

TRAVELERS HURLED TO DEATH IN ICY STREAM

BAILEY ARRESTED FOR BEING CRUEL TO HIS CATTLE

Warrant for State Dairy and Food Commissioner Taken Out by Humane Society of Eugene.

SERVED WHILE HE IS SICK IN BED

Charge Is That Several of Animals on His Ranch Died From Hunger.

A warrant for the arrest of State Dairy and Food Commissioner J. H. Bailey was served through his attorney, Drew P. Price, yesterday by Deputy Sheriff Bowen of Lane county. Bailey is now held under \$100 bonds to appear before the Lane county circuit court to answer to the charge of cruelty to animals preferred against him by the Humane society of Eugene. The commissioner was sick in bed when the officer reached Portland yesterday and the warrant was served upon him through his attorney.

The charge on which Bailey is summoned before the Lane county tribunal is the outcome of the discovery of conditions existing on the commissioner's ranch, 20 miles out of Eugene. It was found a few days ago that owing to lack of proper food a score of fine cattle had died and that their death was due apparently to the negligence of the owner. Practically no food had been given the cattle for some weeks and in many instances it is said, they had gnawed at the fence posts and leeks on the ranch. All the grass had been eaten up.

Bailey, in explaining the condition on his ranch, claimed that he had been sick for some time, and had thought that the ranch was being taken care of. He had taken a carload of cattle away from the ranch some weeks ago, and did not know that there were over 40 head left.

Representatives of the Eugene Humane society discovered 10 carcasses of dead cattle in several sections of the field. The grass was eaten up and the cattle not already dead were found in many instances to be too weak to be examined. A committee appointed by the Eugene Humane society under conditions to be exactly as described to them, and the starting of the criminal proceedings was the result.

The date for trial of Mr. Bailey has not been set. Bailey said this morning that he is suffering from ptomaine poisoning, and has been ill for a month. He was not at his office yesterday, but came down for a short time this morning. He says his doctor has forbidden his leaving town for some time. It will probably be at least three weeks before the case comes to trial.

MEAT MONOPOLY SWINGS CLUB AT ALL BOYCOTTERS

Ohio Retailer Says He Has Been Served With Notice of Counter Boycott by Big Interests at Chicago.

FEDERAL GRAND JURY READY TO INVESTIGATE

Criminal Actions to Have No Immunity Attachments, It Is Claimed.

(United Press Leased Wire.)
Canton, Ohio, Jan. 22.—Ohio, the state in which the nation-wide protest against high prices of meat started, is facing a meat boycott by the leading Chicago packers, according to E. E. Beard, a local retail meat dealer. Beard said that representatives of Swift & Co., Nelson Morris & Co., Schwarzschild & Sulzberger and the Hammond Packing company, had notified him that unless he and other retailers maintained the present prices of meat in Ohio the Chicago packers would boycott the state.

"They told me point blank," said Beard, "that they were ready for the meat strike, and that whatever they might lose by the strike they would get back from the people of Ohio in the future."

(United Press Leased Wire.)
Cleveland, Ohio, Jan. 22.—Here is the pledge, signed by workmen, that started the action against the high prices of meat throughout the country:

"We, as wage-earners, are willing to assist the state and municipalities in probing into the high cost of living, particularly the cost of meat, which is almost prohibitive.

"The agitator can best become effective by refraining from eating meat for a period of 30 days.

"If this does not bring the price within the means of poor people, then we will refrain from eating meat for 60 days.

"We, as citizens, do hereby ask our representatives in each councilmanic district and the legislative bodies to keep this agitation uppermost in their minds and actions until the result manifests itself.

"We ask the cooperation of all people who are interested in fair play and the future of our otherwise prosperous country."

FORMER PRESIDENT ROOSEVELT WADING AN AFRICAN STREAM

Former President Roosevelt crossing a stream in an African wilderness at the head of his bearers. The entire party is strung out behind, and are invisible in the picture. It was on this journey that Colonel Roosevelt brought down a monster hippopotamus, and the natives acclaimed him a mighty hunter.

50 MAY BE DEAD IN A WRECK ON CANADIAN ROAD

Montreal-Minneapolis Passenger Train Goes Over Embankment Near Sudbury, Ontario—22 Injured.

WEAKENED RAIL IS CAUSE OF DISASTER

Three Coaches Submerged in Spanish River—Divers Search for Bodies.

(United Press Leased Wire.)
Sault Ste. Marie, Ont., Jan. 22.—Following a more thorough search of the wreck of the Canadian Pacific's Montreal-Minneapolis express, which plunged over an embankment into the Spanish river, 35 miles west of Sudbury, Ont., last night, it is estimated this afternoon that between 35 and 40 persons lost their lives.

The records show that when the train left Sudbury there were about 100 persons on board. Of this number 22 were seriously injured, while practically none escaped unhurt.

Many of the injured are in a precarious condition. It was predicted by physicians who are attending them that the death list would reach 50.

Three of the cars that were hurled over the embankment were submerged in the waters of the Spanish river, which is filled with ice. Divers were sent to the scene of the wreck. They will explore the sunken coaches, but it is not probable that they can complete their work for at least three days. Until then the number of dead cannot be correctly stated.

The train was composed of one mail, one baggage and one express car, a second-class coach, a colonist coach, a standard Pullman, a first-class coach and a dining car.

While the train was crossing the steel bridge over the Spanish river, the second-class coach left the rails, and was cut in two when it was hurled against the bridge abutment. Half of this car, with the Pullman coach, the first-class coach and the dining car, were plunged through the ice into the river, after crashing over the embankment.

The heavy Pullman sleeper broke away from the rest and toppled over.

SUFFRAGETTES IN MELODRAMA

Mail to an Unnamed Personage Target to Show How Close They Can Shoot.

(United Press Leased Wire.)
London, Jan. 22.—Officers from Scotland yard are trying to learn the identity of the suffragettes who mailed to a member of parliament who was standing for reelection a paper target that had been perforated with bullets.

The arrival of the target came close upon the suffragettes' announcement that they intended to make a demonstration before the national elections were concluded and the discovery that several of the "votes for women" leaders had been indulging in secret revolver and rifle practice.

At Scotland Yard it was admitted today that a shooting gallery the suffragettes had established was raided. The women, they stated, vanished before the officers entered the place. They appear to look with significance upon the ominous warning furnished by the target, which they declare was intended to illustrate the proficiency of the women marksmen have attained.

The name of the statesman to whom the target was sent the authorities refused to divulge. The impression is general, however, that Winston Churchill was the recipient.

FEDERAL GRAND JURY TO MEET MONDAY TO OPEN INVESTIGATION

(United Press Leased Wire.)
Chicago, Jan. 22.—With leading attorneys for the Chicago meat packers hurrying toward this city or already here, the federal grand jury is making preparations today to meet next Monday for the initial movement in the government's second big fight to break an alleged combination of the packers to maintain high prices for meats.

United States District Attorney Sims will open a criminal prosecution of the packers with the presentation of a large amount of data gathered by himself and his assistants. That the government intends a vigorous campaign is believed to be shown by the fact that civil has for the time been made secondary to criminal procedure.

Sims has scores of witnesses here who have been working secretly for several months. These are expected to go at once before the grand jury, and it is upon their testimony that Sims expects to secure indictments of leading packers.

Swift & Co., Armour & Co., the Nelson-Morris company—names standing for nearly a century in the packing world—are designated as concerns which must undergo the federal inquiry. The National Packing company reputed to be the corporate name of the "beef trust," will also be investigated.

The meat barons connected with the (Continued on Page Three.)

31 DEATHS IN FLOODS THAT ARE SWEEPING FRANCE

Vineyardists and Small Farmers Lose Much Property and Livestock Drowns—Paris Suffers.

(United Press Leased Wire.)
Paris, Jan. 22.—Thirty-one persons are dead as the result of the floods that have swept southern and eastern France during the past three days, according to advices received here. News from the stricken sections is meager and it is feared the casualties will greatly exceed that number.

Although the swollen rivers are still rising, there is hope that the high water mark will be reached before tomorrow. The rains have ceased, but the rivers are being fed with floods from smaller streams.

Enormous damage was done yesterday in and around this city. The walls of the Paris & Orleans railway tunnel, which was flooded yesterday, were greatly weakened, and engineers who examined them expressed the fear that they would collapse. Traffic in the Metropolitan subway is partially tied up.

Vineyardists and small farmers suffered severely. Hundreds of acres in the country districts were submerged and much livestock drowned. The flooding of the cellars of the Chablis wine growers resulted in heavy losses. The destruction of the city morgue by flood in Lyons is reported in dispatches from that city. A number of corpses were borne away on the water that demolished the building and carried away the wreckage. Firemen and police are endeavoring to recover the bodies.

FRAUD CHARGE DIVIDES MINERS

Lewis and Green Mutual Accusers—Fight Dims Hope of Amalgamation.

(United Press Leased Wire.)
Indianapolis, Jan. 22.—A division of the United Mine Workers of America, resulting from the bitter recrimination over the reelection of President Thomas L. Lewis, is not expected to lend strength to the organization's project for amalgamation with the Western Federation of Miners.

William Green, of Ohio, who was defeated by Lewis for the presidency of the mine workers, questioned the vote given Lewis. Lewis came back with a counter charge that there had been fraudulent voting for Green. This has divided the convention into bitter factions and brought out the animosity that has been latent since the election of Lewis.

Lewis' committee of mine workers is to meet a committee from the Western Federation of Miners, of which President Moyer of the federation is chairman.

In the uproar that followed the Green and Lewis recriminations, Francis Feehan, an anti-Lewis delegate, refused to sit down, and Lewis ordered him ejected. Several friends rushed to Feehan's defense, but Feehan ended the disturbance by resuming his chair. For several minutes the hall was in an uproar, and delegates almost came to blows in various portions of the room.

Lewis declared that the action of the Green faction had the appearance of a deliberate plan to break up the convention.

BELLINGHAM MAN TWICE A HERO

Captain Gawley Risks Life to Save Daughter and Father-in-Law From Fire.

(United Press Leased Wire.)
Bellingham, Wash., Jan. 22.—Fighting his way through choking clouds of smoke in his burning residence early today, Captain Hector Gawley groped through the bedroom of his daughter Jessie, 16 years old, until he found the senseless girl and bore her to safety. Then he again faced the blaze in the rooms of the upper story and struggled to the inner hall, where he found his aged father-in-law, Henry Marshall, and led him to the outer air and safety.

Seconding his father's efforts, helping him to raise the ladder and directing neighbors who ran to the house to help, Arthur Gawley, the little 10-year-old son of the captain, worked side by side with his parents. Helen Gawley, 8 years old, made a sensational escape from the house, crawling from her bedroom window to the roof of the porch and leaping into the arms of bystanders.

The fire broke out at about 3 o'clock this morning.

RESIGNATION OF DEVLIN DECLINED BY MAYOR SIMON

Councilman Takes Umbrage at Criticism of His Public Career Made by Baker and Rushlight at Recent Meeting

Councilman Thomas C. Devlin has resigned.

Following the sharp debate waged by Mr. Devlin on the one hand and Councilman Baker on the other at the last session of the city council when that body passed an appropriation ordinance over the vehement protest of Mr. Devlin, the councilman was taken severely ill.

During the progress of the debate Councilman Baker and Councilman Rushlight made unkind references to the conduct of the city auditor's office during the time Mr. Devlin was at its head. It was noticed that Mr. Devlin left the council shortly after his efforts to prevent a raise in salaries in the auditing department had proved to be unavailing when the final vote on the appropriation ordinance was announced.

Mayor Simon said this morning that he had excused Councilman Devlin at the time, knowing that he was not well. The next day Mr. Devlin came to the mayor and seemed to be on the verge of a nervous collapse. He declared that he was discouraged and sick and wanted to retire from public life and from business.

The mayor refused to accept the councilman's resignation and advised him to take a long trip for his health. Mr. Devlin has since gone to southern California. Mayor Simon will ask the council to grant him an indefinite leave of absence but hopes that he will be able to resume his official duties at an early date.

MRS. BRAYNARD, INDIAN, GIVEN DIVORCE DECREE

(Special Dispatch to The Journal.)
Albany, Or., Jan. 22.—A rare and interesting decree in the Linn county circuit court was the granting of a divorce yesterday to an Indian. Cecil Braynard, deserter and numerous acts of cussedness by the defendant, Warren Braynard, constituted the grounds for the decree.

AUTOMOBILE SECTION MARKED FEATURE OF TOMORROW'S JOURNAL

The second annual automobile show, given under the auspices of the Portland Automobile club, occurs next week. That it will be the best show of its kind ever given in the northwest is conceded, and record crowds are expected to throng the Armory every afternoon and evening.

The Sunday Journal for tomorrow will contain a page section devoted to the automobile show, entirely to the automobile show and what it represents, and constituting an authentic chronicle of what is doing in motor affairs locally and in the country at large.

DEPUTIES NAB RIVER PIRATES AND FIND \$5000 STOLEN GOODS

What is thought to be the rendezvous of a band of river pirates was found yesterday afternoon in a secluded spot near Smith's landing, a short distance below Woodland, on the Lewis river. George Feran and George Burke were arrested by Constable Lou Wagner and three of his deputies. Feran tells a strange story of being held a captive by Burke and forced to stay in hiding. Loot to the value of more than \$5000 was found.

Both Showed Fight.

The two men had two launches moored in a clump of bushes near the landing. When they were called out both drew guns and attempted to make a fight. Deputy Constable Gardner aimed his rifle at Burke, who is considered the leader, and fired. The bullet whizzed past his ear. He threw down his gun and surrendered. When the officers searched him they found a .32 calibre automatic revolver and 40 rounds

COLORED BISHOP UPHOLDS LYNCHING

Admonishes His People to Give Whites No Occasion—Social Separation Is Necessary.

(United Press Leased Wire.)
New Orleans, Jan. 22.—"There are times when I cannot blame mobs for lynching negroes; there are certain occasions when such procedure may seem to be justified," was the radical statement made by Bishop E. Hampton before the African Methodist conference.

Bishop Hampton declared that the only logical means of avoiding the recurring mob violence was for colored men to afford the whites no excuse. This, he stated, could be done only through social segregation of the races.

"I believe the future of the negro race is dependent upon thorough separation of the races along social lines," he said. "I don't seek admission to any white man's parlor, nor do I invite him to my home in a social way."

STRAY SHOT IN TAGGART'S EYE

Noted Politician Injured While Hunting in Mississippi With Secretary.

(United Press Leased Wire.)
Indianapolis, Ind., Jan. 22.—In spite of the assurances of physicians that they could save the sight of Tom Taggart's right eye, word was received this afternoon from Fayette, where the Democratic national committee was shot, while hunting, that a shot pierced the eyeball, making him partially blind.

Taggart received a charge of birdshot in the face, right shoulder and chest, from the gun of S. W. H. Norton, his secretary, who had fired at a bevy of quail.

One of the shot passed through Taggart's coat and penetrated the eyeball. Norton is grief-stricken at the unfortunate ending to the hunt.

(Continued on Page Eleven.)

MISSOURI PACIFIC TRAIN HELD UP NEAR ST. LOUIS

(United Press Leased Wire.)
St. Louis, Mo., Jan. 22.—Four masked men held up Missouri Pacific train No. 8, 20 miles from St. Louis and after detaching the baggage and mail and express cars, compelled the engineer to run about 10 miles where 26 mail sacks were ripped open and much registered mail removed. The safe in the express car was not blown open.

Poses are now in pursuit of the robbers, but owing to the sparsely settled country, the bandits were allowed several hours' start before the news of the robbery reached St. Louis.

VAUDEVILLE WAR MAY BRING ANOTHER SHOW HOUSE TO PORTLAND

(United Press Leased Wire.)
San Francisco, Jan. 22.—A vaudeville war between the Orpheum and William Morris circuits, raging through the country from the Atlantic to the Pacific coast, is forebadowed today by the failure of the opposing interests to effect an agreement.

The establishment of Morris vaudeville houses at Portland and possibly at Seattle, in the north, and at Los Angeles and Long Beach in the south, is promised by Morris. Meanwhile, Martin Beck, general manager of the Orpheum interests, is preparing to leave tomorrow for southern California with the intention of building Orpheum houses at Santa Barbara, Riverside, San Bernardino, Pasadena and San Diego are believed to be the cities into which the Orpheum circuit will enter.

According to Morris, Beck recently endeavored to buy him out so that the Orpheum management might have

VAUDEVILLE WAR MAY BRING ANOTHER SHOW HOUSE TO PORTLAND

a clear field. Morris rejected the offer. He said Beck then offered him "time" on the Orpheum circuit in the west, provided Morris consented to allow Orpheum stars to appear in the east. Morris declares that he turned down this proposal also. Beck denies that either offer was made by him.

The attitude of Morris is that more hits are made in New York, where he has entries, than in Cincinnati, the eastern terminus of the Orpheum circuit. He declares he is perfectly satisfied to remain outside the Orpheum fold in the west, believing that his attractions are strong enough to draw attendance even to vacant lots.

"There is more of an object for the Orpheum to gain a foothold in New York than for my artists to appear on Orpheum stages in the west," said Morris.

Men in Freight Elevator Injured.

(United Press Leased Wire.)
Los Angeles, Jan. 22.—A freight elevator in the Hughes Manufacturing & Lumber company plant dropped 15 feet yesterday with five men. Will E. Rall, John McComb, Edward Cass and Jake Gollish were seriously injured. Rall may not recover. E. J. Willie escaped with minor injuries. The men were descending from the second floor when the elevator dropped. A truck load of doors and casings which were on the elevator crashed on top of the prostrate men and caused most of their injuries.
