TALKS on TEETH By the BEK DENTAL CO. DENTISTS. Pain A la Mode. Save ignorance, no other one thing keeps so many people away from the dental office as the fear of being hurt. The dentist who does good work without inflicting severe pain usually has no difficulty in securing plenty of work. Good, classy work generally commands remunerative fees. But if it could suddenly dawn on the minds of the public that all dental work could be done with the infliction of so little pain that it would not be minded, which is a fact in our office, the dental offices of this land would overflow with patients. It is the shrewdest form of business (quality next). No word in the code of ethics prevents our exercising that skill and care in this respect which shall make our offices the mecca of the fearful. He may do good work. This point needs no amplification. His fillings should be in the language of the common people, "stick." His upper plates should stay up and the lower ones down. Briefly, our ALVEOLAR METHOD is as follows: If any one is wearing a partial plate or bridge, and has two or more teeth left in either jaw, we will supply a full set, without using plates or bridge work, that will be as firm in the jaws as nature's teeth and as permanent, and more beautiful. The work is practically painless and carries our guarantee of satisfaction. Our Alveolar Method (bone teeth), a disease given up by other dentists as incurable, is another of our specialties. We cure it absolutely. It's a beautiful statement to make, but we can do anything that is possible in dentistry, and what we do is always of the very highest class. Our booklets, Alveolar Dentistry, are free. Write for one if you cannot call. We have samples of our work to show at all times. THE BEK DENTAL CO., DENTISTS, 311 to 314 Abington Bldg., 104 1/2 2d St. Sundays, 10 to 12. Keep the address. Terms to reliable people.

Myrtle Elvyn appeared in Portland last year with the Chicago Symphony Orchestra. The Morning Oregonian of May 1, 1909, said of her playing at that time: "Her piano playing reminds me of a mass of shining pearls, with sparkling prisms of color. Her encore was an arrangement of the 'Blue Danube' waltz, by Schulz-Erlyor-Godowsky. The fair pianist is really one of America's great artists." Myrtle Elvyn, as well as many other world-famous artists, uses the Kimball Piano exclusively in all her concerts. Kimball Pianos, grand and upright, Organs and Pipe Organs sold in the West exclusively by
