62 X C R P 58 Paid ALWAYS OPEN Eilers Piano House

New York, Feb. 4, 1910

Eilers Piano House, Portland, Or. Account order thirteen hundred fifty pianos shipped within next sixty days following manufacturers agree accept prize contest checks.

Fifteen of America's greatest, most responsible and eminently renowned piano manufacturers joined Eilers Piano House in this undertaking.

Of course, "piano certificates" or "prize checks" have no intrinsic value in themselves and can only be accepted by a dealer in position to place large orders, and when factories agree to cooperate by rebating all or a great part of the amount represented by the checks.

Why a Bonus of 5 Per Cent? In the past we have conducted several publicity contests, where certificates have been issued. Our experience has been that the cost of the prizes, the advertising, etc., has averaged about 5 per cent of the volume of business resulting therefrom.

In this instance it is not costing us a cent for this expense, so we have determined to give our patrons the benefit of this additional saving. Each and every piano in our stock bears a card upon which is marked in plain figures the regular established lowest retail price of the instrument.

Remember, 5 per cent does not mean a loss of profit to us, but represents the amount of money that would ordinarily go for preliminary advertising, printing bills, etc. In this case it is your gain.
