This 'Was Boozing Instead of Fighting, and They Landed in the Bastile.

(United Press Special Wire.) Montana, Feb. 2.—The fire that killed a section of Marysville, the mining camp, failed to destroy the town's look-up and today the little town of 20 men who were arrested yesterday for hampering the efforts of the Butte fire department by trying to get free drinks from saloons in the path of the flames.

NAVY SCANDAL

(Continued From Page One.) Lots of other and more serious matters than Miss Hester's picture and its disappearance have been going on around the navy.

BROADWAY LINE DIRECT TO ALAMEDA PARK

REGULAR BROADWAY CARS RUN ON REGULAR SCHEDULE TO ALAMEDA PARK BEGINNING TODAY — PRICES ON ALAMEDA PARK LOTS WILL BE ADVANCED MARCH 1.

The promise for streetcar service direct to Alameda Park is now fulfilled by established fact. This morning the regular Broadway cars began running direct to Alameda Park on regular Broadway schedule.

The Alameda Land Company, in order to secure this great advantage for the residents of Alameda Park, have paid twelve thousand dollars to extend the carline to the park.

This extension was advertised to be completed with cars in operation on February 28. This promise has been fulfilled to the letter.

In order to allow all persons who have been considering the purchase of lots the opportunity to buy before the advance in prices, this advance has been postponed until March 1st. On this date all prices will positively be advanced.

Everyone wishing to see Alameda Park may now take Broadway car at 8th and Washington streets and go direct to this beautiful residence section.

With the coming of warmer weather the street improvements will be rushed as fast as men and money will do it. Scores of homes to be built this summer.

The present prices on Alameda Park lots are positively fifty per cent lower than surrounding values. Concrete examples of this will be given upon application. Just one instance: Several days ago a 100x100 on the corner of Twentieth and Thompson streets, Irvington, sold for \$6000. A lot of the same size with superior location and with superior improvements being installed may be had in Alameda Park for \$2000, exclusive of improvements which will make it worth \$3000 when the improvements are all installed. This is but a typical example. Other lots may be had for as low as \$850.

All who have as much as ten per cent of the purchase price to lay down may buy now in Alameda Park and secure, not only a choice location, but also the low price which will positively advance March 1st.

Further particulars may be had of the Alameda Land Company, owner of Alameda Park, 822 Corbett Building.

MOST PEOPLE DO NOT KNOW CAUSE OF THEIR SICKNESS

Does human health depend on one organ alone? This question is becoming widely discussed since L. T. Cooper first advanced his theory that the stomach is the true seat of life and all health dependent upon it.

Mr. Cooper, who has met with remarkable success in the sale of his new medicine, believes that the stomach is responsible for most sickness, and that this organ is weak in the present generation. While discussing this theory recently, he said: "I am asked time and again to tell why my medicine has such a record wherever I have introduced it. My answer always is, 'because it restores the stomach to normal condition.' No one will deny that today there are more half-sick men and women than ever before. Nothing medical seems to be the matter with them. They are just half-sick, most of the time. They don't know really what is the matter with them. I have had with thousands during the past years, and few knew indeed what a trouble was. One said nervousness, another said kidney trouble, and another complained of some constipation or heart trouble, or lung trouble, but treated, as they called it, most of these diseases at different times, and 'tired all the time.' I know positively that every bit of chronic ill health is caused by stomach trouble, and nothing else. My Discovery puts the stomach in good condition in about six weeks. My new people can be stuck with a bad digestion. That is, by my medicine is selling at such a tremendous rate. I have convinced many thousands of people that these things are so, and the number is growing by leaps and bounds."

Among more recent converts to Mr. Cooper's beliefs is Mrs. Lottie L. Miner, living on Rural Route No. 2, Henniker, N. H., who says: "I was in poor health for six years, from stomach trouble and indigestion. Quite frequently my stomach was so weak that it would not retain solid food. I had vomiting spells every morning, and was subject to frequent attacks of dizziness. Life became such a burden that I often felt that it was not worth the living. I tried everything I could hear of, but found nothing that would afford relief. "For some time I had been reading of the Cooper remedies, and finally decided to give the New Discovery preparation a trial. After taking the first bottle I noticed a marked improvement. Five bottles made me entirely well. I can eat anything I wish, and have not been troubled with my stomach since. The dizziness disappeared long ago. "My mother, Mrs. Susan Parkins, is a nurse of long experience. Both she and my father have used the Cooper remedies with splendid results. I will be glad to answer any personal correspondence in regard to my case."

affair that the original difficulty appears to have become a minor issue. When the friendship of Auld and Miss Swift was mentioned in connection with the breaking of the Swift-Storer engagement, during the hearing before the court, a halt was called inasmuch as the court refused to permit this possible phase of the case to be brought out.

JAMES J. HILL GREAT BOOSTER

"We would appreciate a line from you stating whether in your opinion there is room for such men as James J. Hill in the northwest, but have no family. One is employed in the auditing department of a railroad company here, the other is a young lawyer. I am single and have been in the real estate and building business. None of us has a falling out with anyone, and we are disinterested with New York City and believe much better opportunities can be had west than in the artfully crowded east.

"I personally would appreciate any information you will favor us with as to prospects in different lines as well as suggestions as to any newcomers who have come to your city and been successful."

HENEY TRIPS UP HERMANN

(Continued From Page One.) timony was badly shattered yesterday afternoon and again today when Heney produced letters which gave testimony flat contradiction. Hermann had testified that he did not remember having any correspondence with W. G. Jones, Heney produced some of this correspondence, bearing Hermann's signature. Hermann explained by saying that the lapse of time between the date of the letters and the present, and the further fact of the voluminous correspondence as a commissioner, made the writing of a single letter, or a few, cast but a faint impression on the mind.

This morning again Heney produced a second letter written by Hermann to Mrs. Maud Silverstein, regarding her appointment to a position in Surveyor General Aldrum's office. Hermann had testified that he had only written one letter to his remembrance.

Yesterday, after being baited for some time by Heney about his political ambitions and the price of fat and justly earned, which he had held out to his supporters and those he desired to have as such, Hermann denied in very positive terms that he was ever a candidate for the United States senate in 1901 and 1902.

Produces Other Letters. Heney at once produced letters written by Hermann to George C. Brownell at that period in which Hermann planned his campaign for senatorial election at the 1902 session of the legislature and promised, absolutely, to give Brownell a high political remuneration should Brownell be able to shape the hopes of the commissioner into success.

Hermann had also denied that Collis F. Huntington, mentioned in the first letter shown him, had been a close friend, and in the next letter read, he referred to Huntington as a warm friend and told of his always making a personal visit to the commissioner's office whenever he was in Washington.

Just before noon Heney went into the subject of the Haisinger report on the Hyde-Benson frauds and the crooked clerks in Hermann's office who were giving information to Hyde and Benson.

Hermann, in answer to Heney's questions, testified that he had received the report, making its sensational disclosures, on June 15, 1902, and that he had given it to Clerk McGee with a directed answer and the command of great secrecy in order that none of the crooked clerks should be exposed.

took possession of Report. McGee had brought it back to him on June 21, Hermann said, together with the answer, and he had at once taken personal possession of the report and at the same time ordered all of the Hyde-Benson lands suspended and held up, and the same day Hermann said, he had taken the report to Secretary Hitchcock, shown him the startling disclosures and asked him to take charge of it because he feared to file it in the land office for fear the unknown clerk who was betraying him would see it.

Heney asked Hermann particularly if he had taken the report to Hitchcock in his own motion, and Hermann said he had. Heney asked if Hitchcock was at that time not suspicious of him, and Hermann said that he was not suspicious of him, but that he was suspicious of the clerk who had betrayed him.

Hermann, in answer to Heney's questions, testified that he had received the report, making its sensational disclosures, on June 15, 1902, and that he had given it to Clerk McGee with a directed answer and the command of great secrecy in order that none of the crooked clerks should be exposed.

Judge Wolverton decided that he would hear the argument when the jury was not present, and it was taken up immediately after the noon recess.

The testimony of Secretary Hitchcock, in general, was to the effect that the clerk, McGee, had told Assistant Commissioner Richardson, and Richards had told Secretary Hitchcock, that the name of the answer made to the report before it had been submitted to the commissioner by McGee, and had his private secretary, W. Scott Smith, telephone to Hermann, directing him to bring the report to his, Hitchcock's, office.

Mr. Heney desired to introduce this evidence as contradictory to Hermann's testimony of how he took the report to Hitchcock on his own motion. The court will pass upon the introduction of the evidence, which Colonel Worthington contends is barred by the rules of evidence.

dence, during the afternoon. If it is introduced and allowed to go before the jury, it will tend still further to shatter the impression made by the defendant in his direct testimony.

HENEY INTRODUCES LETTER TO PROVE HERMANN TOLD FIB

Examining his testimony on cross-examination yesterday afternoon, Mr. Hermann was taken over the Rogie river and back and forth. Mr. Heney read a letter written by Hermann to the secretary, protesting against the creation of the reserve, and quoting editorials and articles from Oregon papers. One while its most vital to every man in the method of promoting reserves, become the point about which the testimony revolved.

Heney tried to make Hermann admit he had read the article, for the purpose of showing the fact that Hermann would therefore know of the school land frauds.

Heney asked Hermann if he knew of all the modes and methods of fraud, if he did not know of the school land frauds, Hermann said he did not know of the school land frauds.

article. There were very many of the Oregon papers I did not have time to read. If congress and the secretary had listened to me there would never have been occasion for these land fraud prosecutions by you or anyone else."

Objects to Article. Heney offered to put the article in evidence and it was objected to by Colonel Worthington because Hermann said he had not seen the article, and would not be bound by it. Judge Wolverton reserved his ruling on the admission of the evidence.

Mr. Heney then went into Hermann's senatorial aspirations, and read letters written to George C. Brownell about political matters and appointments. Hermann called attention to the fact that he never broken a promise made by him. He would never forget Brownell's loyalty, and assured him of his remembrance.

Favored Southern Pacific. The defendant promised to intercede with Collis F. Huntington to secure an appointment as Washington attorney for the Southern Pacific. Hermann said he had many places in mind for Brownell in case he was elected to the senate. He promised absolutely to work for Brownell in case the senatorship should come to him (Hermann).

This letter was put in evidence in contradiction of the direct statement of Hermann, made a few moments before, that he had never been a candidate for the senate, or had promised political favors to anyone.

Memory Again Fails. Hermann said he could not remember of having any meeting with Mays when he was here in 1901. He did not consider that Mays was in sympathy with his senatorial aspirations. He thought, however, he talked with W. G. Jones during that visit. He did not think he talked with Jones about the senatorship, though he might have talked to him.

In September of 1902 Hermann did not see Jones, he said, though he may have seen him in the later fall while on a short visit to Oregon.

For the Benefit of Our Readers, Prof. T. H. Midgley Gives Interesting Talk on How His Idea Has Worked Remarkable Results in Curing Constipation Without Medicine

A Wonderful, Clean Straight Talk on the Folly of Using Cathartics for Trying to Cure Constipation, and How to Stop It Absolutely Without Pills or Medicines

For the Benefit of Our Readers, Prof. T. H. Midgley Gives Interesting Talk on How His Idea Has Worked Remarkable Results in Curing Constipation Without Medicine

For the benefit of our readers we publish a timely and interesting talk by Professor T. H. Midgley on the folly of using cathartics for trying to cure constipation, and how to stop it absolutely without pills or medicines. The talk is a clean, straight talk on the folly of using cathartics for trying to cure constipation, and how to stop it absolutely without pills or medicines.

Most Diseases Caused by Constipation. Sewage for the Brain. "It goes to the brain naturally, and to every part of the body, every organ being fed on this polluted blood or sewage. I go to your face regularly, and child in this country—the way to stop the spreading danger of chronic constipation of it are so many and varied, as seen in hundreds of letters from those who have done a public benefit to make them known. We recommend Professor Midgley most earnestly to our readers.

24-Hour "Habit" All Important. "Although it is one of the simplest things in the world to cure even the worst case of chronic constipation, yet nearly every other man and woman who meet is positively so stopped up as to be hardly able to think clearly. To get the habit, every 24 hours regularly, works wonders. By the habit I don't mean the cathartic habit, but I mean that natural, easy move that every one ought to have without being obliged to make a rush for the pill box every night."

Must Quit Pill Habit. "You young and middle-aged men and women who eat and drink everything you like, and you old men and women who keep your bowels going, you don't realize that there would not be one-hundredth part of a disease if you were to quit your pill habit."

Cathartics Can't Cure Constipation. "It is true that cathartics since out the bowels, they only move them out that bowel-moving juice or secretion which Nature has put in every good bowel to make it work easy and clean. This natural lubricating fluid is cleaned out, your bowels become mere dead pipes. Then you get a case of constipation, and pills are swallowed to do the moving. This goes on, over and over again, and this is why so many are constipated."

How You Can Stop Constipation Absolutely. "If you will do as I say you can get rid of your constipation right now and forget about it ever after."

The Opportunity of a Lifetime. This method offers the greatest opportunity to be cured of chronic constipation that you have ever had come to your notice.

You would be amazed to see the array of letters that are received daily by this benefactor of mankind. These letters are from worn-out, pill-ridden patients who have tried the "Midgley Way" as the last desperate effort, and to their surprise have been easily and

quickly cured. For the benefit of our readers we have taken the trouble to pick out and read a few of these letters and publish them.

Had Tried Every Kind of Medicine. Miss Ella Coe of Boone, Iowa, says: "I have been a constant sufferer from that dread disease, constipation, all my life, and had tried every kind of medicine, and had consulted many different doctors, but none proved successful. At last I concluded to give Prof. Midgley's treatment a trial. I did so and at the end of one

with engraved cuts to show just how the exercises should be taken. These exercises are so easy that they are used without difficulty by delicate women and very elderly people, yet they are so so effective, that the relaxed bowel muscles are reduced to normal activity in a remarkably short period. No restrictions are placed upon the diet, though I do insist on the use for a time of a certain concentrated Fruit-Food called "Fomol," which I have discovered to be possessed of a marvelous tonic and strengthening effect on the entire digestive system. The wonderful Fomol Fruit is as pleasant to the taste

every cathartic on the market in value. Doctors could do nothing and death seemed near. By following your advice, I cured myself permanently in just one month."

Doctors Admit "Drug Sin." The Chief Clerk of the Pennsylvania Railroad Company, located at New Brunswick, N. J., says: "I have suffered from chronic constipation for the past six years, taking most of all of the pills and potions I ever heard of. At one time I became so bad I decided to give up my position with the railroad, as it cost me ten days were numbered."

One physician told me that he, as well as I, had been poisoning my system with cathartics, and that the purgatives inflame the bowels and eventually paralyze them. I followed your advice, and spent a month for drugs of any sort and I am cured."

Look Out for Your Nerves. There is hardly anything which restores the nerves so quickly and surely as regular bowels. Most people who have weak nerves and are run down, are chronically constipated. It is surprising to know that a time a man or woman can build up a strong body by being absolutely regular and taking Prof. Midgley's treatment.

Our readers can be positively certain of results if they will send for Prof. Midgley's book and follow his advice. He is known all over the country as the "Constipation Wizard." His method is all so wonderful, and so simple, that it is not necessary to spend many to be a positive pleasure to adopt the "Midgley Way" of getting cured right at home. It is worth hundreds of dollars to you if you will have saved years of misery, bad health and danger of disease.

Those who are cured by his Rational Treatment say they realize what it is to really live and have that exquisite feeling of perfect health, cheerful spirits, good digestion, clear mind, perfect memory, energy, courage and ambition, to a degree which they never before could understand or experience, and all this by taking his treatment in their own homes.
