 125-27 Fourth st.

Dalry and Antung in 1908 were valued at about \$14,000,000. It yields a tobacco that rivals the Virginia product, and silk cocoons from whose thread is made the softest pongee.

But Manchuria is almost as undeveloped as Persia. Its transportation is as primitive as that of Palestine, and its population as sparse as that of Patagonia.

The government or syndicate that awakens the dormant possibilities of Manchuria will reap a thousandfold for what is sown. And it must be remembered that Manchuria is but a small part of the great building blocks empire. The financing of the Manchurian road may be but the first step in a magnificent scheme of "removing" all the transportation facilities of China "from the field of oriental politics."

Progress Sure to Be Slow.

But the world will be older before this is accomplished. The replies to Secretary Knox's present proposition are not very enthusiastic. England is favorable, provided that it is acceptable to Japan. Germany is willing to follow England's lead. France wants to consult her ally, Russia, and Russia declines with unpleasant emphasis. Japan objects on the ground that another effort is being made to diminish her rewards of victory, and China has not yet committed herself.

In fact, while the enterprise is splendid and alluring, the adventures are not yet working their El Dorado. The prospectus may announce the "impressive object lesson to China" and the removal of railroads "from the field of oriental politics," but the list of subscribers to the prospectus lacks the names of jealous Japan and suspicious China.

Special Election at The Dalles.

(Special Dispatch to The Journal.)
The Dalles, Or., Jan. 21.—A special election will be held in The Dalles school district to vote on bonding the district for \$25,000 to erect additional school buildings. The district now has 157 school children. The population of the city is rapidly increasing.

New P. O. at St. Helens.

(Special Dispatch to The Journal.)
St. Helens, Or., Jan. 21.—Industrial improvements continue in St. Helens.

The latest is a new postoffice building, erected by M. C. Gray, the present postmaster. The building is a one story frame, commodious building of two rooms. One will be used as a postoffice and telegraph office and the other as a barber shop.

MAY PROVE FATAL

When Will Portland People Learn the Im- portance of It?

Backache is only a simple thing at first.

But when you know 'tis from the kidneys; That serious kidney troubles follow; That diabetes, Bright's disease may be the fatal end.

You will gladly profit by the following experience. "Tis the statement of a Portland citizen.

J. C. Buckler, 8 E. Ninth street, Portland, Or., says: "In my estimation there is no remedy equal to Doan's Kidney Pills in curing kidney disorders. There was a constant soreness across the small of my back and stooping or lifting would cause sharp twinges in that part of my body. I tried one remedy after another in an effort to get relief, but without result. When Doan's Kidney Pills were brought to my attention I procured a supply and was benefited by them from the first. I continued their use and they soon completely removed the pain from my back and corrected the action of the kidney secretions which had been somewhat irregular."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

A. B. Steinbach & Co.

Eilers Great Warehouse Sale and Advertising Test Positively Ends Tomorrow—Bring the Certificate in at Once—Pay Balance as Best Suits Your Convenience—Hurry Is the Word Now

Tomorrow will see the end of Eilers' Great Warehouse Sale and Advertising Test. With it closes the greatest and most remarkable money-saving event ever known. All past selling records have been broken. Upwards of three hundred and fifty shrewd business men and women have profited by this sale. This proves conclusively that everything we've said and claimed is exactly so.

While our new wholesale warehouse and factory isn't yet completed, we've practically accomplished our object. The many carloads of fine pianos which could not be unloaded owing to the delay in our building, caused by unlooked for and unusual weather conditions, have practically all been disposed of.

The remaining instruments—some twenty pianos—should be gone by tomorrow noon—in any event, this great offer will be withdrawn and sale will positively end tomorrow evening.

It's better to get one of these remaining fine pianos now at the greatly reduced prices than to wish you had. Come right away—this afternoon or this evening if at all possible. Eilers Piano House, 353 Washington St., at Park.

Cut This Out—Worth \$30
